

Barovier&Toso

VENEZIA 1295

Time is a strange piece.  
It is unrepeatable, relentless,  
mysterious yet so present.

An angel, a star, a bell. These three figures form the historical coat of arms of Barovier&Toso. The creative heroism of the family is reflected in the symbols that have stood over and protected its name, for centuries. An identity that bears witness to a noble lineage developed across generations that have guided the glass workshop. The human and professional vicissitudes of Barovier&Toso still unfold in Venice and Murano, where the furnaces were moved to protect the secrets of their art of glassmaking from the prying eyes of merchants and spies.

Murano constitutes an extraordinary context because it is here that the principles of sustainability have been embedded in history, in the awareness that the creative process is intrinsically natural. Where fire, sand, together with the water of the Venetian lagoon, became the material that Barovier&Toso nurtured into the art of Venetian crystal. The company has blown and shaped glass with the hands of local artisans since 1295. Its glow and transparency are the results of an exclusive formula passed on through the centuries. The production respects nature, reducing environmental impact without altering the state of a consolidated, time-tested process, allowing total safety for the craftsmen involved.

Un angelo, una stella, una campana. Queste tre figure compongono l'antica araldica di Barovier&Toso. L'eroismo creativo di una famiglia si rispecchia nello stemma che sovrasta e protegge da secoli il suo nome. Un'identità che testimonia il nobile lignaggio guadagnato sul campo della storia dalle diverse generazioni che hanno guidato la fabbrica. Tra Venezia e l'isola di Murano, dove le fornaci furono trasferite per proteggere un sapere unico al mondo dagli occhi indiscreti di mercanti e spie, si svolgono ancora le vicende umane e professionali di Barovier&Toso. Il contesto muranese è uno straordinario laboratorio perché qui la storia ha saputo abbracciare la causa della sostenibilità poiché il processo creativo è naturale per statuto. Dove il fuoco e la sabbia insieme all'acqua della laguna veneziana diventavano materia, Barovier&Toso ha messo a punto il cristallo veneziano. Qui l'azienda lo produce dal 1295. Soffiato e lavorato a mano da maestranze locali. La sua lucentezza e la sua trasparenza non sono garantite da agenti chimici aggiuntivi come il piombo o l'arsenico. Sono invece il frutto di una formula tramandata da secoli. Essa rispetta la natura, riduce l'impatto ambientale senza intaccare l'integrità di un processo artigianale consolidato. Il tutto avviene nella totale sicurezza per le maestranze coinvolte.

Transparency, purity, and glow are the result of a combination of steps in which the human factor is the driving force. Experimentation and knowledge have been handed down over time, in an approach that has always made human brilliance its central focus. The visions of creative artistry and the skills of the master glassmakers in its implementation are combined in a long, complex process that comes to life in the glassworks. This remote, harsh, extreme environment is governed by the laws of nature and the rules of good taste.

Trasparenza, pulizia, lucentezza sono l'esito di una combinazione di risultati dove il fattore umano è l'elemento scatenante. La sperimentazione e la conoscenza sono state tramandate nel tempo con un approccio che ha sempre avuto il genio dell'uomo al centro. L'uomo creativo che detiene la visione dell'arte e il maestro vetraio che lo assiste con la competenza della tecnica sono la condizione duale di un processo lungo e complesso che prende vita in fornace. Questo teatro remoto, estremo e ruvido, è retto dalle leggi della natura e normato dalle regole del buon gusto.

The works of Barovier&Toso are a synergy of its crafted components. The artistry and craftsmanship and the slow pace of the evolution of each piece convey a history of elegance that finds eternal expression. The works of Barovier&Toso are creations made to prevail against the transience of fashion. They are works whose durability transcends the exasperated speed of consumption. Their material appeal is the expression of an unwavering gesture, captured in a perfect moment to last for many years. They testify to the value of time, because they suspend the observer from the rush of everyday life, expand the moment, set a position in space.

The obsession for perfection, together with the experience of the maestri has been the path to achieve excellence. The everyday practice of glass making has made it possible to protect the secrets of workmanship from the threats of the modern age and the corrosion of cultural habits. Inside Barovier&Toso, the transfer of knowledge is nurtured and protected by the generational turnover due to the uniqueness of the medium itself. Experimentation balances with the understanding of tradition.

Le opere di Barovier&Toso sono un abaco di segni scolpiti. L'insieme delle parti trattiene la complessità di una lavorazione, sprigiona una foresta di volumi visibili tanto nell'essenzialità delle sue parti quanto nella circolarità del suo insieme. L'artigianalità della sua fattura e la lentezza con cui viene composta annunciano una storia di eleganza che si esprimerà per sempre. Quelle di Barovier&Toso sono opere da contemplare, contro la caducità delle mode. Sono opere la cui durezza combatte l'exasperata velocità dei consumi.

La matericità che esprimono è un gesto caparbio, una fotografia che non conosce stagionalità. Testimoniano il valore del tempo perché sospendono l'osservatore dalla fretta del quotidiano, dilatano il momento, fissano una posizione nello spazio.

L'ossessione per la perfezione e l'esperienza sono state le strade battute per raggiungere l'eccellenza. La pratica quotidiana dell'arte è servita a custodire un segreto manifatturiero dalle minacce del tempo moderno, dalla corrosione di certe abitudini culturali, dalle consuetudini turistiche che provocano l'ecosistema dell'Isola di Murano. In Barovier&Toso il trasferimento dei saperi è stato alimentato e protetto dal cambio generazionale nell'unicità della materia lavorata. La sperimentazione si è bilanciata con la conoscenza della tradizione.

The intangible heritage of this company no longer lies in the continuation of a dynasty, but also in the legitimacy of history, in the reliability of preserved context, in the awards of museums that host the works of Barovier&Toso in their collections. Today the company thrives on the integrity of an ongoing tradition that arises every morning in the tireless repetition of a production cycle, the same cycle that has involved over 20 generations of men and women. Here time is always contemporary because it incorporates the culture of making things by hand. Here nature is in the items it shapes, in the elusive process that transforms them, in the landscape that surrounds them, in the mystery that preserves them in the charm of a tradition that repeats itself in the representation of art and genius.

Il patrimonio immateriale di questa azienda non risiede più soltanto nel volgere di una dinastia ma nella legittimazione della storia, nell'affidabilità di un contesto preservato, nei riconoscimenti di istituzioni museali che ospitano Barovier&Toso in collezione. Oggi si vive l'integrità di una tradizione tramandata che ogni mattina sorge nell'instancabile ripetizione di un ciclo produttivo. Lo stesso che ha coinvolto più di venti generazioni di uomini e donne. Qui il tempo è contemporaneo da sempre perché sposa la cultura del far bene con le mani. Qui la natura è nelle cose che plasma, nell'inafferrabile processo che le trasforma, nel paesaggio che le circonda, nel mistero che le preserva, nel fascino di una tradizione che si ripete, nella rappresentazione dell'arte e del genio.

## BISSA BOBA

Angelo Barovier, ispirandosi a un lampadario veneziano degli archivi di Barovier&Toso, nel 1992 inventa un lampadario scomposto fatto di bracci che, come un serpente incantato, si ergono e si allontanano sinuosamente dal centro. Da qui il nome: "Bissa" è la parola che usano i veneziani per indicare un serpente.

In 1992 Angelo Barovier, inspired by a Venetian chandelier from the archives of Barovier&Toso, invented a remarkable composition of arms that like enchanted snakes rise and sinuously extend from the centre. Hence the name: "bissa" is the word Venetians use to indicate a snake.

## CAMPARINO

Camparino è una lampada da tavolo wireless elegante e raffinata che racchiude passato e presente in un unico elemento di dimensioni ridotte: da un lato interpreta la tradizione muranese utilizzando la tecnica del "rostrato", dall'altro sintetizza l'idea di modernità impiegando un sistema di alimentazione a batteria al litio ricaricabile, che la rende trasportabile ovunque. L'accensione, lo spegnimento e la regolazione dell'intensità luminosa avvengono attraverso una manopola di controllo del dimmer in ottone spazzolato. Ha una base in marmo pregiato, in due varianti: Bianco Carrara e Nero Belgio.

Camparino is an elegant, sophisticated wireless table lamp that brings together past and present in a single, compact piece. On the one hand it reflects Murano glassmaking tradition, in that it uses the "rostrato" technique; on the other, it represents the ultimate in modernity: its rechargeable lithium battery allows it to be transported anywhere. It can be turned on or off and its brightness adjusted with just a movement of the brushed brass dimmer control knob. The base is in precious marble, in two options: White Carrara and Belgian Black.

## CLEPSYDRA

Simmetria e ordine danno vita a composizioni brillanti, dal magico fascino, ottenute per moltiplicazione. I singoli elementi riprendono e rivisitano un design degli anni '60, presente nello storico archivio Barovier&Toso. Sinuosamente progettate per combaciare perfettamente, le clessidre sono percorse da sottili costolature, ottenute con l'antica tecnica del *Rigadin*. Una danza di riflessi luminosi è ciò che produce, per rifrazione, il cristallo veneziano così rigato.

Symmetry and order give rise to brilliant compositions of magical charm, obtained by multiplication. The individual elements reprise and reinterpret a design from the 1960s, contained in the historical archive of Barovier&Toso. Sinuously shaped to match perfectly, the hourglasses are crossed by subtle ribbing obtained with the age-old "*Rigadin*" technique. A dance of highlights, through refraction, produces this striped effect on the Venetian Crystal.

# CROWN

design Brian Rasmussen

Una collezione che celebra ed esalta uno degli elementi caratterizzanti dei lampadari della tradizione veneziana, il *pastorale*: un piccolo bastone dall'estremità ritorta a spirale caratterizzato dalla lavorazione "rigà menà". Ingrandito a dismisura, appeso al contrario e replicato in serie diventa il protagonista di queste sospensioni dal disegno minimalista e moderno.

A collection that pays tribute and enhances one of the characteristic features of the chandeliers of the Venetian tradition, the *pastorale*: a small rod terminating in a spiral, made with the "rigà menà" technique. Forcefully enlarged, suspended upside-down and replicated in a series, this piece becomes the protagonist of suspension lamps with a modern minimalist design.

# EMPIRE

Nuvole di tubi a sezione quadrata compongono volumi piramidali, ispirandosi alle geometrie rigorose ed energiche tipiche dell'Art Déco. Gli elementi si sovrappongono, si affiancano, con lunghezze diverse e con una ritmata alternanza di colori, nelle versioni policrome. L'effetto luminoso d'insieme è soffuso, ma costellato da scintillii puntuali, per effetto della lavorazione *a cortecchia*, eseguita artigianalmente sul cristallo veneziano.

Clouds of square tubes form pyramid-shaped volumes, reflecting the rigorous, energetic geometric lines typical of Art Deco.

The parts overlap and are juxtaposed, with different lengths and a rhythmical alternation of colors in the polychrome versions.

The overall luminous effect spreads softly, but is also studded with sparks of light, due to the "*cortecchia*" workmanship applied by hand to the Venetian Crystal.

## GERMOGLI

Domina la scena un involuppo di canne luminose, avvolte da foglie rampicanti, interamente realizzate in cristallo veneziano. Il mondo vegetale torna ad essere fonte d'ispirazione, come da eredità muranese. Risalgono agli anni '80 i disegni dello storico archivio Barovier&Toso ai quali la collezione si rifà. Sospesi ad altezze differenti, gli elementi disegnano forme concentriche o a spirale, composizioni eclettiche e sorprendenti.

At center stage, the twining of luminous reeds, wrapped in the leaves of climbing plants, entirely made in Venetian Crystal. The botanical world returns as a source of inspiration, in keeping with the Murano legacy. The drawings from the historical archives of Barovier&Toso on which the collection is based date back to the 1980s. Suspended at different heights, the parts generate concentric or spiral forms, in eclectic, surprising compositions.

# GRACE

design Philippe Nigro

Fiera ed elegante come una principessa dall'eterna bellezza, la collezione Grace è permeata da un gentile fascino classico.

Eclettica la struttura, che mutua dal lampadario tradizionale muranese il sistema del diffusore: ecco che la coppetta cresce di scala e diventa un ampio calice, che accoglie ed esalta la preziosità dell'elemento luminoso al suo interno, realizzato in rostrato. Sopraffine anche le tecniche con le quali viene creato il tronco, percorso da suggestive bolle racchiuse tra due strati di vetro, cromaticamente distinti.

Proud and elegant as a princess of eternal beauty, the Grace collection is permeated by genteel classic charm. The structure is eclectic, borrowing the diffuser system from the traditional Murano chandelier: the cup grows in size and becomes a large goblet that contains and enhances the luminous element inside it, made with the rostrato technique. The methods utilized to create the trunk, crossed by evocative bubbles enclosed between two layers of glass, in separate colours, are equally sophisticated.

# HANAMI

Come in un'opera d'arte moderna lo stesso elemento è ripetuto e moltiplicato quasi all'infinito. Una ripetizione seriale di una semplice forma modulare che genera un volume organico ed omogeneo. Ma in realtà ogni singola bolla non è mai perfettamente identica a sé stessa; la soffiatura a bocca e la lavorazione a mano rendono i multipli simili ma mai uguali, rendendo unica ogni composizione.

As in a modern artwork, the same element is repeated and multiplied almost infinitely. The reiteration of a simple modular form generates an organic, homogenous volume. The individual bubbles are never quite the same; the glassblowing technique and handwork make the multiples similar but never equal, making every composition is truly unique.

## MAGRITTE

Di matrice surrealista, la collezione sorprende e affascina per il suo avanguardistico design. Come una nuvola di luce e cristallo, Magritte scatena un onirico immaginario. A guidare lo sguardo sono le relazioni simmetriche tra le parti ed un'inedita modularità radiale. Per la prima volta, il classico nucleo centrale a bracci lascia spazio ad un apparato modulare, sviluppato per singole unità. Come satelliti, i fondini si moltiplicano e accolgono gruppi di bracci, lasciando alla luce il compito di gravitare e scintillare intorno a questo sistema.

Based on a Surrealist matrix, the collection surprises and fascinates with its avant-garde design. Like a cloud of light and crystal, Magritte unleashes a dreamy imaginary. The gaze is guided by the symmetrical relationships of the parts and the novel radial modular design. For the first time, the classic central core with arms gives way to a modular apparatus, developed by means of individual units. Like satellites, the bases multiply and welcome groups of arms, allowing the light to gravitate and sparkle around this system.

## MARRAKECH

L'innovazione può nascere anche da un processo di ricombinazione di conoscenze, competenze, design e valori culturali tradizionali. La collezione è infatti ispirata alle *zellige* (piastrelle marocchine) dove l'elemento esagonale è in cristallo veneziano lavorato con la tecnica della *rugiada* che crea una superficie irregolare con variazioni di tonalità, brillantezza, trasparenza e profondità proprio come nel suo omologo in argilla.

Innovation can spring from a process of recombination of knowledge, expertise, design and traditional cultural values. This collection is in fact inspired by *zellige* (Moroccan tiles), where the hexagonal piece is in Venetian glass crafted with the "rugiada" technique to create an irregular surface with variations of tone, brightness, transparency and depth. Precisely as in its clay counterpart.

# OPÉRA

design Philippe Nigro

Una collezione di lampade ispirata all'Opéra Garnier, in cui l'elemento principale è la lavorazione del rostrato.

La sua forma cilindrica va infatti ad enfatizzare il motivo ornamentale, moltiplicando gli angoli di incidenza dei raggi luminosi e creando un fitto involuppo di punte tridimensionali. Opéra si distingue per il suo carattere eclettico e decorativo, espresso da commistioni stilistiche e da uno spiccato equilibrio compositivo.

A collection of lamps inspired by the Opéra Garnier, where the main feature is the rostrato. The cylindrical form underscores the ornamental motif, multiplying the angles of impact of beams of light and creating a dense wrapping of three-dimensional points. Opéra stands out for its eclectic, decorative character, expressed in stylistic mixtures and remarkable compositional balance.

## PADMA

Il suo nome in sanscrito significa "loto", pianta acquatica dalle antichissime origini, al cui fiore si ispira il progetto. Insolite commistioni generano un suggestivo dialogo tra elementi racchiusi l'uno nell'altro, diversi tra loro per forma, cromia, lavorazione, ma fortemente connessi dal design dell'oggetto. Un diffusore esterno, realizzato con la tecnica dell'incalmo sfumato, un "frutto" racchiuso al suo interno, preziosamente lavorato a coste, ed un elemento finale che completa la composizione richiamando reminiscenze veneziane.

The name means "lotus" in Sanskrit, an aquatic plant of very ancient origin whose flower suggests the image. Unusual mixtures generate an evocative dialogue between parts set into each other, differing in form, hue and workmanship, but closely connected by the design of the object. An external diffuser made with the shaded encalmo technique, a "fruit" nestled inside it with precious ribbing, and a final element that completes the composition, suggesting memories of Venice.

## PALLADIANO

Simmetria, ordine, perfezione ed eleganza sono le muse ispiratrici di questa collezione. Un omaggio alla razionalità e all'equilibrio delle opere del Palladio ed ai valori dell'architettura formale classica. Anche la scelta della palette cromatica con i suoi colori pieni, non trasparenti, è una celebrazione della matericità e del volume dell'oggetto che si trasforma quasi, esso stesso, in una piccola architettura.

Symmetry, order, perfection and elegances are the muses behind this collection. A tribute to the rationality and balance of the works of Palladio and the values of formal classical architecture.

The selection of colours, in full, non-transparent hues, is a celebration of the material and volume of the object, which itself is transformed almost into a small work of architecture.

design Roberto Lazzeroni

Poesia e leggerezza convivono in questa dirompente collezione, ispirata alle espressioni stilistiche a cavallo tra gli anni '50 e gli anni '60. Roberto Lazzeroni interpreta il dialogo tra tradizione e modernità e costruisce una sua lettura, poeticamente connessa a quell'immaginario familiare. Come schegge, le formelle in cristallo veneziano coniugano ironia e rigore. Ancorate manifestamente alla struttura ad anello, schermano la fonte luminosa e stabiliscono rapporti proporzionali di notevole impatto.

Poetry and lightness coexist in this bold, novel collection that takes its inspiration from the stylistic expressions of the 1950s and 1960s. Roberto Lazzeroni interprets the dialogue between tradition and modernity, building an interpretation poetically connected to this familiar imagery. Like splinters, the tiles in Venetian Crystal combine irony and rigor. Visibly anchored to the structural ring, they screen the light source and establish proportional relationships of remarkable impact.

## TAIF

Taif nasce nel 1980 per arredare la residenza del Re Saudita nell'omonima città di Taif, da cui il lampadario prende il nome. Angelo Barovier, che studia il progetto, ripensa l'immagine del lampadario della tradizione muranese, preservando il valore del vetro soffiato e accogliendo nuovi linguaggi. Un incontro di tradizione e creatività, fra memoria e innovazione in cui affiora l'equilibrio compiuto del Classico.

This model was first made in 1980 to furnish the residence of the King of Saudi Arabia in the city of Taif, which gives the lamp its name. ## TRIM

Questa collezione attinge dall'archivio delle grandi installazioni realizzate da Barovier&Toso negli anni '60 e '70 attraverso la moltiplicazione e ripetizione di elementi modulari a canne o a poliedri, lisci o arricchiti dalle tradizionali lavorazioni muranesi.

L'elemento esagonale realizzato con l'antica tecnica detta "ghiaccio" genera volumi sferici che perfettamente si integrano nell'architettura degli spazi diventandone quasi un'estensione.

The collection builds on the archive of large installations made by Barovier&Toso in the 1960s and 1970s, multiplying and repeating modular elements, simple or polyhedral, smooth or enhanced by traditional Murano workmanship. # VALLONNÉ VALLONNÉ OPALE

design Luca Nichetto

Vallonné e Vallonné Opale sono due collezioni di lampade a sospensione in cristallo veneziano lavorato a mano e soffiato artigianalmente. Azione/reazione, espansione/contenimento: è in questo sistema di forze e di tensioni che nasce l'idea del progetto, dove la superficie dell'oggetto rivela una trama precisa di linee e di incisioni, facendo emergere una sequenza di rigonfiamenti dalle geometrie diverse. Nella collezione Vallonné, le lampade sono in cristallo trasparente e mostrano, all'interno, un'anima affusolata di vetro che nasconde la sorgente luminosa, mentre Vallonné Opale, realizzata con la tecnica del vetro incamiciato, presenta esternamente un effetto opalino e lattiginoso che diffonde morbidamente la luce.

Vallonné and Vallonné Opale are two collections of suspension lamps in Venetian Crystal, mouth blown and crafted by hand. Action/reaction, expansion/retraction: the idea of the design stems from this system of forces and tensions, where the surfaces of the object reveal a precise pattern of lines and incisions, bringing out a sequence of expansions through various geometric shapes. In the Vallonné collection, the lamps are in transparent crystal and contain a tapered core of glass that conceals the light source, while Vallonné Opale is made with the jacketing technique, with an opaline, milky external effect that spreads light gently.

Un vaso di cristallo attraversato da un raggio di luce nel famoso quadro di Paolo Veronese che rappresenta l'Annunciazione. A questo si ispirano le linee purissime di questo oggetto riletto in chiave moderna e di grande eleganza. ## VERTIGO

Vertigo è una collezione che vive di contrasti, coniugando dinamismo e simmetria, delicatezza e potenza. La sua fattura, completamente artigianale, mette in luce le abilità del maestro nel creare un involuppo di curve così complesso e articolato, eppure perfettamente regolare, valorizzando l'elemento decorativo principale: il motivo a spirale avvolge lo sviluppo radiale dei bracci, morbidamente aperti a corolla.

Vertigo is a collection that thrives on contrasts, combining dynamism and symmetry, delicacy and power. Completely crafted by hand, it reveals the great skill of the glassmaker to create a very complex, detailed yet perfectly regular arrangement of curves, enhancing the main decorative feature: the spiral motif wraps the radial extension of the arms, softly opening like petals.

## WINDSOR

Elemento immancabile nell'arredamento classico, il lampadario è oggi sempre più presente in ambienti moderni e contemporanei, come a voler donare calore ed eleganza a quegli interni talvolta troppo minimali ed essenziali. L'elemento stilistico caratterizzante di questa collezione sono i bracci sinuosi ed eleganti, che si dipanano da un corpo centrale snello e slanciato in un gioco visivo di intrecci e si allineano ingegnosamente su uno stesso piano.

An indispensable feature of classic interiors, the chandelier is now also being extensively used in modern and contemporary settings, as a way of bringing warmth and elegance to interiors that might otherwise be too minimal and essential. The stylistic characteristic of this collection is that of the sinuous, graceful arms, which reach out from a slender central body to generate visual interplay and ingeniously align on the same level.

VENEZIA 1295

More than seven Centuries taught us a lot, especially one thing: the best way to keep a tradition alive is to actually live it. Art is practice, and locking away an ancient craft for fear of losing it is a risk nobody can afford. You have to make art.
