Enlightening Uniqueness

In sette secoli di storia abbiamo visto mode andare e venire. Alcune minimaliste, altre più barocche, ma tutte ugualmente prese ad inseguire il tempo che passa, nella disperata ricerca del "nuovo".

A Venezia il tempo, invece, scorre lento. Non c'è fretta, solo tempo e spazio necessari per affinare un'arte.

Così, abbiamo deciso di prenderci il nostro tempo, per fare qualcosa di unico e originale. Qualcosa che possa durare per sempre. Qualcosa che vada oltre il fascino effimero di una stagione.

Ci vuole forza per plasmare il vetro dalla sabbia e dal fuoco. Ci vuole pazienza per arrivare alla forma perfetta senza compromessi e ci vuole cuore, tanto cuore, per portare una tradizione leggendaria di illuminazione di lusso fino ai giorni nostri, in un perfetto equilibrio tra passato, presente e futuro.

Ma ancora una volta possiamo permetterci il lusso del tempo. E forse, anche voi.

In seven centuries of history, we have seen fashions come and go. Some were minimal, others more baroque, but every one of them chased time in a desperate search for the "new."

Time in Venice, instead, goes by slowly. There is no rush, no craze, just a great deal of space and time to develop your craft.

So we took our time and in that time we have learned that we would rather do something unique and enlightening that lasts forever instead of something new that only fascinates you for one season.

It takes strength to bring glass out from the fire and heat. It takes patience to strive for nothing less than the perfect shape. And it takes heart, a lot of it, to grow a legendary luxury lighting tradition into the new world, working with innovators and traditionalists alike.

But again, we can afford the luxury of time. And perhaps, so can you.

Cristallo Veneziano | *Venetian Crystal*

Le creazioni Barovier&Toso sono opere uniche, in Cristallo Veneziano soffiato a bocca e realizzate a mano da maestri vetrai di Murano, depositari di una tradizione secolare che solca la storia da generazioni.

È ad Angelo Barovier che si deve l'invenzione di una rivoluzionaria formula che permise di ottenere un materiale inedito, dalle straordinarie caratteristiche di estrema trasparenza e brillantezza. Fu con decreto della Repubblica di Venezia, intorno al 1455, che Angelo Barovier ottenne addirittura l'esclusiva nella produzione del "Cristallo Veneziano".

Ciò che ancora oggi rende unica quella ricetta materica, giunta fino a noi e ulteriormente perfezionata, è la totale assenza di piombo e arsenico. Questo distingue il nostro Cristallo Veneziano da qualunque altro cristallo in commercio e rende la tecnica del cristallo soffiato, come anche tutto il processo produttivo, eseguibile in totale sicurezza da parte dei maestri vetrai.

Il Cristallo Veneziano è un materiale unico, sostenibile e sicuro, capace di dar forma ad opere di grande valore artistico, le creazioni Barovier&Toso.

Barovier&Toso produce esclusivamente Cristallo Veneziano.

The creations of Barovier&Toso are one-of-a-kind works in Venetian mouth blown Crystal and hand crafted by master artisans in Murano, custodians of an age-old tradition passed down across the generations.

Angelo Barovier invented a revolutionary formula that made it possible to obtain an unprecedented material with extraordinary characteristics of extreme transparency and brightness. Thanks to a decree issued by the Republic of Venice in 1455, Angelo Barovier was granted the exclusive right to produce "Cristallo Veneziano" (Venetian Crystal).

The factor that makes this formula unique, still used today through progressive refinements, is the total absence of lead and arsenic. This is what makes our Venetian Crystal different from any other crystal on the market, enabling the master artisans to carry out the entire production process in complete safety, achieving exceptional results.

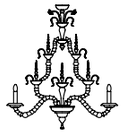

The Venetian Crystal is a unique, sustainable and safe material, ideal to give form to works of great artistic value: the creations of Barovier&Toso.

Barovier&Toso produces exclusively Venetian Crystal.

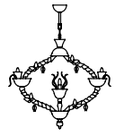

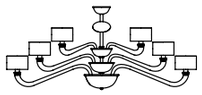

CHANDELIERS

Opere d’arte intessute di luce, portatrici indiscusse di eleganza e regalità. Dai lampadari più moderni a quelli di concezione barocca dove, in modo lineare o radiale, i bracci si moltiplicano a cascata, dando vita a spettacolari effetti luminosi.

Works of art woven by light, unrivalled vehicles of regal elegance. From the most modern chandeliers to those in Baroque style, the arms multiply in linear or radial arrangements, giving rise to spectacular luminous effects.

4604

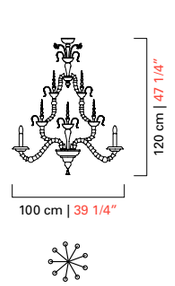

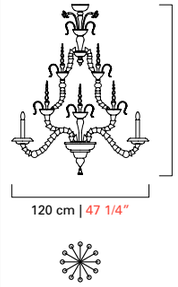

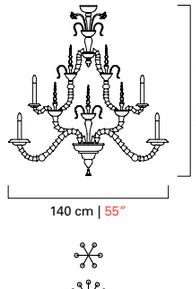

Tra i lampadari veneziani, 4604 si distingue per la sua leggerezza decorativa. Le foglie, i pinnacoli e i fiori che lo adornano possono essere realizzati tono su tono o a contrasto; elementi caratterizzanti nelle tonalità del cristallo, dell'oro e del blu che fanno di questo modello un'icona d'arredo. La collezione comprende tre lampadari.

Among the Venetian chandeliers, 4604 stands out for its decorative lightness: leaves, pinnacles and the flowers that adorn it are crystal-coloured or gilded at the most, which makes them less present but still characteristic. The collection consists of three chandeliers.

ADONIS

Marcel Wanders Studio

Adonis è una collezione creata da Marcel Wanders, ispirata alla tradizione floreale olandese e contaminata da quella vetraria muranese che, da sempre, usa i fiori come elemento distintivo. Leggiadre farfalle e boccioli di tulipano adornano i bracci di tutti i modelli, in un vortice di colori. Si compone di sei lampadari di due diverse fogge - una allungata e una più tradizionale - che possono essere combinati tra loro in un sistema modulare ad elevata personalizzazione.

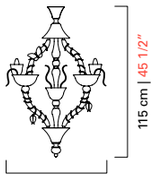

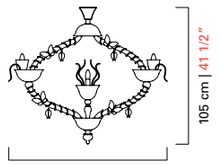

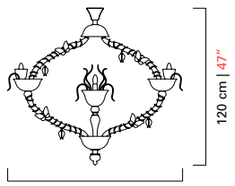

Adonis is a collection created by Marcel Wanders, inspired by the Dutch floral tradition and fused with Murano glassmaking, which has always used flowers as a distinctive feature. Graceful butterflies and tulip buds adorn the arms of every model, in a swirl of colour. It is comprised of six chandeliers in two different styles - one elongated, the other more traditional - that can be combined in a modular system for the ultimate in personalization.

Una collezione che gioca con l'alternanza fra volumi opachi e volumi trasparenti, un dialogo fra lavorazioni diverse che esaltano la fattura del prodotto. I rocchetti realizzati con la tecnica del "rostrato" rifrangono e riflettono la luce che li colpisce creando un effetto scenografico molto suggestivo.

The discreet charm of soft, warm, enveloping light. A collection that alternates opaque and transparent volumes, in a dialogue of different crafting styles that bring out the fine workmanship of the product. Chunky crystal cylinders made with the "rostrato" technique reflect and refract the light with a dramatic effect.

A collection of chandeliers with lampshades, of four models, whose distinctive sign is the reduced height (22 ½" for the smallest model up to a maximum of 31 ½"), particularly suitable to illuminate rooms whose height would not allow the use of a traditional chandelier. The lampshades are made of pleated fabric.

BAIKAL

Sulle orme di Taif, icona del design, Baikal ne riprende alcuni elementi distintivi come i pendagli in cristallo, i pastorali ritorti e i lunghi portalampade, ma con un corpo centrale più longilineo.

BISSA BOBA

Angelo Barovier

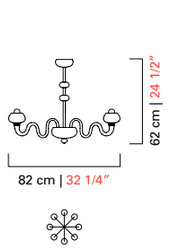

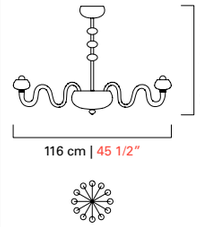

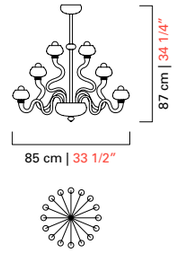

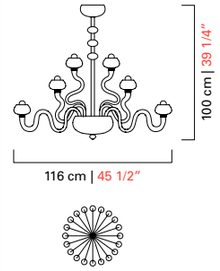

Angelo Barovier, ispirandosi ad un lampadario veneziano degli archivi di Barovier&Toso, nel 1992 inventa un lampadario scomposto fatto di bracci che, come un serpente incantato, si ergono e si allontanano sinuosamente dal centro. Da qui il nome: “Bissa” è la parola che usano i veneziani per indicare un serpente.

Angelo Barovier, inspired by a Venetian chandelier from the Barovier&Toso archives, invented a decomposed chandelier made of arms which, like an enchanted snake, rise and sinuously move away from the center. Hence the name: “Bissa” is the word that Venetians use to indicate a snake.

DHAMAR

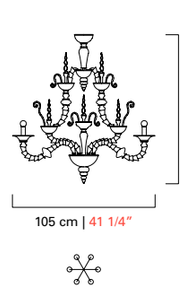

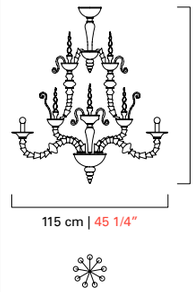

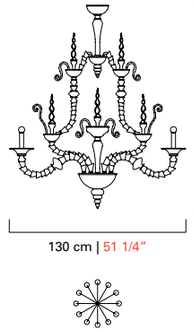

I pinnacoli in colore “affogato” nel cristallo slanciano questo lampadario dalla struttura allargata e, insieme ai particolari pendagli e alle sfere sfaccettate, ne fanno un elemento decorativo importante.

Their colour “sunk” into the crystal pinnacles confer a graceful, slender look to this family of high-profile chandeliers. Meanwhile, the very unusual shapes of the pendants, complemented by the multifaceted spheres, conjure a compelling decorative effect.

FLORIAN

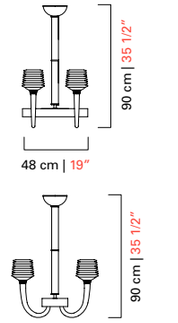

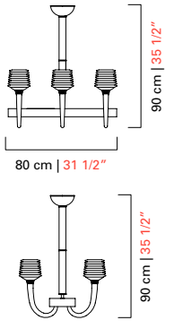

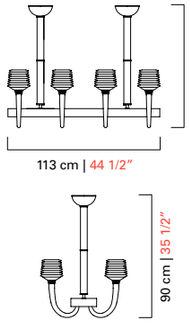

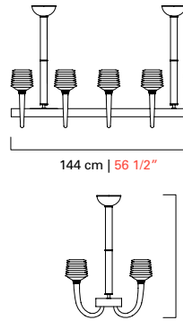

I nostri archivi storici sono una miniera di ispirazioni: proprio da qui nasce Florian, un lampadario non circolare dalle linee retrò eppure così moderne, accentuate dai massicci paralumi in cristallo veneziano eseguiti con la tecnica del "rostrato", invenzione di Ercole Barovier che moltiplica i bagliori di luce e rende il lampadario un'opera di maestria unica.

Our historic archives provide a wealth of inspiration, and it was through them that the Florian design, a non-circular chandelier, was conceived. The lines of Florian are so retro but at the same time so contemporary, accentuated by massive Venetian crystal lampshades created using the "rostrato" technique invented by Ercole Barovier, intensifying the sparkle of the lights and making this chandelier a unique piece of craftsmanship.

MAGRITTE

La collezione Magritte è frutto di un lavoro concettuale che indaga l'idea di lampadario fino a ripensarla e destrutturarla. Ispirata al linguaggio surrealista, si presenta con un impianto scenografico ed elegante, a più livelli, come vuole la tradizione, ma nella realtà rivela un nuovo ed avanguardistico design. Il classico nucleo centrale a bracci lascia spazio ad un sistema a satelliti modulari, concepito per essere esteso in modo concentrico, come una nuvola di luce e vetro soffiato.

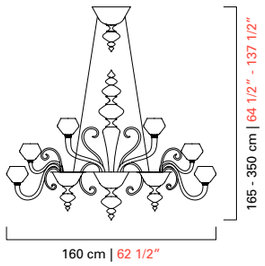

The Magritte collection is the result of a conceptual work that investigates the idea of a chandelier to the point of rethinking and deconstructing it. Inspired by the surrealist language, presents itself with a scenographic and elegant layout, on multiple levels, as tradition dictates, but in reality it reveals a new and avant-garde design. The classic central core with arms leaves room for a modular satellite system, conceived to be extended concentrically, like a cloud of light and blown glass.

METROPOLIS

Metropolis si ispira alle atmosfere glamour ed ammalianti degli anni '20, capaci di rievocare quel vivace fermento che investì le arti visive, il design, l'architettura e la moda dell'epoca. Attingendo a quelle vibranti tendenze estetiche, che videro New York, Mosca, Berlino e Parigi trasformarsi in capitali del lusso, del divertimento e della bella vita. NEVADA

Arredare con un lampadario in cristallo veneziano di questa collezione significa donare eleganza e carattere agli ambienti, anche se di stili differenti. L'elemento caratterizzante sono i bracci rettilinei quasi privi di curvature dai quali pendono esili e delicati pendagli a forma di goccia.

Decorating with a chandelier in Venetian crystal from this collection means adding elegance and character to spaces, even when their styles differ. The rectilinear arms, almost without curvature, are the characteristic feature, supporting slender, delicate dewdrop pendants.

Domo Nevada design Franco Raggi

Un'inversione dei poli, uno stravolgimento di un concetto assodato eppure così malleabile e reinterpretabile: un cerchio che si fa rettangolo, una rivisitazione della tradizione. Elegante scomposizione del lampadario classico.

In a reversal of expectations, the usual preconceptions are turned upside down and prove to be malleable and open to reinvention: the circle becomes a rectangle, in a reworking of tradition. An elegant decomposition of the classic chandelier.

Torpedo Nevada

Questa versione si caratterizza per l'altezza - che può arrivare fino a 285 cm - e per la sua snellezza. Adatto per grandi reception o scenografiche scale, è disponibile con due, tre o quattro livelli.

This version is characterized by its height - which can reach up to 112" - and by its slenderness. Suitable for large reception areas or scenic staircases, it is available with two, three or four levels.

PALLADIANO

Simmetria, ordine, perfezione ed eleganza sono le muse ispiratrici di questa collezione. Un omaggio alla razionalità e all'equilibrio delle opere del Palladio ed ai valori dell'architettura formale classica. Anche la scelta della palette cromatica con i suoi colori pieni, non trasparenti, è una celebrazione della matericità e del volume dell'oggetto che si trasforma quasi, esso stesso, in una piccola architettura.

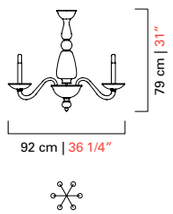

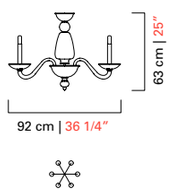

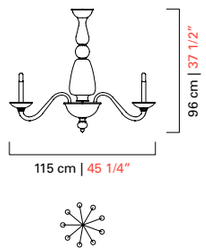

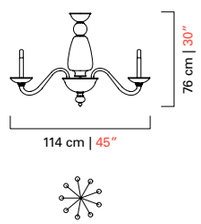

Symmetry, order, perfection and elegance are the muses behind this collection. A tribute to the rationality and balance of the works of Palladio, and the values of formal classical architecture. The selection of colours, in full, non-transparent hues, is a celebration of the material and volume of the object, which is transformed almost into a small work of architecture.

QUADRI

Come in un tulipano gli esili bracci sembrano voler nascondere alla vista i riccioluti pistilli che, grazie alla loro particolare lavorazione ritorta di secolare tradizione, rifrangono la luce proiettando ombre complesse.

Like in a tulip the delicate stems seem to protect the curled pistils which, thanks to the centuries-old crafting technique, refract light generating shadows with a complex texture.

RABAT

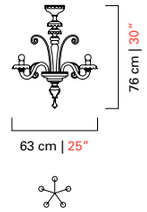

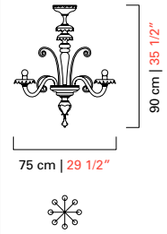

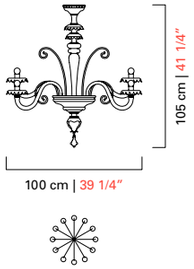

Una collezione classica, che utilizza molti degli stilemi della tradizione veneziana. In particolare, le "morise", decorazioni ondulate eseguite applicando a caldo un cordoncino di vetro pizzicato con le "borselle" (pinze) da "pissegar" (pizzicare) che consentono di ottenere una superficie che sembra un merletto.

A classical collection that features many of the stylistic elements of the Venetian tradition. RAN ROUND

Trasparenza e leggerezza. Grazie ai bracci dalle ampie curvature, alle ogive soffiate in serie e ad i pendagli a goccia di grandi dimensioni i lampadari acquisiscono una straordinaria lievità e delicatezza. Questa è l'unica collezione che prevede anche versioni a pianta ellittica particolarmente adatte ad essere posizionate in corrispondenza di tavoli da pranzo rettangolari.

Transparency and lightness. Thanks to the wide curves of the arms, the mouth blown ogives aligned in series and the extra size drop-shaped pendants, the chandeliers appear extremely slight and delicate. This is the only collection that has elliptical versions that perfectly fit on top of rectangular dining tables.

REDON

Una collezione della tradizione muranese, caratterizzata da un notevole sviluppo verticale. Attraverso la sovrapposizione di corone di foglie delicatamente arricciate alle estremità e livelli di bracci di lunghezze diverse si ottiene un effetto di grande dinamicità.

From the traditional Muranese design here comes a collection with a remarkable vertical flow. By overlapping crowns made with leaves gently curled at their edges and levels of arms with different dimensions the result is an effect of great dynamism.

RIYADH

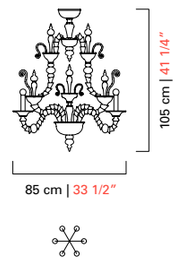

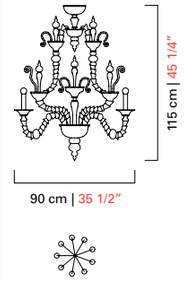

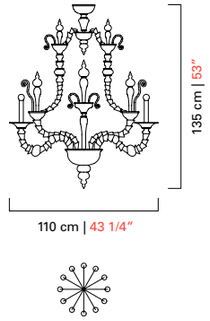

Di grande impatto scenografico, la famiglia di lampadari Riyadh è ricca di elementi decorativi e lavorazioni a mano complesse. Un tributo al sapiente lavoro dei nostri esperti maestri vetrai. Foglie, pendagli, bossette e coppette si susseguono incessantemente in un intreccio quasi caotico per dar vita ad un disegno perfetto.

Making a highly dramatic impact, the family of Riyadh chandeliers is rich of decorative elements and complex handcrafted techniques. A tribute to our expert glass masters'skills. Leaves, pendants, "bossette" and cups come into an intricate, almost chaotic, succession to give birth to a perfect design.

ROSATI

Questa collezione nasce attingendo ai disegni del prezioso archivio storico di Barovier&Toso rielaborati e riproposti con un design più moderno. Linee sobrie ed eleganti, che vanno al di là delle mode. Ogni tazzina ospita al suo interno un "rostrato", piccolo gioiello di invenzione, che protegge alla vista la lampadina la cui luce si moltiplica all'infinito, passando attraverso le cuspidi che sono l'essenza stessa del rostrato.

This collection takes its cue from drawings conserved in the precious historical archives of Barovier&Toso, reworked and reformulated with a more modern design. Simple, elegant lines that transcend fashion. Each candle cup holds a little stroke of genius: a "rostrato", a piece of glass with extruded pointed tips, which hides the lamps from view. Their light is refracted infinitely as it passes through the glass tips that are at the heart of the "rostrato" technique.

SAINT GERMAIN

Giorgia Brusemini

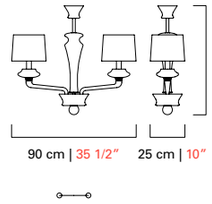

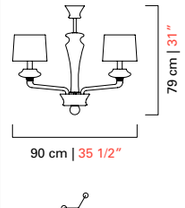

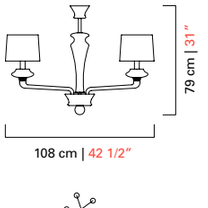

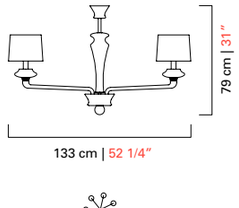

Una collezione che parte dal concetto di bidimensionalità allineando i bracci lungo lo stesso asse per dar vita ad oggetti di dimensioni contenute che non perdono tuttavia la poesia e l'incanto di un prodotto interamente realizzato a mano in cristallo veneziano. Elemento distintivo è la sfera realizzata con la tecnica dell'oro sommerso.

A collection that starts with the concept of two dimensions, extending its arms along the same axis to give rise to objects of compact size that do not, however, lose any of their poetry and enchantment. A product made entirely by hand in Venetian crystal, featuring a distinctive sphere made with the "oro sommerso" technique.

SAN GIORGIO

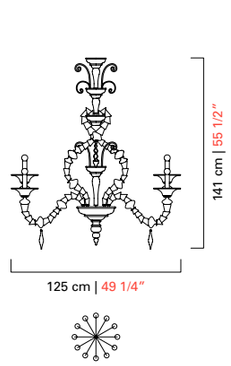

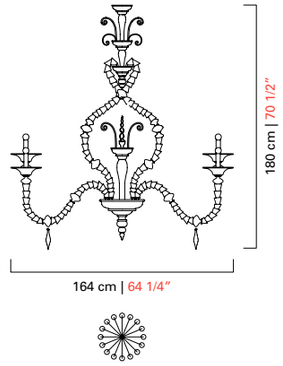

Lampadari ricchi di decorazioni molto particolari come i pendagli soffiati a forma di ampolla nella stessa colorazione dei bracci e le piramidi (punte attorcigliate). Caratteristica singolare è anche la struttura a gabbia ritorta che genera un insolito effetto di torsione enfatizzato anche dall'atipica interruzione del fusto centrale.

Chandeliers full of specific decorations such as the ampoule shaped pendants, mouth blown in the same colour of the arms, and the pyramids (curled points). The twisted main frame is a unique feature that creates an unusual torsion emphasized also by the atypical break in the central trunk.

TAIF

Un'icona, sintesi perfetta di esperienze e materiali diversi, che sbalordisce per la sua ineguagliabile armonia. Un lampadario di grande successo che nasce nel 1980 per illuminare la residenza del re saudita a Taif, città da cui prende il nome. Angelo Barovier ripensa l'immagine del lampadario della tradizione muranese, preservando il valore del cristallo veneziano e accogliendo nuovi linguaggi per approdare infine all'equilibrio compiuto del Classico.

An icon; the perfect synthesis of experience and selected materials wrought with stunning and unequalled harmony. Taif was created in 1980 for the home of the Saudi king in the eponymous city of Taif, whence comes the name. Angelo Barovier rethought the image of the traditional Murano chandelier, preserving the value of Venetian crystal while incorporating new languages. An amalgam, then, of tradition and creativity, of memory and innovation, from which blossoms the time-tested equilibrium of the classical.

Mood Taif design Franco Raggi

Un lampadario non comune, dove i bracci sono disposti in orizzontale e non gravitano - come di consueto - attorno ad un centro. Il designer ha inteso così destrutturare questo modello storico delle collezioni Barovier&Toso riassemblandolo in una composizione nuova.

An unusual chandelier, where the arms are arranged horizontally and do not gravitate around a center - as is usually the case. The designer reinterprets this historical model from Barovier&Toso collections giving it a new shape.

Torpedo Taif

Un lampadario fuori dal comune, sviluppato prevalentemente in altezza (fino 280 cm), adatto ad illuminare ambienti di rappresentanza o scenografie di grande impatto.

An out-of-the-ordinary chandelier developed mainly in height (up to two 110"), suitable for illuminating representative environments or settings of great impact.

Sfere riccamente decorate e pastorali abilmente ritorti si alternano in questa collezione che attinge alla tradizione ma il cui disegno, alleggerito e semplificato, ben si adatta sia ad interni di gusto classico che contemporaneo. I paralumi con la finitura interna oro sono perfetti per donare un'atmosfera calda e ricercata.

TWINS

Come in un passato mai passato la materia vetro prende forma, e la luce si alterna alle ombre in un vigoroso abbraccio vorticante. Sulle orme dei successi del passato recente, un lampadario orizzontale dall'aspetto vigoroso ma raffinato. Il cristallo dei bracci, molto materico, è trasparente mentre le lampade sono racchiuse in tazzine di colore bianco opaco che diffonde e ammorbidisce la luce.

In a past that is ever present, the glass takes shape and light alternates with shadows to generate a vigorous, vertiginous embrace. On the heels of the successes of the recent past, an horizontal chandelier with a vigorous yet refined appearance. The arms' crystal, which is very material, is transparent, while the light bulbs are enclosed in opaque white cups which diffuse and soften the light.

VENEZIA 1295

L'origine di tutto, il compendio di settecento anni di tradizioni tramandate di padre in figlio, oltre le mode e il tempo che scorre: una collezione di lampadari ricca di storia, di dettagli e di emozioni. È composta da quattro lampadari tutti caratterizzati da un elemento ricorrente: il "rostrato", un'invenzione del secolo scorso di Ercole Barovier che prende origine dalle tecniche di lavorazione artigianali dei suoi avi.

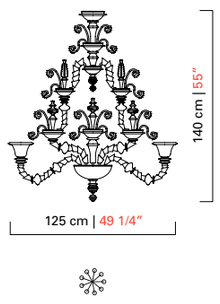

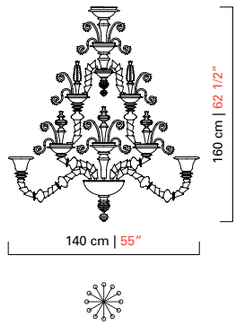

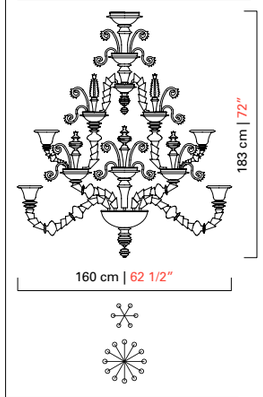

At the very heart of it all is the culmination of seven hundred years of tradition handed down from father to son through changing times and fashions: a collection of chandeliers rich in history, detail and emotion. It is comprised of four chandeliers all featuring a recurring motif: "rostrato", invented by Ercole Barovier almost a century ago developing techniques used by his ancestors.

VERMONT

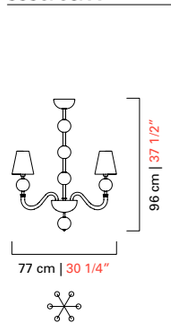

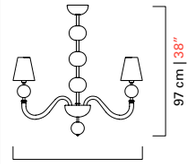

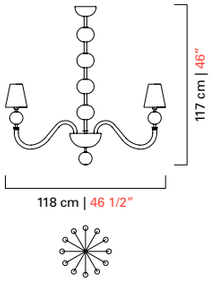

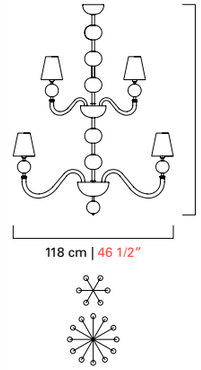

Elemento caratterizzante di questa collezione sono le grandi sfere in cristallo veneziano soffiato. Si distribuiscono sia in verticale che in orizzontale come a formare un'eterea ma preziosa nuvola di vetro.

The large Venetian crystal spheres are the distinctive elements of this collection. With their horizontal and vertical distribution, they generate an ethereal but at the same time precious crystal cloud.

WINDSOR

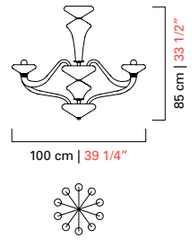

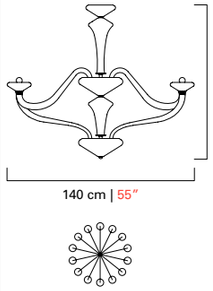

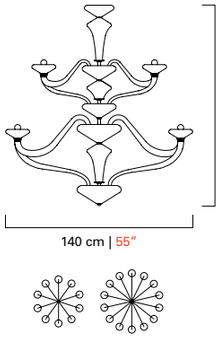

Bracci sinuosi ed eleganti, che si dipanano da un corpo centrale snello e slanciato in un gioco visivo di intrecci, e si allineano ingegnosamente su uno stesso piano, sono la peculiarità della collezione. Le tazzine portalampada sono sempre bianco opaco con una sfumatura nella stessa tonalità dei bracci.

Sinuous, elegant arms which unfurl from a slender central body in a visual game of twists, and which are smartly aligned on a same plane: these are the distinctive features of the collection. The lamp-holder cups are always opaque white with a shade whose tonality is the same as the arms.

SUSPENSIONS

Una collezione ampiamente variegata e versatile, capace di rievocare altre epoche o di aggiungere un accento contemporaneo all’ambiente. Lavorazioni tradizionali sposano forme eclettiche, dando vita a creazioni che fluttuano sospese nell’aria.

A variegated and versatile collection capable of suggesting other eras, or of adding a contemporary accent to spaces. Traditional workmanship meets eclectic forms, in creations that seem to float in the air.

ANGEL

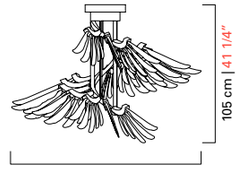

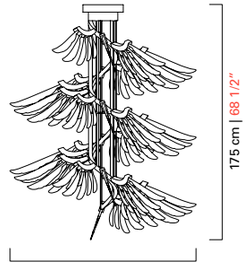

Al Design

Angel è una spirale di piume di cristallo, che si avvolge su sé stessa con dinamismo, e che fluttua nello spazio come un'ala vaporosa che si dispiega leggera. Ogni piuma è illuminata da led, così come l'attacco a soffitto.

Angel is a spiral of crystal plumage, which wraps around itself with dynamism and floats in space like a vaporous wing unfolding lightly. Each feather is lit by led, as well as the ceiling connection.

COLIMAÇON

Come sculture mobili queste sospensioni grazie alla cinetica dei bracci consentono di ottenere configurazioni sempre diverse. In antitesi alla staticità della sospensione tradizionale questi oggetti giocano con il delicato equilibrio tra pesi e dimensioni creando un effetto di estrema lievità e delicatezza. È proposto in nove modelli, ma le possibilità costruttive sono infinite.

Like mobile sculptures, thanks to the kinetics of the arms these suspensions make it possible to create many different configurations. As opposed to the static character of traditional lamps, these objects play with a delicate balance of weights and proportions to generate an effect of extreme lightness and delicacy. It is available in nine models, but with infinite possible combinations.

Brian Rasmussen

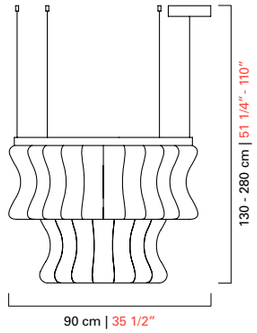

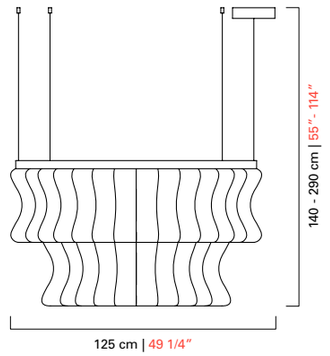

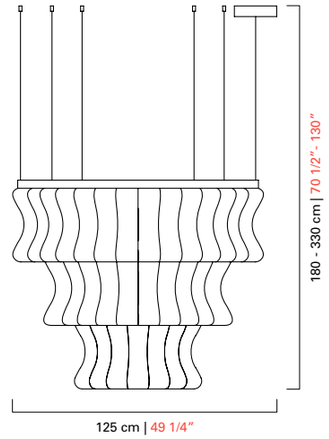

Una collezione che celebra ed esalta uno degli elementi caratterizzanti dei lampadari della tradizione veneziana, il "pastorale": un piccolo bastone dall'estremità ritorta a spirale caratterizzato dalla lavorazione "rigà menà". Ingrandito a dismisura, appeso al contrario e replicato in serie diventa il protagonista di queste sospensioni dal disegno minimalista e moderno. Proposto in tre diverse configurazioni (a uno, due o tre livelli).

A collection that pays tribute to and enhances one of the characteristic features of the chandeliers of the Venetian tradition, the "pastorale": a small rod terminating in a spiral, made with the "rigà menà" technique. Forcefully enlarged, suspended upside-down and replicated in a series, this piece becomes the protagonist of suspension lamps with a modern minimalist design. Available in three different configurations (one, two or three-tiers).

As fireflies unleashed from the depths of a glass cascade in a sparkling dance, creating an enchanting atmosphere, these transparent lotus leaves, embellished with tiny gold flakes or in pale colours, float in the air.

HANAMI

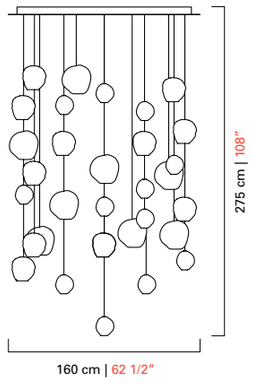

Come in un'opera d'arte moderna lo stesso elemento è ripetuto e moltiplicato quasi all'infinito. Una ripetizione seriale di una semplice forma modulare che genera un volume organico ed omogeneo. Ma in realtà ogni singola bolla non è mai perfettamente identica a sé stessa; la soffiatura e la lavorazione a mano rendono i multipli simili ma mai uguali rendendo unica ogni composizione.

As in a modern artwork, the same element is repeated and multiplied almost infinitely. The reiteration of a simple modular form generates an organic, homogenous volume. Actually, the individual bubbles are never quite the same; the glassblowing technique and handwork make the multiples similar but never equal, meaning that every composition is truly unique.

MARTA

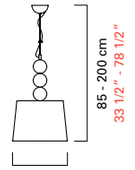

Una lampada a sospensione caratterizzata da sfere in cristallo veneziano allineate lavorate con la tradizionale tecnica a "corteccia". La massa vetrosa ancora calda viene fatta rotolare abilmente su di uno stampo piatto a lamelle e poi, successivamente, soffiata per ottenere una superficie irregolare e tridimensionale che ricorda quella della corteccia di un albero.

A suspension lamp featuring aligned spheres of Venetian crystal, crafted with the traditional "corteccia" technique. The hot glass is skilfully turned on a flat lamellar plate and then blown to obtain an irregular three-dimensional surface, resembling the bark of a tree.

MATRIOSKA

Una collezione caratterizzata da una distribuzione in pianta lineare. Disposti lungo una montatura rettilinea oppure quadrata, i preziosi elementi in cristallo veneziano, chiamati “cipolle” per la loro particolare forma e per la lavorazione a costolature, diventano protagonisti di un’inusuale interpretazione della lampada a sospensione con paralumi.

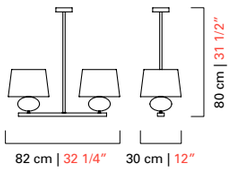

A collection characterized by linear arrangements. Placed along a straight or square fitting, the precious elements in Venetian crystal, known as “cipolle” due to their particular form and ribbed workmanship, become the protagonists of an unusual interpretation of the suspension lamp with shades.

MEDINA

Una collezione formosa, con dimensioni generose dalle linee quasi boteriane.
Il collare metallico ed i paralumi fuori scala caratterizzano l'intera linea.

A shapely collection with generous dimensions whose design recalls somehow Botero's drawings. The metal neck and the oversize shades are distinctive of the entire line.

NEW EDEN

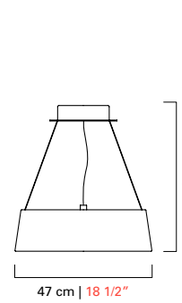

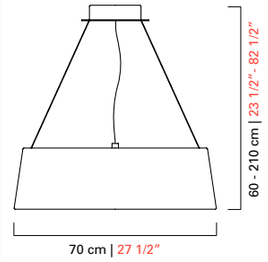

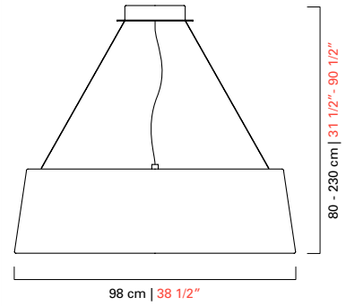

Daniela Puppa | Francesca Martelli

New Eden è una valle costellata di fiori e rovesciata sottosopra, che trasforma il concetto di lampadario tradizionale in un corpo chiuso, ricco di riflessi generati dalle decine di fiori in cristallo veneziano lavorato "a mano volante" e disposti su una calotta di metallo bianco; tutti i fiori sono in cristallo trasparente, tranne uno che dà l'accento al paralume che avvolge la lampada e che può essere posizionato ovunque.

New Eden is a valley dotted with flowers that has been turned upside down. It transforms the concept of a traditional chandelier with its closed body which is full of reflections that are generated by dozens of floating "hand-crafted" Venetian crystal flowers arranged on a white metal sphere. All of the flowers are made of transparent crystal, except for one which gives emphasis to the lampshade and can be positioned anywhere.

NEW FELCI

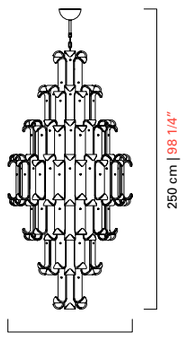

Per immergersi in una suggestiva atmosfera dallo stile Déco, ammiccando al gusto glamour degli anni ‘20 e ‘30. Il fascino di una cascata di luce composta da brillanti e voluttuose foglie in cristallo veneziano delicatamente arricciate alle estremità.

OPÉRA

Philippe Nigro

Opéra è una collezione di lampade ispirata all'Opéra Garnier, in cui l'elemento principale è la lavorazione del rostrato. La forma cilindrica va ad enfatizzare il motivo ornamentale, moltiplicando gli angoli di incidenza dei raggi luminosi e creando un fitto inviluppo di punte tridimensionali. Alle creazioni in Cristallo Veneziano sono abbinati elementi metallici dalla silhouette molto affine, che circondano e sostengono i corpi luminosi. Le sospensioni Opéra sono disponibili in diverse varianti dimensionali, per sposare progetti di interior design di natura e portata differente: dagli spazi domestici fino ai grandi ambienti di rappresentanza e contract, dove è possibile realizzare delle vere e proprie installazioni personalizzate, con composizioni asimmetriche e multiformi.

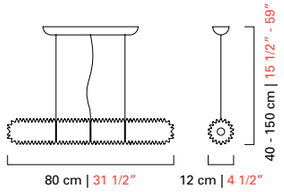

Opéra is a collection of lamps inspired by the Opéra Garnier, where the main feature is the rostrato. The cylindrical form underscores the ornamental motif, multiplying the angles of impact of beams of light and creating a dense wrapping of three-dimensional points. The creations in Venetian Crystal are joined by metal parts with a very similar silhouette, which surround and support the luminous volumes: completely different textures, sharing a specific inspiration in their shapes and substance. The Opéra suspension lamps are available in different sizes, ready to be utilized in interior design projects of different types and scales: from residential spaces to contract applications, where it is possible to organize true custom installations, with asymmetrical and multiform compositions.

PADMA

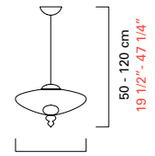

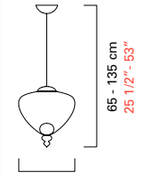

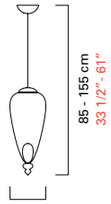

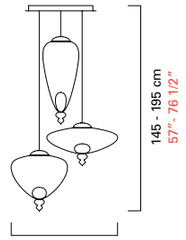

Collezione disegnata per esprimere armonia, sintesi tra le parti, sinergia tra contrasti. A confrontarsi sono innovazione e tradizione, attraverso il rapporto tra design e tecniche di lavorazione, attinte allo storico patrimonio conoscitivo dell'azienda. Insolite commistioni generano un suggestivo dialogo tra elementi racchiusi l'uno nell'altro, diversi tra loro per forma, cromia, lavorazione, ma fortemente connessi dal design dell'oggetto.

This collection is designed to express harmony, a synthesis of parts, a synergy of contrasts. The balance of innovation and tradition, through the relationship between design and techniques of workmanship, drawing on the company's heritage of know-how. Unusual mixtures generate an evocative dialogue between parts nestled one inside the other, different in form, hue, workmanship, but forcefully connected by the design of the object.

PALMYRA

Fabio Calvi | Paolo Brambilla

Una sospensione molto leggera, caratterizzata da linee sinuose, in grado di impreziosire e di illuminare qualunque ambiente. È composta da bracci sovrapposti dal profilo curvilineo, dai quali pendono molteplici elementi di vetro ritorto realizzati con la stessa lavorazione dei "pastorali" dell'antica tradizione vetraria muranese.

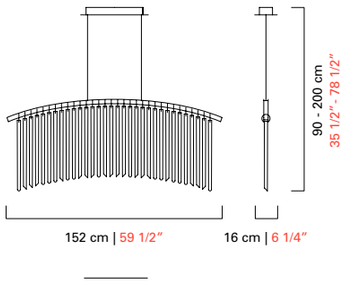

Palmyra is a very light suspension, characterized by sinuous lines, able to embellish and illuminate any environment. It is composed by overlapped arms with curved profiles, from which hang twisted crystal elements, made following the "pastoral" processing of the ancient Murano glass tradition.

PANDORA

Regala leggerezza ed un aspetto fiabesco agli interni grazie ai bracci in cristallo veneziano che sembrano fluttuare nell'aria. Il suo aspetto simile a quello di una medusa crea divertenti giochi di luce che donano profondità agli ambienti, ed il suo paralume di dimensioni importanti genera un'illuminazione omogenea ed elegante.

Interiors take on a light, fairy-tale image thanks to arms of Venetian crystal that seem to float in the air. The resemblance to a jellyfish suggests playful games of light that add depth to spaces, while the large shade generates uniform, elegant light.

PERSEUS

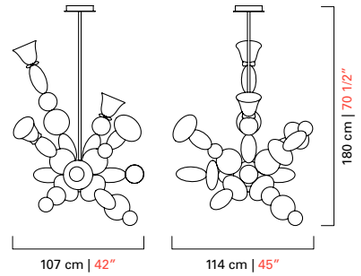

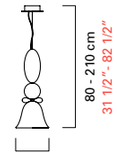

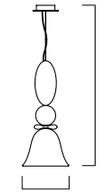

Marcel Wanders Studio

Una sospensione che si presenta come una strabiliante esplosione di cristallo veneziano, sapientemente equilibrata nei volumi, nell'alternarsi delle diverse cromie, nel gioco asimmetrico dei bracci. Perseus è composta da un gran numero di elementi in cristallo che rappresentano quasi un compendio delle tecniche vetrarie studiate e sviluppate da Barovier&Toso nel corso della sua lunga storia, qui reinterpretate, accostate e mescolate in modo sovversivo rispetto ai canoni della classicità.

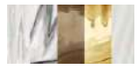

This suspension looks like a dazzling explosion of Venetian crystal, carefully balanced in volume, in the alternation of different colours, in the asymmetrical game of the arms. Perseus is composed of a large number of crystal elements that represent a compendium of the glassmaking techniques studied and developed by Barovier&Toso in the course of its long history, here reinterpreted, paired, and mixed in a subversive way with respect to the canons of classicism.

PIUME

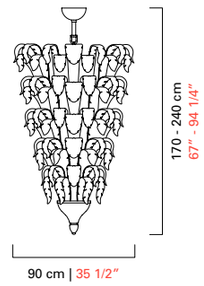

Riprese dai disegni degli anni ‘20 e ‘30 del nostro archivio storico, queste sospensioni sono un omaggio allo stile Déco. Con le loro ricche piume evocano ambientazioni lussuose e ricercate. Adatte ad ambienti estremamente decorati come anche, per contrasto, ad interni più minimali.

Resumed from drawings of the 20ies and 30ies from our historical archive, these suspensions pay a tribute to the Déco era. With their rich feathers they evoke luxurious and refined settings. REX

Un grande fiore che fluttua nell'aria. Petali preziosi ed elaborati che grazie all'utilizzo della tecnica della "rugiada" sembrano dei merletti fatti a mano. Sospensioni spesso scelte all'inizio del '900 per grandi progetti di navi da crociera e alberghi di lusso sono ancora oggi dei pezzi unici capaci di donare un tocco retrò anche a progetti più contemporanei.

A large flower that floats in the air. Precious and elaborated petals that thanks to the "rugiada" technique seem handmade laces. These suspensions lamps were very common at the beginning of the 20th century in big cruises and luxury hotels projects but nowadays they are still unique pieces capable to give a retrò touch also to more contemporary projects.

ROBIN

Interpretazione moderna dell'archetipo della lanterna. Il disegno è pulito, minimale e rigoroso ma anche immediato: dà vita ad una forma che univocamente ci rammenta la remota foggia e l'antica funzione dell'iconica lampada. Le ali metalliche formano una maglia strutturale che abbraccia il diffusore in vetro opalino che illuminato genera un effetto luminoso caldo e soffuso.

A modern interpretation of the lantern archetype. The design is clean, minimal and rigorous, but also immediate: it generates a form that instantly reminds us of the age-old shape and original function of the iconic lamp. The metal wings form a structure that embraces the diffuser in opaline glass, which spreads a warm, soft glow into the space.

SAMURAI

Angelo Barovier

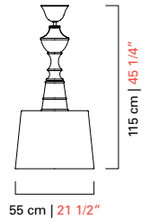

Angelo Barovier, nel 1966, progettava una lampada con costolature che successivamente è stata ripresa, ingigantita, messa sotto sopra e moltiplicata, fino ad ottenere un oggetto dalle dimensioni generose. Il disegno è caratterizzato da linee piramidali che fanno pensare ad un Samurai in posizione di riposo. Il cristallo veneziano con cui è realizzata è molto massiccio e la sua esecuzione richiede la mano e la forza di un esperto maestro vetraio.

Angelo Barovier had an idea for a ribbed lamp in 1966. Then his design was revisited, but this time inverted, repeated and created on a giant scale. Its pyramid shape recalls of a Samurai at rest. The Venetian crystal used for this piece is extremely massive, and working it requires the skill and strength of an experienced master glassmaker.

SPADE

Collezione di sospensioni ispirata ai fiori e alla natura che si contraddistingue per il suo delicato design a forma di corolla, realizzata con la tecnica della “rugiada” che dona un raffinato effetto ricamato. Due o tre livelli di petali si sovrappongono come a formare dei fiori schiusi, sospesi nell’aria.

SPINN

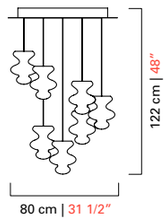

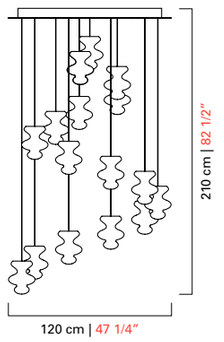

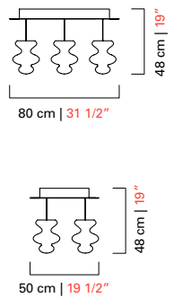

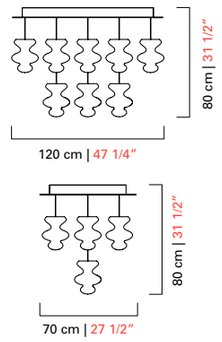

La “bambolina” è un elemento utilizzato nei lampadari della tradizione muranese. Nella collezione Spinn, tante bamboline disposte a spirale e illuminate dall’interno formano un vortice luminoso che decora l’ambiente con disegni e ombre, grazie alla tipica lavorazione del vetro detta “a balotòn”.

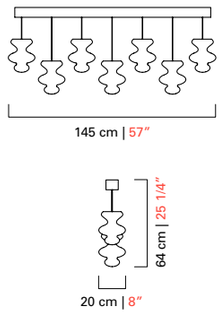

The “bambolina” is an element used in chandeliers of the Muranese tradition. Spirally arranged and internally lit form a bright swirl which adorns the setting with designs and shadows thanks to the typical glass working called “a balotòn” (giving a cross-relief effect on glass).

SWING

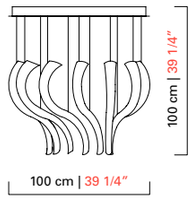

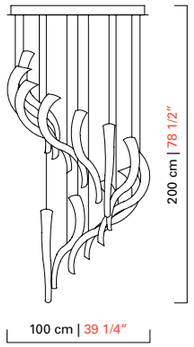

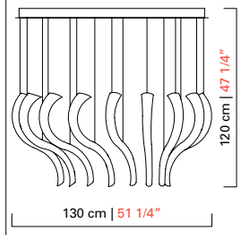

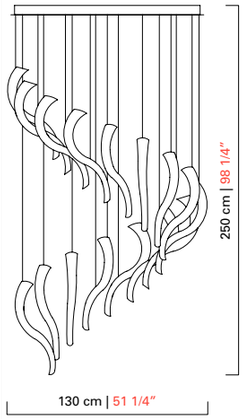

L'elemento base che compone Swing è un elegante cristallo veneziano lavorato "a balotòn" che dona a questa collezione una meravigliosa dinamicità e una stupefacente presenza scenica. Sostenuti da fini cavi di acciaio fissati alla sottile struttura a soffitto, questi elementi compongono figure delicatamente sinuose e ondeggianti sia in forma circolare che in forma libera.

The basic feature of Swing is an elegant piece of crafted Venetian crystal with the "a balotòn" technique, that gives the collection exceptional dynamism and a striking theatrical presence. Supported by slender steel cables attached to a thin structure on the ceiling, these parts form delicately sinuous and wavering figures, in circular or free-form configurations.

TRIM

Questa collezione attinge dall'archivio delle grandi installazioni realizzate da Barovier&Toso negli anni '60 e '70 attraverso la moltiplicazione e ripetizione di elementi modulari a canne o a poliedri, lisci o arricchiti dalle tradizionali lavorazioni muranesi. L'elemento esagonale realizzato con l'antica tecnica detta "ghiaccio" genera volumi sferici che perfettamente si integrano nell'architettura degli spazi diventandone quasi un'estensione. La posizione dei moduli può essere personalizzata al momento dell'installazione secondo il proprio estro: un ordine simmetrico e regolare oppure una forma disordinata.

The collection builds on the archive of large installations made by Barovier&Toso in the 1960s and 1970s, multiplying and repeating modular elements, simple or polyhedral, smooth or enhanced by traditional Murano workmanship. The hexagonal tube made with the age-old "ice" technique generates spherical volumes that fit perfectly into the architecture of spaces, almost becoming its extension. According to your own creativity, the position of the modules can be customized during installation into a symmetrical and conventional order or into a messy shape.

VALLONNÉ

Luca Nichetto

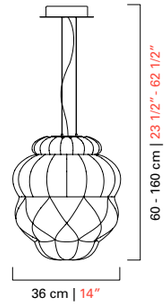

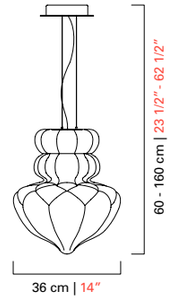

Vallonné è una collezione di lampade a sospensione in cristallo veneziano lavorato a mano e soffiato artigianalmente. Azione/reazione, espansione/contenimento: è in questo sistema di forze e di tensioni che nasce l'idea del progetto, dove la superficie dell'oggetto rivela una trama precisa di linee e di incisioni, facendo emergere una sequenza di rigonfiamenti dalle geometrie diverse. Nella collezione Vallonné, le lampade sono in cristallo trasparente e mostrano, all'interno, un'anima affusolata di vetro che nasconde la sorgente luminosa.

Vallonné is a collection of suspension lamps in Venetian Crystal, mouth blown and crafted by hand. Action/reaction, expansion/retraction: the idea of the design stems from this system of forces and tensions, where the surfaces of the object reveal a precise pattern of lines and incisions, bringing out a sequence of expansions through various geometric shapes. In the Vallonné collection, the lamps are in transparent crystal and contain a tapered core of glass that conceals the light source.

Vallonné Opale, realizzata con la tecnica del vetro incamiciato, presenta esternamente un effetto opalino e lattiginoso che diffonde morbidamente la luce.

CEILING

Si integrano e si combinano con l’architettura degli ambienti creando un dialogo tra superfici e luci, tra spazio bidimensionale e tridimensionale. Puntuali, oppure modulari, realizzano atmosfere inebrianti e sofisticate.

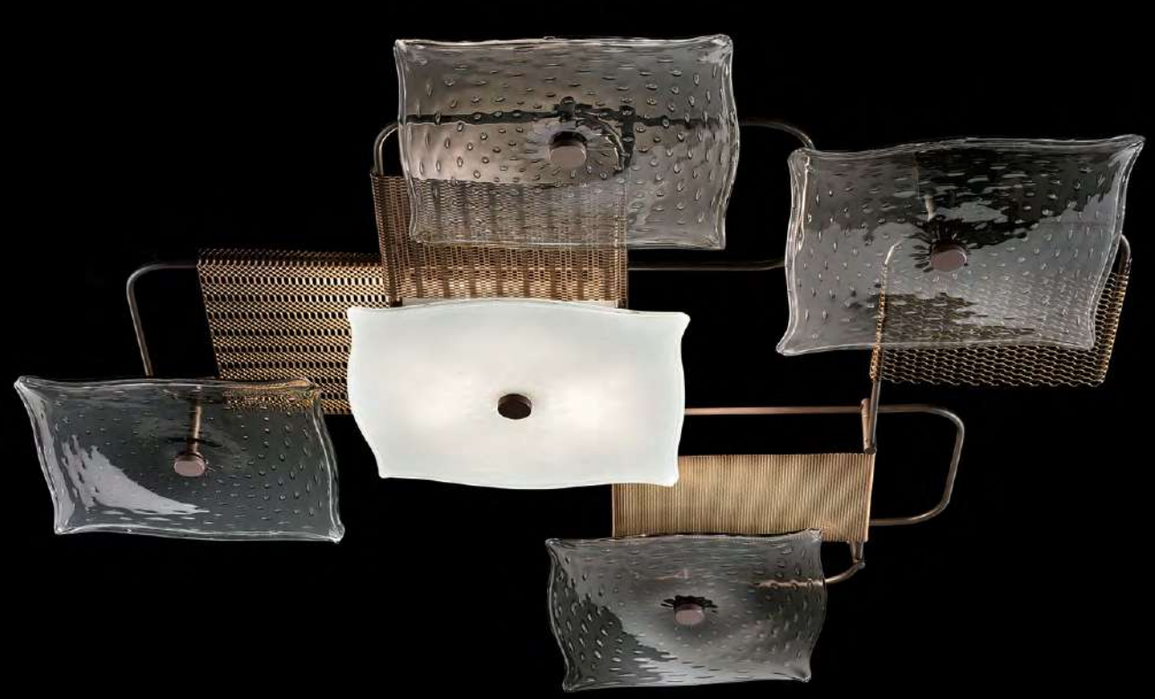

They interact and combine with the architecture of spaces, creating a dialogue between surfaces and lights, in two and three dimensions. Used individually or in compositions, they produce inebriating and sophisticated atmospheres.

ALUMINA

Alessandro Piva

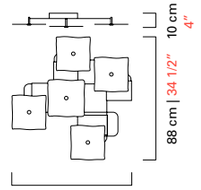

Con un lato di 85 centimetri, è una plafoniera davvero importante, ma comunque leggera nell'aspetto. È composta da cinque elementi quadrangolari decorati a bolle sommerse e realizzati completamente a mano. A completare la composizione, ai cinque elementi in cristallo veneziano si aggiungono quattro griglie decorative in metallo a trama diversa. Grazie alla sua geometria, Alumina può essere utilizzata in molteplici unità affiancate, a formare una parete luminosa.

With a side measuring 33 ½", it is a really considerable ceiling lamp, but still giving an appearance of lightness. It is made up by five quadrangular elements decorated with submerged bubbles all completely handcrafted. To complete the composition, four decorative and differently finished metal grilles are added to the five Venetian crystal elements. Thanks to its geometry, Alumina can be used in multiple modules side by side, to create a luminous wall.

MARRAKECH

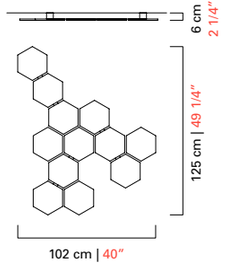

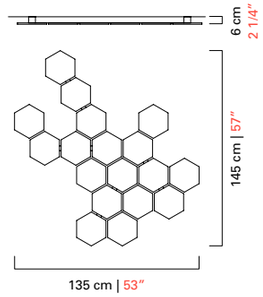

Il punto di forza di Marrakech, oltre alla versatilità di essere indifferentemente lampada da soffitto o da parete, è la sua illimitata componibilità: la forma a esagono regolare consente di affiancare senza fine le mattonelle in vetro che caratterizzano la collezione, ciascuna con una peculiare lavorazione della superficie (fino a tre diverse). L'effetto "rugiada" applicato sul retro degli elementi, una tecnica brevettata da Barovier&Toso nel XX secolo, diffonde la luce fornita da strisce led a bassa tensione incastonate nelle strutture metalliche di sostegno.

The greatest strength of Marrakech, apart from its ability to be used either as a ceiling or wall lamp, is its limitless configuration potential: the regular hexagonal tiles allow endless additions of the glass elements which distinguish the collection, with their different surface designs (up to three versions). The "rugiada" effect applied to the back of each element, a technique patented by Barovier&Toso in the 20th century, diffuses the light supplied by the low voltage led strips housed in the metallic support structure.

REX

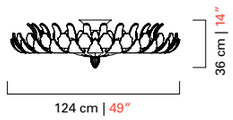

Un grande fiore che fluttua nell'aria. Petali preziosi ed elaborati che grazie all'utilizzo della tecnica della "rugiada" sembrano dei merletti fatti a mano. Plafoniere spesso scelte all'inizio del '900 per grandi progetti di navi da crociera e alberghi di lusso sono ancora oggi dei pezzi unici capaci di donare un tocco retrò anche a progetti più contemporanei.

A large flower that floats in the air. Precious and elaborated petals that thanks to the "rugiada" technique seem handmade laces. These ceiling lamps were very common at the beginning of the 20th century in big cruises and luxury hotels projects but nowadays they are still unique pieces capable to give a retrò touch also to more contemporary projects.

TOPKAPI

Daniela Puppa

Topkapi è una famiglia di lampade a soffitto che si caratterizzano per il contrasto tra il grande diffusore dalle linee moderne in vetro bianco sabbiato - che diffonde una luce morbida e soffusa - e i classici finalini in cristallo trasparente o dai colori vivaci, che brillano per effetto dell'irradiazione diretta.

Topkapi is a family of ceiling lamps characterized by the contrast between the modern lines of the diffuser in white sanded glass which sends out a soft, suffused light, and the classic end-elements in transparent or vividly coloured crystal that shine with the brightness of direct lighting.

TRIM

Questa collezione attinge dall'archivio delle grandi installazioni realizzate da Barovier&Toso negli anni '60 e '70 attraverso la moltiplicazione e ripetizione di elementi modulari a canne o a poliedri, lisci o arricchiti dalle tradizionali lavorazioni muranesi. L'elemento esagonale realizzato con l'antica tecnica detta "ghiaccio" genera volumi sferici, per riflessione sul plafone specchiato, che perfettamente si integrano nell'architettura degli spazi diventandone quasi un'estensione. La posizione dei moduli può essere personalizzata al momento dell'installazione secondo il proprio estro: un ordine simmetrico e regolare oppure una forma disordinata.

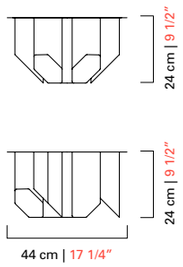

The collection builds on the archive of large installations made by Barovier&Toso in the 1960s and 1970s, multiplying and repeating modular parts, simple or polyhedral, smooth or enhanced by traditional Murano workmanship. The hexagonal tube made with the age-old "ice" technique generates spherical volumes, thanks to the reflection on the mirrored metal structure, that fit perfectly into the architecture of spaces, almost becoming its extension. According to your own creativity, the position of the modules can be customized during installation into a symmetrical and conventional order or into a messy shape.

ALUMINA

Alessandro Piva

Quando si parla di lampade da parete, si pensa sempre a elementi di dimensioni contenute, ma non è decisamente il caso di Alumina: con un lato di 85 centimetri, è una lampada davvero importante, ma comunque leggera nell'aspetto. È composta da cinque elementi quadrangolari decorati a bolle sommerse e realizzati completamente a mano. A completare la composizione, ai cinque elementi in cristallo veneziano si aggiungono quattro griglie decorative in metallo a trama diversa. Grazie alla sua geometria, Alumina può essere utilizzata in molteplici unità affiancate, a formare una parete luminosa.

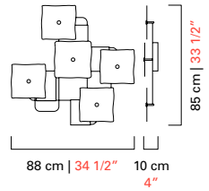

When one speaks of a wall light, we always think of something reasonable small, but this is definitively not the case with Alumina: with a side measuring 33 1/2", it is a really considerable lamp, but still giving an appearance of lightness. It is made up by five quadrangular elements decorated with submerged bubbles all completely handcrafted. To complete the composition, four decorative and differently finished metal grilles are added to the five Venetian crystal elements. Thanks to its geometry, Alumina can be used in multiple modules side by side, to create a luminous wall.

FLORIAN

I nostri archivi storici sono una miniera di ispirazioni: proprio da qui nasce Florian, una collezione di lampade a muro dalle linee retrò eppure così moderne, accentuate dai massicci paralumi in cristallo veneziano eseguiti con la tecnica del "rostrato", invenzione di Ercole Barovier che moltiplica i bagliori di luce e rende il lampadario un'opera di maestria unica.

Our historic archives provide a wealth of inspiration, and it was through them that the Florian design, collection of wall lamps, was conceived. The lines of Florian are so retro but at the same time so contemporary, accentuated by massive Venetian crystal lampshades created using the "rostrato" technique invented by Ercole Barovier, intensifying the sparkle of the lights and making this chandelier a unique piece of craftsmanship.

MAGRITTE

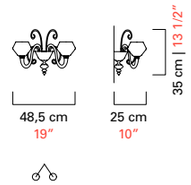

La collezione Magritte è frutto di un lavoro concettuale che indaga l'idea di lampadario fino a ripensarla e destrutturarla. Ispirata al linguaggio surrealista, si presenta con un impianto scenografico ed elegante, a più livelli, come vuole la tradizione, ma nella realtà rivela un nuovo ed avanguardistico design. La collezione include anche una versione applique, a due luci, discreta e raffinata, ideale per punteggiare le pareti di uno spazio pubblico o privato.

The Magritte collection is the result of a conceptual work that investigates the idea of a chandelier to the point of rethinking and deconstructing it. Inspired by the surrealist language, presents itself with a scenographic and elegant layout, on multiple levels, as tradition dictates, but in reality it reveals a new and avant-garde design. The collection also includes a wall sconce version with two lights; this model is discreet and refined, ideal to punctuate the walls of both public and private spaces.

MARRAKECH

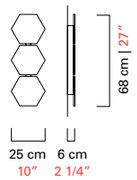

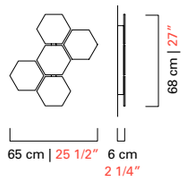

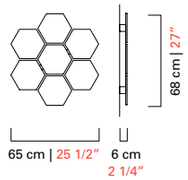

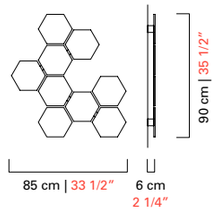

Il punto di forza di Marrakech, oltre alla versatilità di essere indifferentemente lampada da soffitto o da parete, è la sua illimitata componibilità: la forma a esagono regolare consente di affiancare senza fine le mattonelle in cristallo veneziano che caratterizzano la collezione, ciascuna con una peculiare lavorazione della superficie (fino a tre diverse). L'effetto "rugiada" applicato sul retro degli elementi, una tecnica brevettata da Barovier&Toso nel XX secolo, diffonde la luce fornita da strisce led a bassa tensione incastonate nelle strutture metalliche di sostegno.

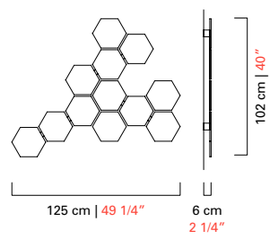

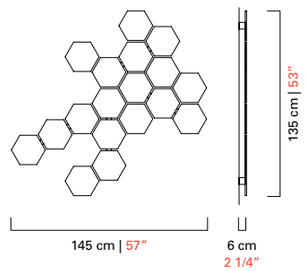

The greatest strength of Marrakech, apart from its ability to be used either as a ceiling or wall lamp, is its limitless configuration potential: the regular hexagonal tiles allow endless additions of the Venetian crystal elements which distinguish the collection, with their different surface designs (up to three versions). The "rugiada" effect applied to the back of each element, a technique patented by Barovier&Toso in the 20th century, diffuses the light supplied by the low voltage led strips housed in the metallic support structure.

Per immergersi in una suggestiva atmosfera dallo stile déco, ammiccando al gusto glamour degli anni ’20 e ‘30. Il fascino di una cascata di luce composta da brillanti e voluttuose foglie in cristallo veneziano delicatamente arricciate alle estremità.

For a plunge into an evocative Deco mood that takes its cue from the glamour of the 1920s and 1930s. The charm of a cascade of light composed of sparkling and voluptuous leaves of Venetian crystal, delicately curled at the extremities.

OPÉRA

Philippe Nigro

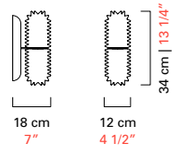

Opéra è una collezione di lampade ispirata all'Opéra Garnier, in cui l'elemento principale è la lavorazione del rostrato. La forma cilindrica va ad enfatizzare il motivo ornamentale, moltiplicando gli angoli di incidenza dei raggi luminosi e creando un fitto inviluppo di punte tridimensionali. Alle creazioni in Cristallo Veneziano sono abbinati elementi metallici dalla silhouette molto affine, che circondano e sostengono i corpi luminosi. La versione applique si sviluppa in senso verticale ed è perfetta per valorizzare una parete e punteggiarla di accenti luminosi.

Opéra is a collection of lamps inspired by the Opéra Garnier, where the main feature is the rostrato. The cylindrical form underscores the ornamental motif, multiplying the angles of impact of beams of light and creating a dense wrapping of three-dimensional points. The creations in Venetian Crystal are joined by metal parts with a very similar silhouette, which surround and support the luminous volumes: completely different textures, sharing a specific inspiration in their shapes and substance. The wall sconce version develops vertically and is perfect to enhance walls, punctuating them with luminous accents.

PALLADIANO

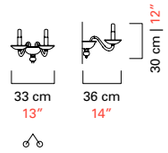

Simmetria, ordine, perfezione ed eleganza sono le muse ispiratrici di questa collezione. Un omaggio alla razionalità e all'equilibrio delle opere del Palladio ed ai valori dell'architettura formale classica. Anche la scelta della palette cromatica con i suoi colori pieni, non trasparenti, è una celebrazione della matericità e del volume dell'oggetto che si trasforma quasi, esso stesso, in una piccola architettura.

Symmetry, order, perfection and elegance are the muses behind this collection. A tribute to the rationality and balance of the works of Palladio, and the values of formal classical architecture. The selection of colours, in full, non-transparent hues, is a celebration of the material and volume of the object, which is transformed almost into a small work of architecture.

PANDORA

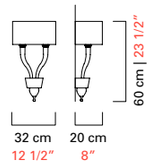

Regala leggerezza ed un aspetto fiabesco agli interni grazie ai bracci in cristallo veneziano che sembrano fluttuare nell'aria. Il suo aspetto simile a quello di una medusa crea divertenti giochi di luce che donano profondità agli ambienti, ed il suo paralume di dimensioni importanti genera un'illuminazione omogenea ed elegante.

Interiors take on a light, fairy-tale image thanks to arms of Venetian crystal that seem to float in the air. The resemblance to a jellyfish suggests playful games of light that add depth to spaces, while the large shade generates uniform, elegant light.

PERSEUS

Marcel Wanders Studio

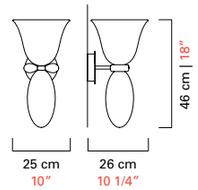

Una scultura luminosa, un'emozione di luce, agli antipodi del classico. Composta da diversi elementi in cristallo veneziano che rappresentano un mix delle tecniche vetrarie reinterpretate, accostate e mescolate in modo sovversivo rispetto ai canoni della classicità.

An illuminated sculpture, a lighting emotion, a world away from the classic style. It is composed of a number of Venetian crystal elements that represent a mix of the glassmaking techniques reinterpreted, paired, and mixed in a subversive way with respect to the canons of classicism.

ROSATI

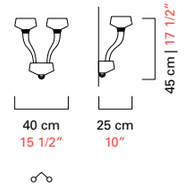

Questa applique nasce attingendo ai disegni del prezioso archivio storico di Barovier&Toso rielaborati e riproposti con un design più moderno. Linee sobrie ed eleganti, che vanno al di là delle mode. Ogni tazzina ospita al suo interno un "rostrato", piccolo gioiello di invenzione, che protegge alla vista la lampadina la cui luce si moltiplica all'infinito, passando attraverso le cuspidi che sono l'essenza stessa del rostrato.

This wall sconce takes its cue from drawings conserved in the precious historical archives of Barovier&Toso, reworked and reformulated with a more modern design. Simple, elegant lines that transcend fashion. Each candle cup holds a little stroke of genius: a "rostrato", a piece of glass with extruded pointed tips, which hides the lamps from view. Their light is refracted infinitely as it passes through the glass tips that are at the heart of the "rostrato" technique.

TAIF

Sintesi perfetta di esperienze e materiali diversi, che sbalordisce per la sua ineguagliabile armonia. Una collezione di lampade da muro di grande successo, usate per arredi prestigiosi, che nasce nel 1980 per illuminare la residenza del re saudita a Taif, città da cui prende il nome. Angelo Barovier, che studia il progetto, ripensa l'immagine della tradizione muranese, preservando il valore del cristallo veneziano e accogliendo nuovi linguaggi per approdare infine all'equilibrio compiuto del Classico.

The perfect synthesis of experience and selected materials wrought with stunning and unequalled harmony. Taif was created in 1980 for the home of the Saudi king in the eponymous city of Taif, whence comes the name. Angelo Barovier, who conceived the design, rethought the image of the traditional Murano wall sconces, preserving the value of Venetian crystal while incorporating new languages. An amalgam, then, of tradition and creativity, of memory and innovation, from which blossoms the time-tested equilibrium of the classical.

Mood Taif design Franco Raggi

Il tradizionale fondino dove si inseriscono i bracci è sostituito da una struttura metallica dal disegno lineare.

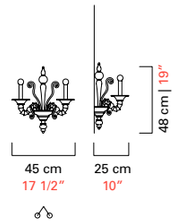

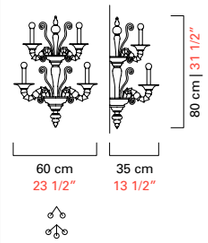

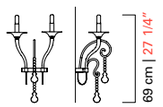

A metal structure with a minimal design takes the place of the traditional glass chassis from where the arms depart.

Come in un passato mai passato la materia vetro prende forma, e la luce si alterna alle ombre in un vigoroso abbraccio vorticante. Una lampada da muro dall'aspetto vigoroso ma raffinato. Il cristallo dei bracci, molto materico, è trasparente mentre le lampade sono racchiuse in tazzine di colore bianco opaco che diffonde e ammorbidisce la luce.

In a past that is ever present, the glass takes shape and light alternates with shadows to generate a vigorous, vertiginous embrace. A wall lamp with a vigorous yet refined appearance. VENEZIA 1295

L'origine di tutto, il compendio di settecento anni di tradizioni tramandate di padre in figlio, oltre le mode e il tempo che scorre: una applique ricca di storia, di dettagli e di emozioni. Caratterizzata da un elemento ricorrente, il "rostrato", un'invenzione del secolo scorso di Ercole Barovier che prende origine dalle tecniche di lavorazione artigianali dei suoi avi.

At the very heart of it all is the culmination of seven hundred years of tradition handed down from father to son through changing times and fashions: a wall sconce rich in history, detail and emotion. Featuring a recurring motif, the "rostrato", invented by Ercole Barovier almost a century ago developing techniques used by his ancestors.

CAMPARINO

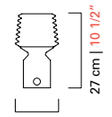

Camparino è una lampada da tavolo wireless elegante e raffinata che racchiude passato e presente in un unico elemento di dimensioni ridotte: da un lato interpreta la tradizione muranese utilizzando la tecnica del "rostrato", dall'altro sintetizza l'idea di modernità impiegando un sistema di alimentazione a batteria al litio ricaricabile, che la rende trasportabile ovunque, e una tecnologia che consente l'accensione, lo spegnimento e la regolazione dell'intensità luminosa con una manopola di controllo del dimmer in ottone spazzolato. Ha una base in marmo pregiato, in due varianti: Bianco Carrara e Nero Belgio.

Camparino is an elegant, sophisticated wireless table lamp that brings together past and present in a single, compact piece. On the one hand it reflects Murano glassmaking tradition, in that it uses the "rostrato" technique; on the other, it represents the ultimate in modernity: its rechargeable lithium battery allows it to be transported anywhere, while wireless technology means that it can be turned on or off and its brightness adjusted with just a movement of the brushed brass dimmer control knob. The base is in precious marble, in two options: White Carrara and Belgian Black.

GALLIA

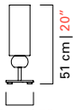

Una lampada da tavolo elegante ispirata ai canoni classici della simmetria e delle proporzioni, resa senza tempo dai colori caldi e avvolgenti: il diffusore opalino è beige con pagliuzze dorate, mentre varia il colore dell'elemento sferico detto "cipolla".

GRACE

Philippe Nigro

Fiera ed elegante come una principessa dall'eterna bellezza, la collezione Grace è permeata da un gentile fascino classico. Eclettica la struttura, che mutua dal lampadario tradizionale muranese il sistema del diffusore: ecco che la coppetta cresce di scala e diventa un ampio calice, che accoglie ed esalta la preziosità dell'elemento luminoso al suo interno, realizzato in rostrato. Sopraffine anche le tecniche con le quali viene creato il tronco, percorso da suggestive bolle racchiuse tra due strati di vetro, cromaticamente distinti. L'effetto finale è lucente, ed è il risultato di una complessa sequenza di lavorazioni, dal ballotton sommerso fino alla specchiatura.

Proud and elegant as a princess of eternal beauty, the Grace collection is permeated by genteel classic charm. The structure is eclectic, borrowing the diffuser system from the traditional Murano chandelier: the cup grows in size and becomes a large goblet that contains and enhances the luminous element inside it, made with the rostrato technique. The methods utilized to create the trunk, crossed by evocative bubbles enclosed between two layers of glass, in separate colours, are equally sophisticated. The final effect is dazzling, the result of a complex sequence of workmanship, from dipped ballotton to mirror finishing.

MARTA

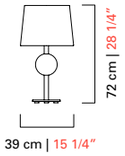

Una lampada da tavolo con un fusto molto esile ed una sfera in cristallo veneziano lavorata con la tradizionale tecnica a "corteccia". La massa vetrosa ancora calda viene fatta rotolare abilmente su di uno stampo piatto a lamelle e poi, successivamente, soffiata per ottenere una superficie irregolare e tridimensionale che ricorda quella della corteccia di un albero.

A table lamp with a very slender stem bearing a Venetian crystal sphere worked with the traditional "corteccia" technique. The hot glass is skilfully turned on a flat lamellar plate and then blown to obtain an irregular three-dimensional surface, resembling the bark of a tree.

OPÉRA

Philippe Nigro

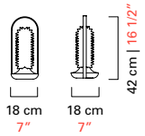

Opéra è una collezione di lampade ispirata all'Opéra Garnier, in cui l'elemento principale è la lavorazione del rostrato. La forma cilindrica va ad enfatizzare il motivo ornamentale, moltiplicando gli angoli di incidenza dei raggi luminosi e creando un fitto inviluppo di punte tridimensionali. Alle creazioni in Cristallo Veneziano sono abbinati elementi metallici dalla silhouette molto affine, che circondano e sostengono i corpi luminosi. Il modello da tavolo presenta un'estetica ancora più avvolgente, capace di creare, anche da spenta, un'atmosfera calda e preziosa.

Opéra is a collection of lamps inspired by the Opéra Garnier, where the main feature is the rostrato. The cylindrical form underscores the ornamental motif, multiplying the angles of impact of beams of light and creating a dense wrapping of three-dimensional points. The creations in Venetian Crystal are joined by metal parts with a very similar silhouette, which surround and support the luminous volumes: completely different textures, sharing a specific inspiration in their shapes and substance. The table model has an even more enveloping look, and is able to create a warm, precious atmosphere even when the lamp is off.

PADMA

Collezione disegnata per esprimere armonia, sintesi tra le parti, sinergia tra contrasti. L'ampolla esterna presenta un design molto pulito, ottenuto con un'unica soffiata e una graduale sfumatura di colore, risultato di un sapiente gesto artigianale. Gli altri elementi, invece, finemente lavorati con la tipica tecnica muranese delle costolature, hanno delle forme complesse e sofisticate.

This collection is designed to express harmony, a synthesis of parts, a synergy of contrasts. The external ampoule has a very clean design, made in a single blowing, and a gradually shaded colour, produced by the skillful gesture of the artisan. The other parts, finely crafted with the typical Murano ribbing technique, have complex, sophisticated forms.

PERSEUS

Marcel Wanders Studio

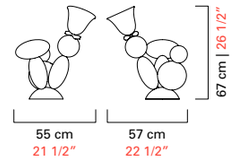

Una scultura luminosa da tavolo, un'emozione di luce, agli antipodi del classico. Composta da un gran numero di elementi in cristallo veneziano che rappresentano un mix delle tecniche vetrarie reinterpretate, accostate e mescolate in modo sovversivo rispetto ai canoni della classicità.

An illuminated sculpture, a lighting emotion, a world away from the classic style. It is composed of a large number of Venetian crystal elements that represent a mix of the glassmaking techniques reinterpreted, paired, and mixed in a subversive way with respect to the canons of classicism.

SAMURAI

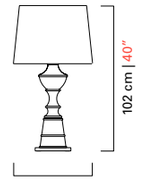

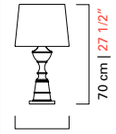

Angelo Barovier

Angelo Barovier, nel 1966, progettava una lampada con costolature che successivamente è stata ripresa, ingigantita, messa sotto sopra e moltiplicata, fino ad ottenere un oggetto dalle dimensioni generose. Il disegno è caratterizzato da linee piramidali che fanno pensare ad un Samurai in posizione di riposo. Il cristallo veneziano con cui è realizzata è molto massiccio e la sua esecuzione richiede la mano e la forza di un esperto maestro vetraio.

Angelo Barovier had an idea for a ribbed lamp in 1966. Then his design was revisited, but this time inverted, repeated and created on a giant scale. Its pyramid shape recalls of a Samurai at rest. The Venetian crystal used for this piece is extremely massive, and working it requires the skill and strength of an experienced master glassmaker.

GALLIA

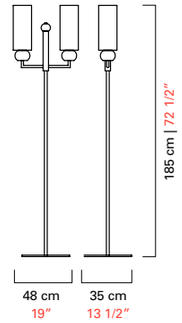

Una lampada da terra elegante ispirata ai canoni classici della simmetria e delle proporzioni, resa senza tempo dai colori caldi e avvolgenti: il diffusore opalino è beige con pagliuzze dorate, mentre varia il colore dell'elemento sferico detto "cipolla".

An elegant floor lamp inspired by the classical canons of symmetry and proportions, rendered timeless by the warm and caressing colours: the opaline diffuser is beige, speckled with gold, while the sphere element, called "cipolla" can be of different colours.

MARTA

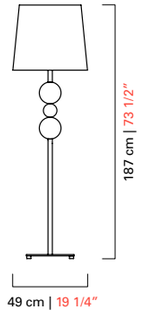

Una lampada da terra con un fusto molto esile dove sono allineate sfere in cristallo veneziano lavorate con la tradizionale tecnica a "corteccia". La massa vetrosa ancora calda viene fatta rotolare abilmente su di uno stampo piatto a lamelle e poi, successivamente, soffiata per ottenere una superficie irregolare e tridimensionale che ricorda quella della corteccia di un albero.

A floor lamp with a very slender stem bearing aligned Venetian crystal spheres worked with the traditional "corteccia" technique. The hot glass is skilfully turned on a flat lamellar plate and then blown to obtain an irregular three-dimensional surface, resembling the bark of a tree.

OPÉRA

Philippe Nigro

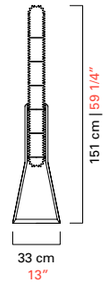

Opéra è una collezione di lampade ispirata all'Opéra Garnier, in cui l'elemento principale è la lavorazione del rostrato. La forma cilindrica va ad enfatizzare il motivo ornamentale, moltiplicando gli angoli di incidenza dei raggi luminosi e creando un fitto inviluppo di punte tridimensionali. Alle creazioni in Cristallo Veneziano sono abbinati elementi metallici dalla silhouette molto affine, che circondano e sostengono i corpi luminosi. Il modello da tavolo presenta un'estetica ancora più avvolgente, capace di creare, anche da spenta, un'atmosfera calda e preziosa.

Opéra is a collection of lamps inspired by the Opéra Garnier, where the main feature is the rostrato. The cylindrical form underscores the ornamental motif, multiplying the angles of impact of beams of light and creating a dense wrapping of three-dimensional points. The creations in Venetian Crystal are joined by metal parts with a very similar silhouette, which surround and support the luminous volumes: completely different textures, sharing a specific inspiration in their shapes and substance.The table model has an even more enveloping look, and is able to create a warm, precious atmosphere even when the lamp is off.

PERSEUS

Marcel Wanders Studio

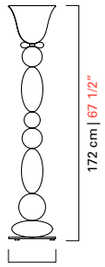

Una lampada da terra composta da elementi in cristallo veneziano che rappresentano quasi un compendio delle tecniche vetrarie studiate e sviluppate da Barovier&Toso nel corso della sua lunga storia, qui reinterpretate, accostate e mescolate in modo sovversivo rispetto ai canoni della classicità.

This floor lamp is composed of a large number of Venetian crystal elements that represent a compendium of the glassmaking techniques studied and developed by Barovier&Toso in the course of its long history, here reinterpreted, paired, and mixed in a subversive way with respect to the canons of classicism.

SAMURAI

Angelo Barovier

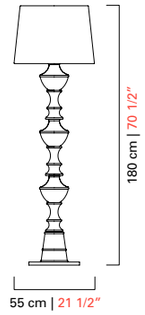

Angelo Barovier, nel 1966, progettava una lampada con costolature che successivamente è stata ripresa, ingigantita, messa sotto sopra e moltiplicata, fino ad ottenere un oggetto dalle dimensioni generose. Il disegno è caratterizzato da linee piramidali che fanno pensare ad un Samurai in posizione di riposo. Il cristallo veneziano con cui è realizzata è molto massiccio e la sua esecuzione richiede la mano e la forza di un esperto maestro vetraio.

Angelo Barovier had an idea for a ribbed lamp in 1966. Then his design was revisited, but this time inverted, repeated and created on a giant scale. Its pyramid shape recalls of a Samurai at rest. The Venetian crystal used for this piece is extremely massive, and working it requires the skill and strength of an experienced master glassmaker.

Certificazioni

Il marchio IMQ è utilizzato per apparecchi elettrici e componenti. Attesta la conformità dei prodotti elettrici ai requisiti delle norme CEI ed EN.

Il certificato cinese obbligatorio, comunemente noto come marchio CCC (China Compulsory Certification), è un marchio di sicurezza elettrica obbligatorio per molti prodotti venduti sul mercato cinese.

I marchi UL e cULus indicano che UL ha testato dei campioni rappresentativi di un prodotto, valutandoli idonei agli standard applicabili o ad altri requisiti, in relazione ai loro potenziali rischi di incendio, shock elettrico e pericoli meccanici. I marchi UL e cULus su un prodotto testimoniano la costante conformità del produttore alle norme di sicurezza applicabili.

EAC

Il certificato di coformità EAC è il marchio di sicurezza dell'Unione Economica Euroasiatica: Federazione Russa, Armenia, Bielorussia, Kazakistan and Kirghizistan. I certificati e le dichiarazioni EAC confermano che il prodotto dell'azienda in oggetto soddisfa i requisiti dei regolamenti tecnici della EAEU ed è sicuro da usare.

Certification Marks

IMQ mark is used for electrical appliances and components. The IMQ mark certifies that electrical products comply with the requirements of CEI and EN standards.

CCC is short for China Compulsory Certification scheme which requires manufacturers to obtain electrical approval for their products before they can be legally marketed in China.

In addition to a typical safety certification, UL also certifies certain products for functional safety. Based on a product's application and usage, the functional safety assessment is performed in accordance with the requirements of a published and relevant functional safety standard. Functional safety is the part of overall safety that depends on the correct functioning of safety-related control systems and software.

EAC

EAC certificate of conformity is the safety mark for the Eurasian Economic Union: Russian Federation, Armenia, Belarus, Kazakhstan and Kyrgyzstan. EAC Certificates and Declarations confirm that their subject product meets the requirements of Technical Regulations of the EAEU and is safe to use.
