Barovier&Toso

VENEZIA 1295

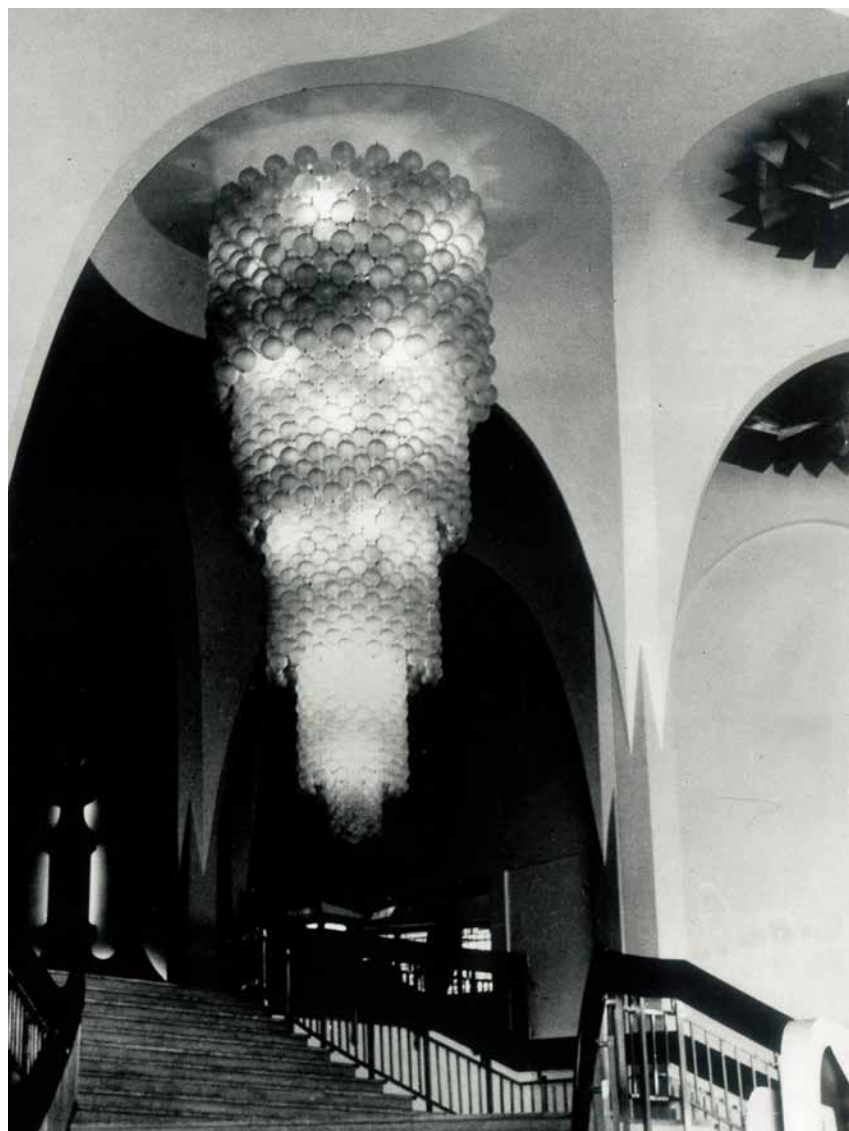

Il vetro veneziano è un'arte che parla di tradizione, eccellenza e infinita possibilità creativa. Barovier&Toso, custode di questa preziosa eredità, porta avanti una visione che unisce maestria artigianale e innovazione progettuale. È con questo spirito che presentiamo il nuovo catalogo dedicato alle installazioni speciali, un tributo alla capacità di trasformare il cristallo in opere d'arte su misura, pensate per adattarsi e sublimare ogni spazio architettonico, soddisfacendo i desideri e le esigenze di ogni cliente.

Al cuore di queste creazioni c'è un concetto semplice ma potente: la modularità degli elementi. Una sfera, una foglia, una forma iconica—quando ripetuti in sequenze ritmiche o liberamente composti, questi moduli diventano protagonisti di installazioni dalla straordinaria versatilità estetica. Attraverso combinazioni inedite e configurazioni spettacolari, ogni elemento trova nuova vita in progetti unici, capaci di esprimere l'identità di chi li sceglie e il carattere degli spazi che li accolgono.

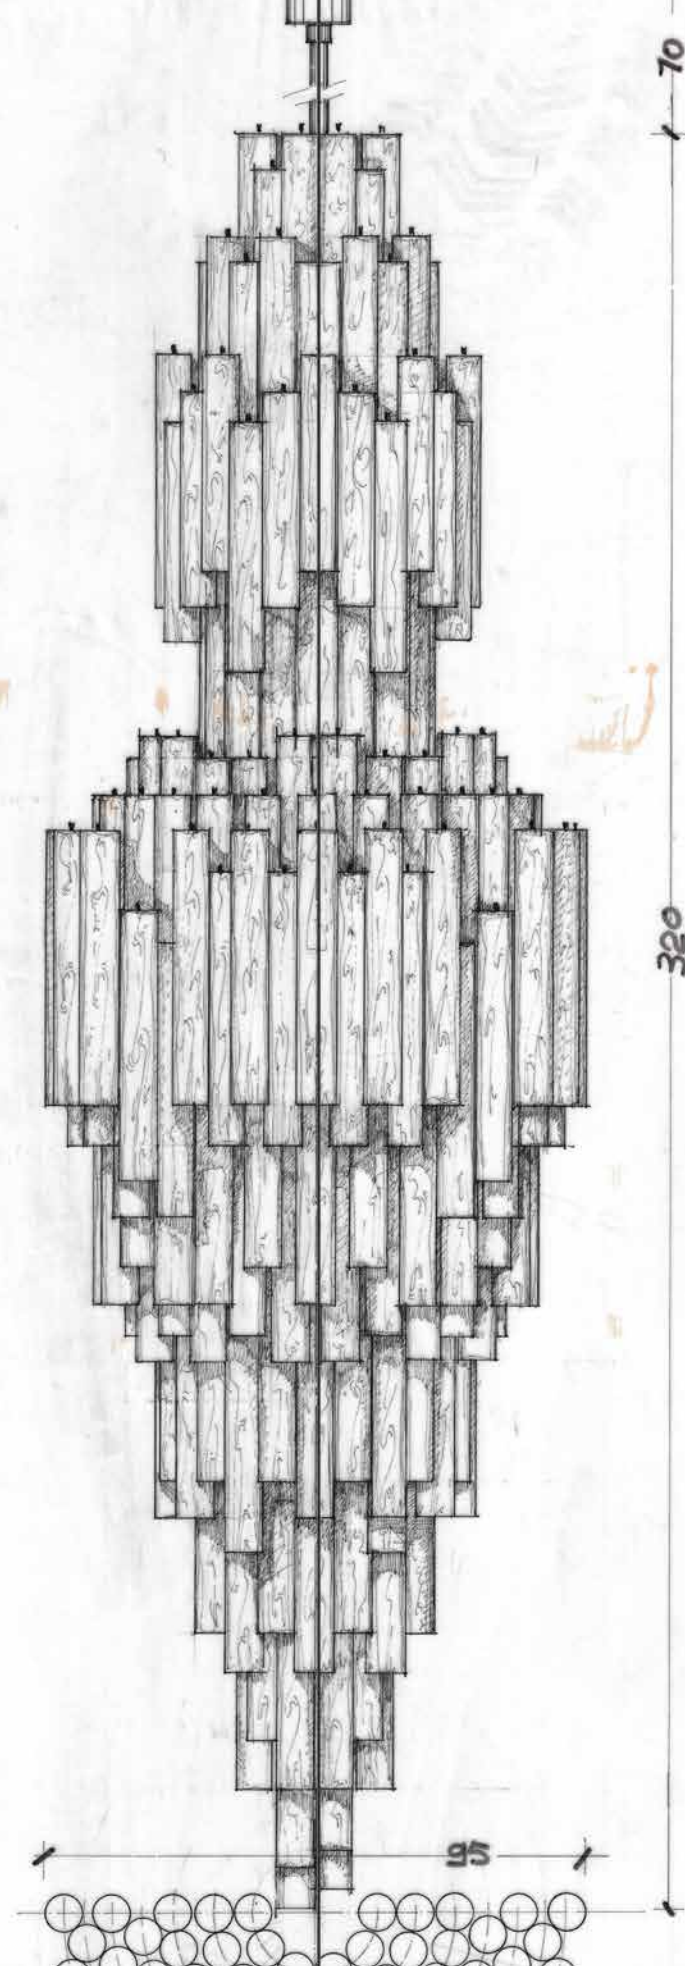

A rendere queste creazioni ancora più straordinarie è l'impiego di un sistema a cavi sospesi, una soluzione che unisce discrezione, flessibilità e innovazione. Questi supporti, praticamente invisibili, permettono di dare forma a strutture leggere e poetiche: vere e proprie nuvole di cristallo veneziano che fluttuano nello spazio, catturando la luce e amplificando la bellezza dell'architettura che le ospita. Ogni installazione diventa così una presenza luminosa e vibrante, un'esperienza visiva e sensoriale che coinvolge e affascina.

Dietro ogni progetto c'è un processo creativo che unisce il cliente e il nostro team di progettazione interno, formato da esperti capaci di trasformare ogni idea in realtà. Che si parta da un concept già definito o che si elabori un progetto ex novo, l'obiettivo è sempre quello di creare un'opera perfettamente integrata, studiata su misura per rispondere alle caratteristiche uniche dello spazio e ai desideri del

550

400

committente. Questa capacità di ascolto, adattamento e innovazione è ciò che contraddistingue Barovier&Toso e rende ogni progetto un'espressione autentica di stile, arte e maestria.

Le installazioni presentate in questo catalogo sono solo un assaggio delle infinite possibilità offerte dal nostro approccio creativo e dalla modularità dei nostri elementi. Ciascun progetto rappresenta una suggestione, un punto di partenza che può essere ulteriormente declinato, reinventato o arricchito in base alle esigenze specifiche del cliente e dello spazio architettonico. Le combinazioni possibili sono pressoché illimitate, perché ogni creazione è un dialogo unico tra materiali, luce, volumi e immaginazione. Oltre a quanto qui illustrato, il nostro team è pronto a sviluppare soluzioni che vanno oltre i confini del design convenzionale, dando forma a nuove idee e visioni.

Questo catalogo non è solo una raccolta di progetti straordinari, ma anche una finestra sul nostro modo di intendere il design e la creatività. Qui si celebra la capacità di trasformare il cristallo veneziano in una forma di linguaggio universale, capace di ispirare e sorprendere. Dai prodotti del nostro vasto catalogo ai progetti completamente personalizzati, ogni creazione è il risultato di una lunga tradizione artigianale che si intreccia con un'attitudine contemporanea alla sperimentazione.

Esplorando queste pagine, scoprirete non solo la bellezza delle nostre installazioni, ma anche l'impegno di Barovier&Toso nel reinventare continuamente i confini del possibile. La nostra missione è quella di creare opere che non siano solo elementi decorativi, ma vere esperienze estetiche, in grado di emozionare e trasformare gli spazi che le accolgono.

Benvenuti in un mondo di luce, arte e meraviglia.
Benvenuti nell'universo Barovier&Toso.

Venetian glass is an art form that embodies tradition, excellence, and limitless creative potential. Barovier&Toso, as a guardian of this precious heritage, promotes a vision that merges masterful craftsmanship with innovative design. In this spirit, we present our new catalog dedicated to special installations—a tribute to the transformative power of crystal, shaped into bespoke works of art designed to enhance and elevate any architectural space while meeting the desires and needs of every client.

At the heart of these creations is a simple yet powerful concept: the modularity of elements. Whether it's a sphere, a leaf, or an iconic shape, when repeated in rhythmic sequences or freely composed, these modules become the focal points of installations with extraordinary aesthetic versatility. Through unprecedented combinations and stunning configurations, each element takes on new life in unique projects, reflecting the identity of those who choose them and the character of the spaces they occupy.

What makes these creations exceptional is a suspended cable system—an innovative solution that combines discretion and flexibility. These nearly invisible supports enable the construction of lightweight, poetic structures: true clouds of Venetian crystal that seem to float in space, capturing light and enhancing the beauty of the surrounding architecture. Each installation becomes a vibrant, luminous presence, providing a visual and sensory experience that captivates and inspires.

Behind every project lies a creative process that unites the client and our in-house design team—experts capable of transforming any idea into reality. Whether starting from a defined concept or developing a project from scratch, our goal is always to create a perfectly integrated piece tailored to the unique characteristics of the space and the

client's vision. This ability to listen, adapt, and innovate sets Barovier&Toso apart, making every project an authentic expression of style, artistry, and craftsmanship.

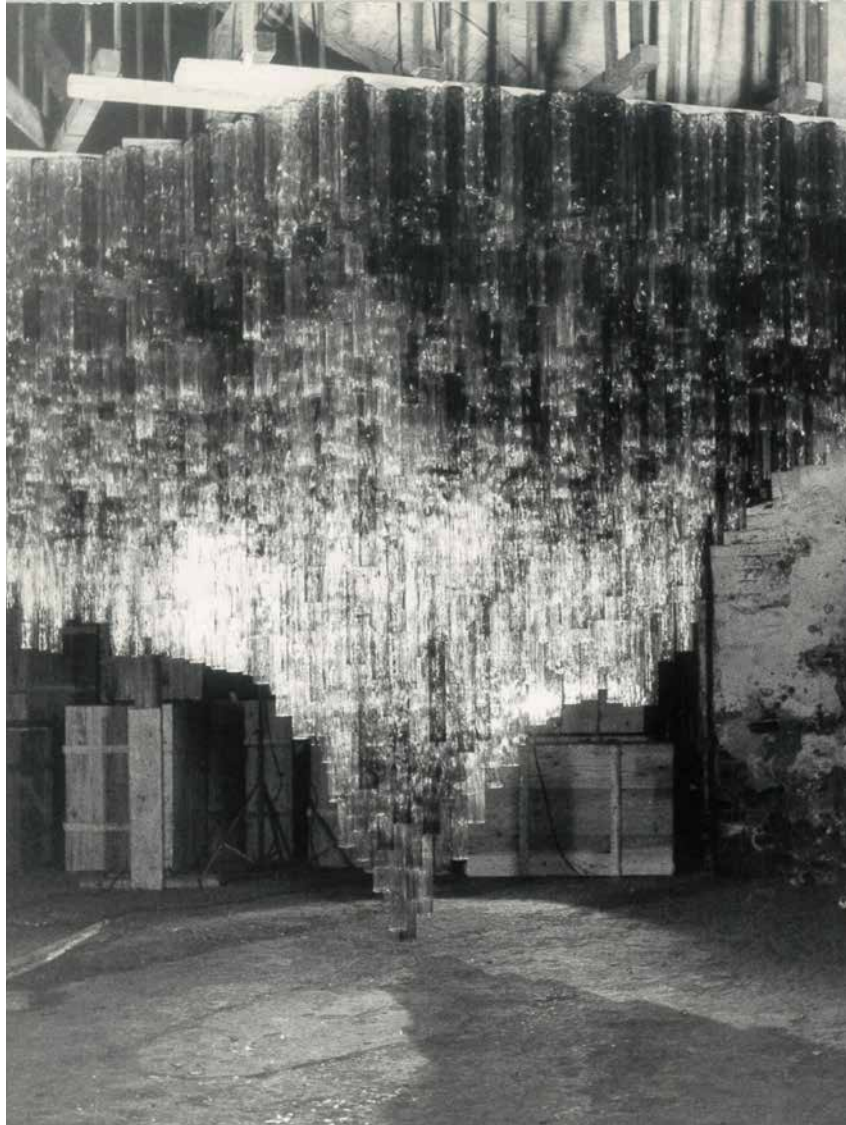

The installations showcased in this catalog are just a glimpse of the endless possibilities afforded by our creative approach and the modularity of our elements. Each project serves as inspiration and a starting point that can be further refined, reimagined, or enhanced to meet the specific needs of the client and the architectural space. The combinations are virtually limitless, as every creation fosters a unique dialogue between materials, light, volumes, and imagination. Beyond what is illustrated here, our team is ready to develop solutions beyond conventional design, shaping new ideas and visions.

This catalog is not just a collection of extraordinary projects—it is a window into our philosophy of design and creativity. Here, we celebrate the ability to transform Venetian crystal into a universal language that inspires and astonishes. From our extensive catalog of products to fully bespoke projects, every creation stems from a long tradition of craftsmanship intertwined with a contemporary spirit of experimentation.

As you explore these pages, you will discover not only the beauty of our installations but also Barovier&Toso's commitment to continually redefining the boundaries of what is possible. Our mission is to create works that are not mere decorative elements but genuine aesthetic experiences capable of evoking emotion and transforming the spaces they inhabit.

Welcome to a world of light, art, and wonder. Welcome to the universe of Barovier&Toso.

ALOE

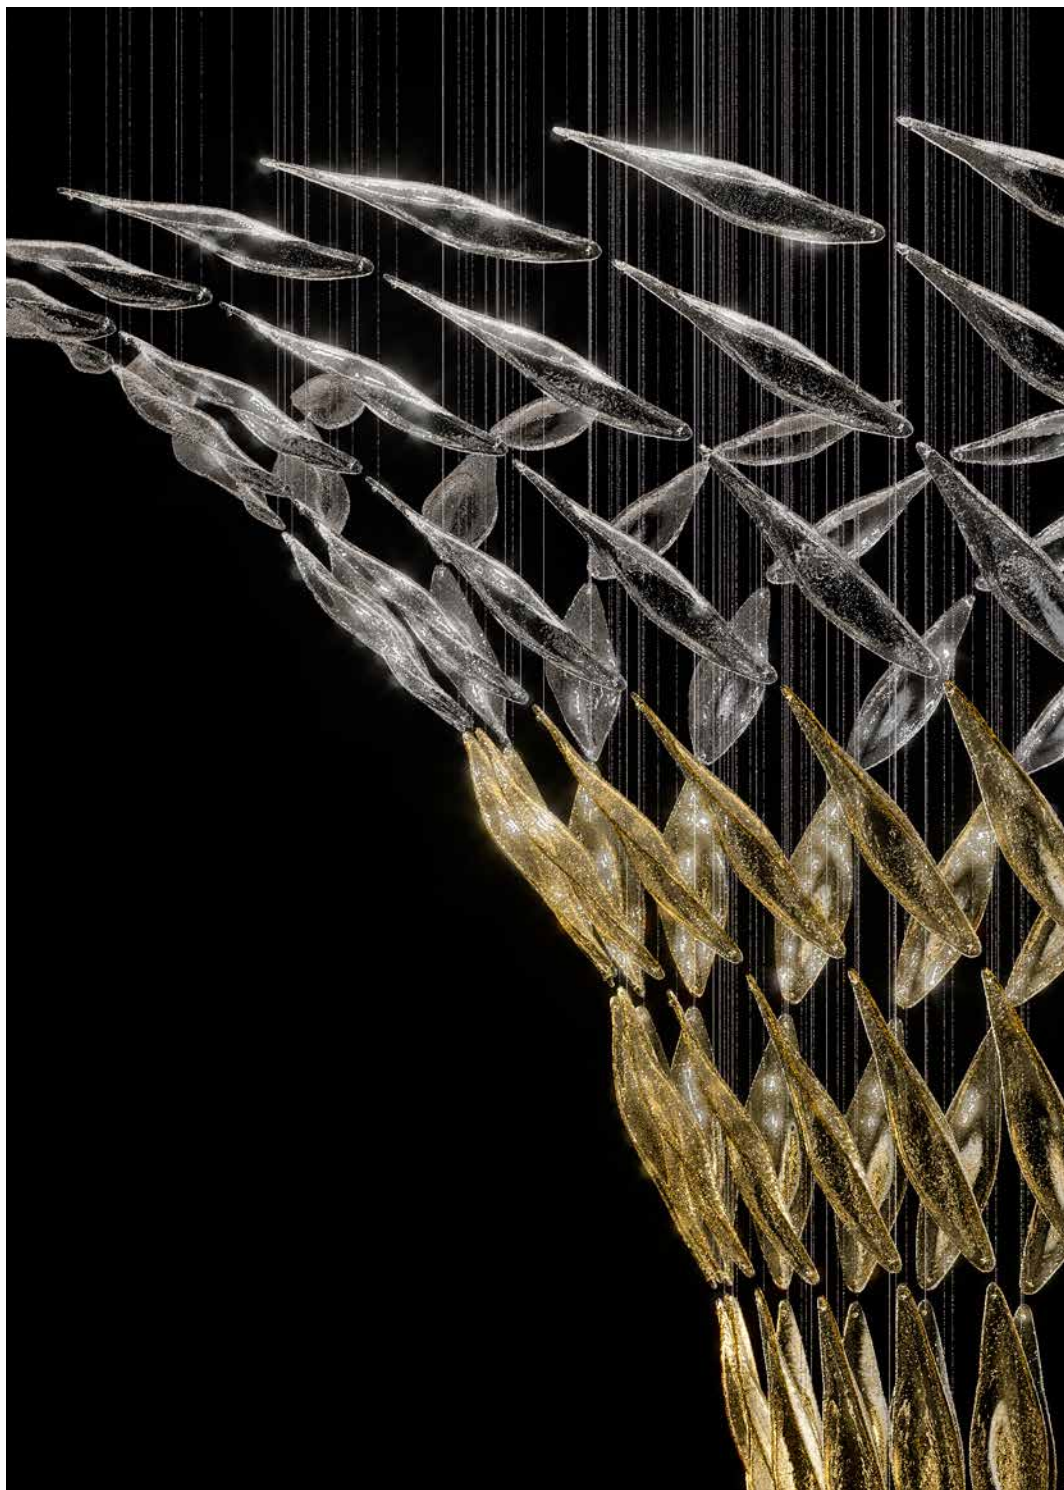

Danzano in gruppo, come foglie libere di fluttuare leggere.
Affusolate sui lembi esterni, sembrano modellate dalla natura.
Gentilmente si incurvano, percorse da nervature delicate, che
lasciano permeare più vivacemente la luce.

They dance in groups, like leaves freely floating in the air. Slender
along the outer edges, they seem sculpted by nature. Gently
curving, they are traced by delicate veins that allow light to
permeate more vibrantly.

ASPEN

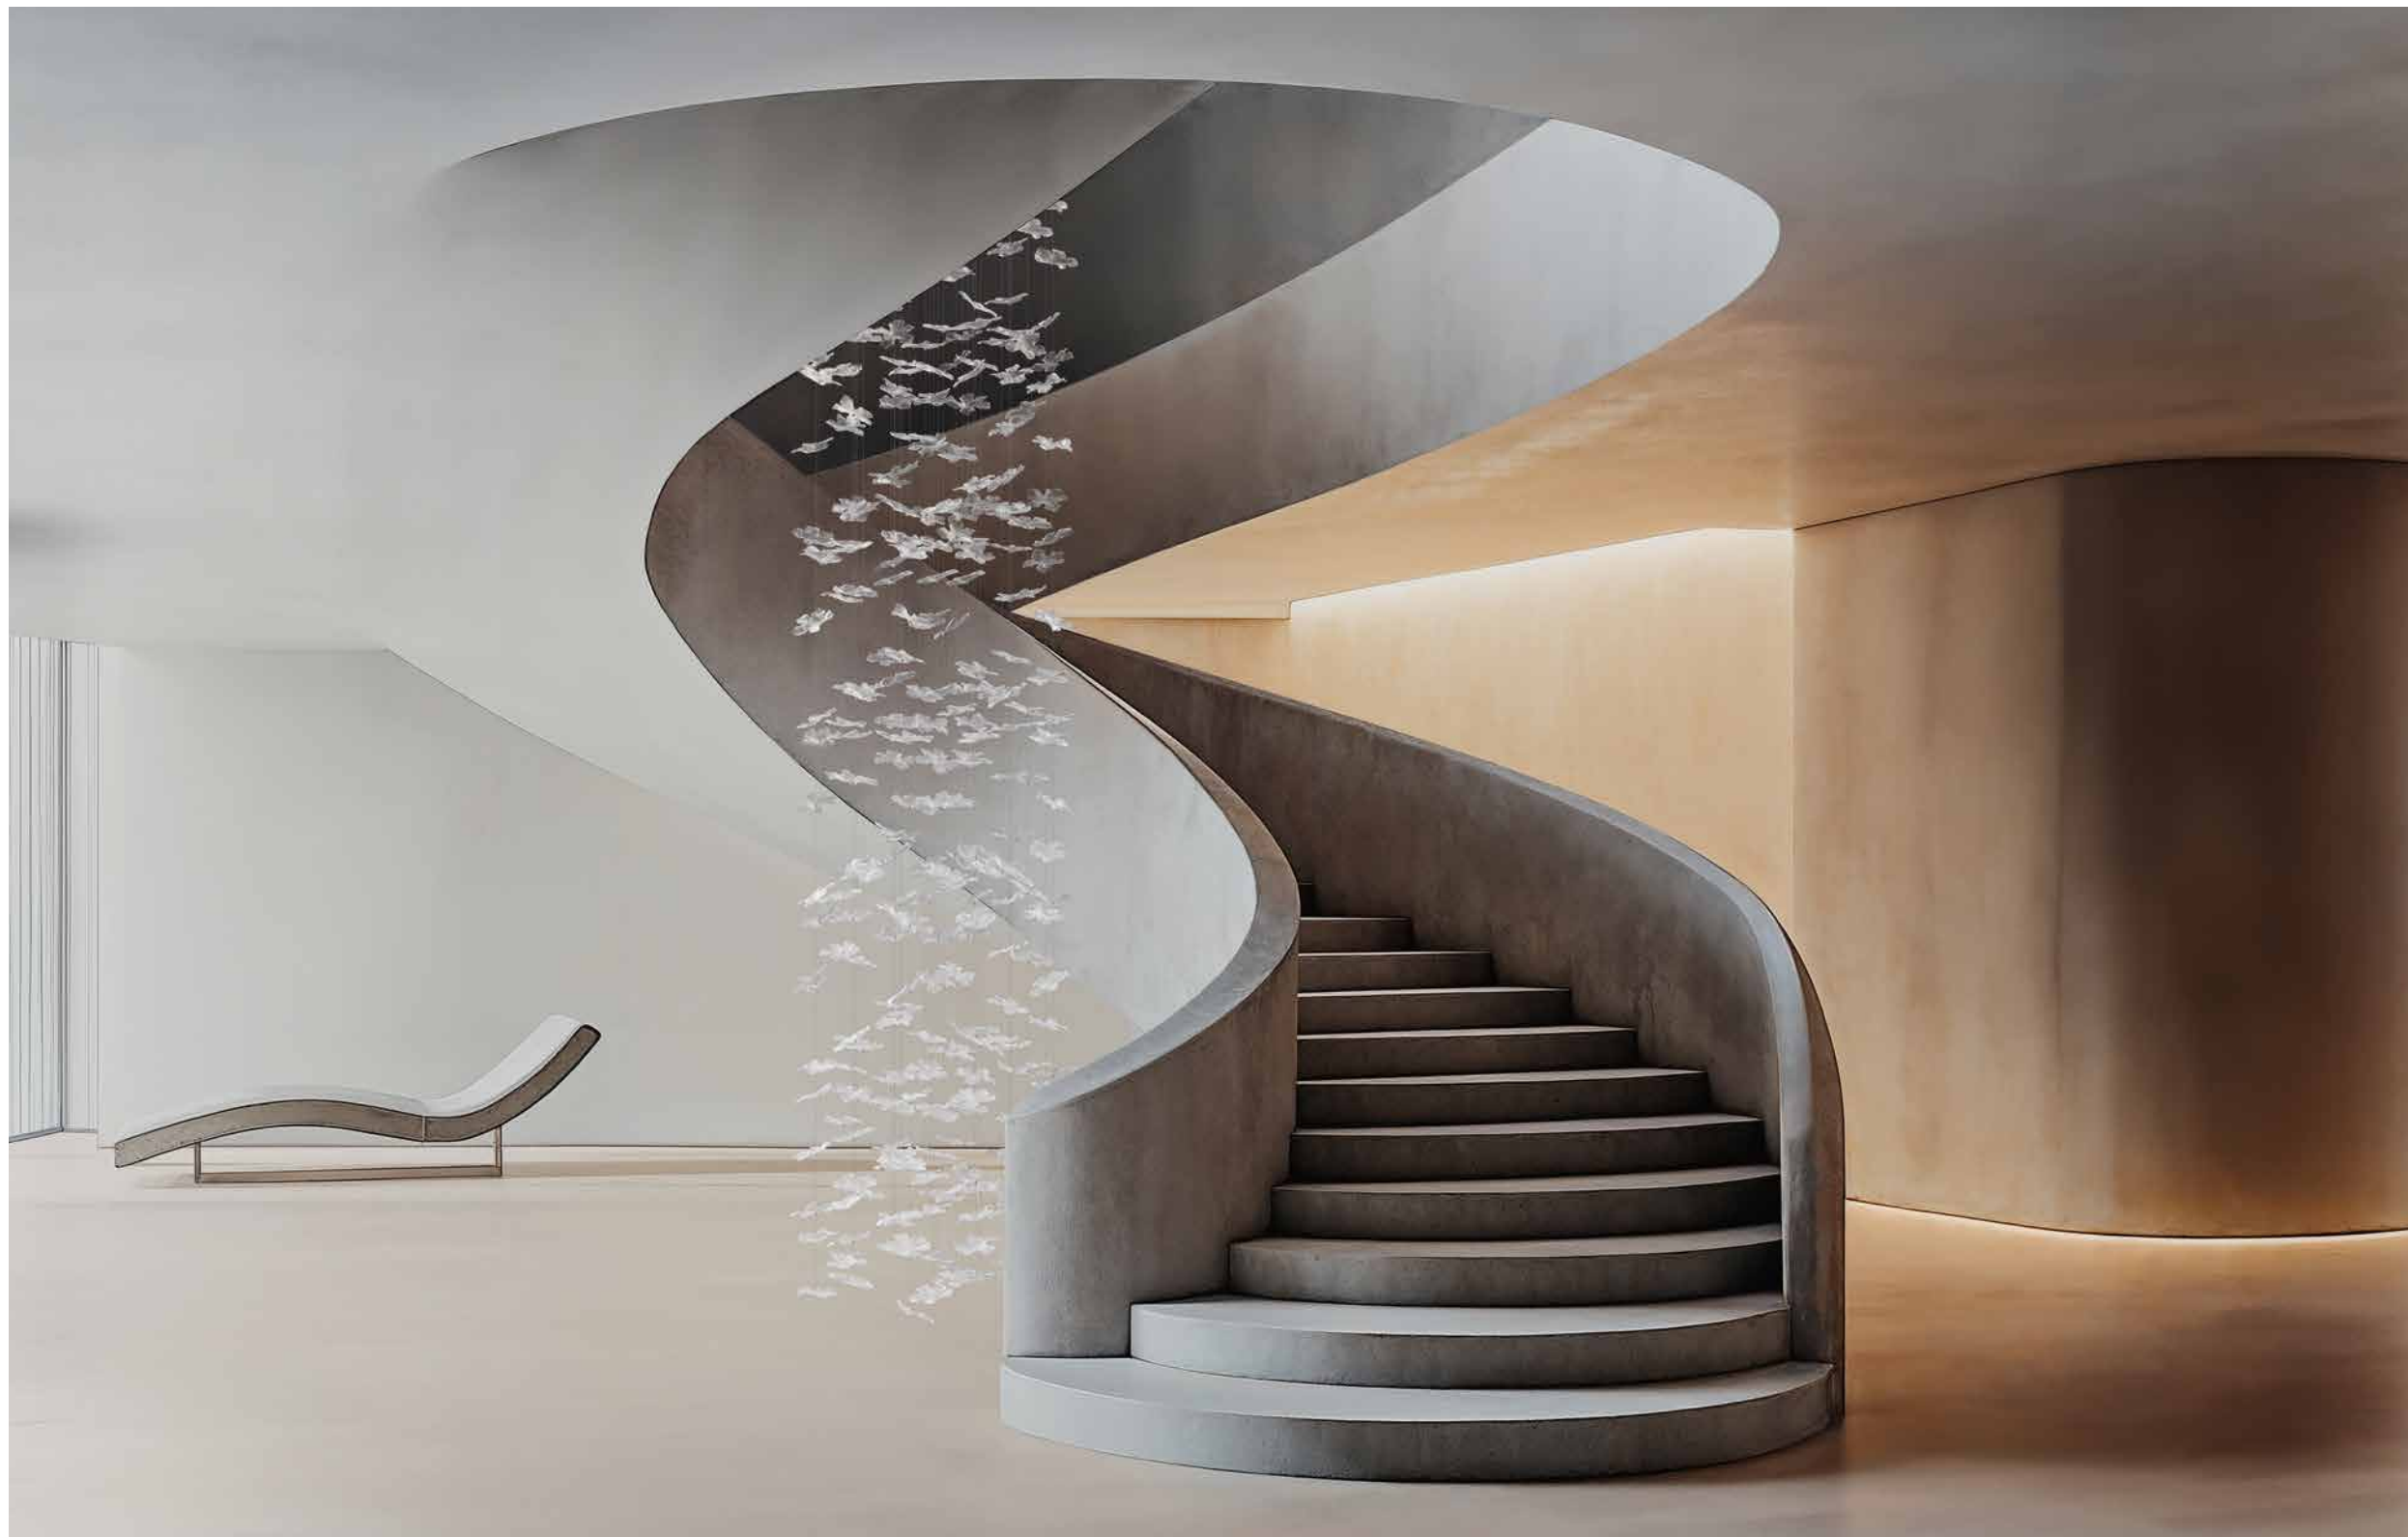

Eco di paesaggi autunnali, animati dal vento. Sospese in aria, disegnano scenari romantici, dove il tempo si ferma. Cinque lobi si irradiano dal centro di ogni foglia di cristallo, accennando naturali increspature, così da catturare lo sguardo e la luce.

An echo of autumn landscapes, animated by the wind. Suspended in the air, they sketch romantic scenes where time stands still.

Five lobes radiate from the center of each crystal leaf, subtly rippling, capturing both the eye and the light.

EXAGON

Composizioni di grande impatto scenografico, costituite da elementi luminosi sapientemente realizzati dai maestri vetrai di Murano. Dischi sottili ed impalpabili in cristallo veneziano che attraverso la luce e la loro moltiplicazione danno vita a progetti, anche su misura, magnifici da ammirare da vicino e da lontano.

Compositions of great theatrical impact, made of luminous elements skilfully created by master glassmakers in Murano. Thin, impalpable disks of Venetian crystal, through light and multiplication, give rise to magnificent designs, also bespoke, that are as enticing at close range as they are from a distance.

GERMOGLI

Domina la scena un involuppo di canne luminose, avvolte da foglie rampicanti, interamente realizzate in cristallo veneziano. Il mondo vegetale torna ad essere fonte d'ispirazione, come da eredità muranese. Risalgono agli anni '80 i disegni dello storico archivio Barovier&Toso ai quali la collezione si rifà. Sospesi ad altezze differenti, gli elementi disegnano forme concentriche o a spirale, composizioni eclettiche e sorprendenti.

At center stage, the twining of luminous reeds, wrapped in the leaves of climbing plants, entirely made in Venetian Crystal. The botanical world returns as a source of inspiration, in keeping with the Murano legacy. The drawings from the historical archives of Barovier&Toso on which the collection is based date back to the 1980s. Suspended at different heights, the parts generate concentric or spiral forms, in eclectic, surprising compositions.

HANAMI

Come in un'opera d'arte moderna lo stesso elemento è ripetuto e moltiplicato quasi all'infinito. Una ripetizione seriale di una semplice forma modulare che genera un volume organico ed omogeneo. Ma in realtà ogni singola bolla non è mai perfettamente identica a sé stessa; la soffiatura a bocca e la lavorazione a mano rendono i multipli simili ma mai uguali, rendendo unica ogni composizione.

As in a modern artwork, the same element is repeated and multiplied almost infinitely. The reiteration of a simple modular form generates an organic, homogenous volume. The individual bubbles are never quite the same; the glassblowing technique and handwork make the multiples similar but never equal, making every composition truly unique.

ICARO

Poetico richiamo ad onirici slanci, volano lievi. Come piume forgiato dallo zefiro, si distendono, si contraggono e si arricciano, svelando un intrinseco dinamismo. Fine il gioco cromatico tra anima, gambo e corpo, per effetti minuziosamente su misura.

They soar lightly, a poetic tribute to dreamlike flights. Like zephyr-shaped feathers, they stretch, contract, and curl, revealing an intrinsic dynamism. A refined interplay of colors between the core, stem, and body creates meticulously tailored effects.

IVY

Con il lessico delle piante, raccontano la grazia. Minute, incurvate, celebrano la forza e la vitalità dell'edera. Costolute all'interno, ai bordi sono frastagliate e tondeggianti. Ad enfatizzare il riferimento alla natura, il cristallo può essere connotato dall'effetto *rugiada*.

Speaking the language of plants, they narrate grace. Small and curved, they celebrate the strength and vitality of ivy. Ribbed on the inside, with jagged yet rounded edges, the crystal can feature a dewdrop effect to emphasize its natural inspiration.

NEBULA

Petali di luce dai riflessi cangianti, punteggiano forme dai contorni rarefatti. Trasparenti, bianchi monocromatici, oppure attraversati da una sfumatura radiale, con un'anima bianca, opalina, che dolcemente sbiadisce verso l'esterno.

Petals of light with iridescent reflections punctuate shapes with ethereal contours. Transparent, monochromatic white, or crossed by a radial gradient, with a white, opaline core that gently fades outward.

N O V A

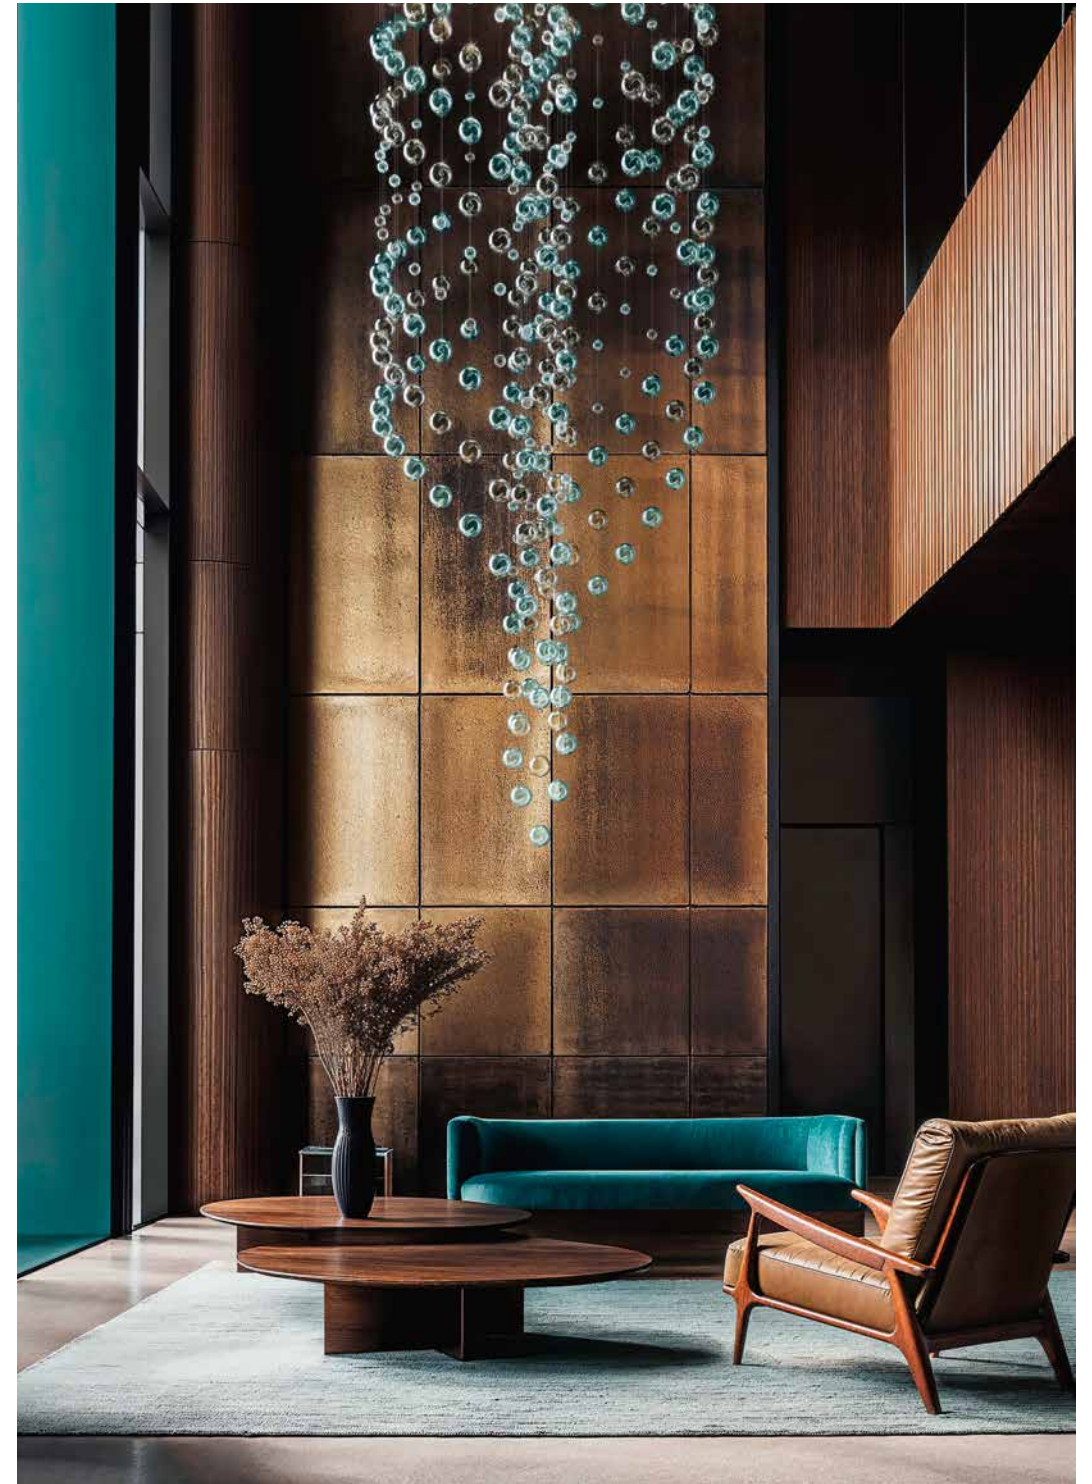

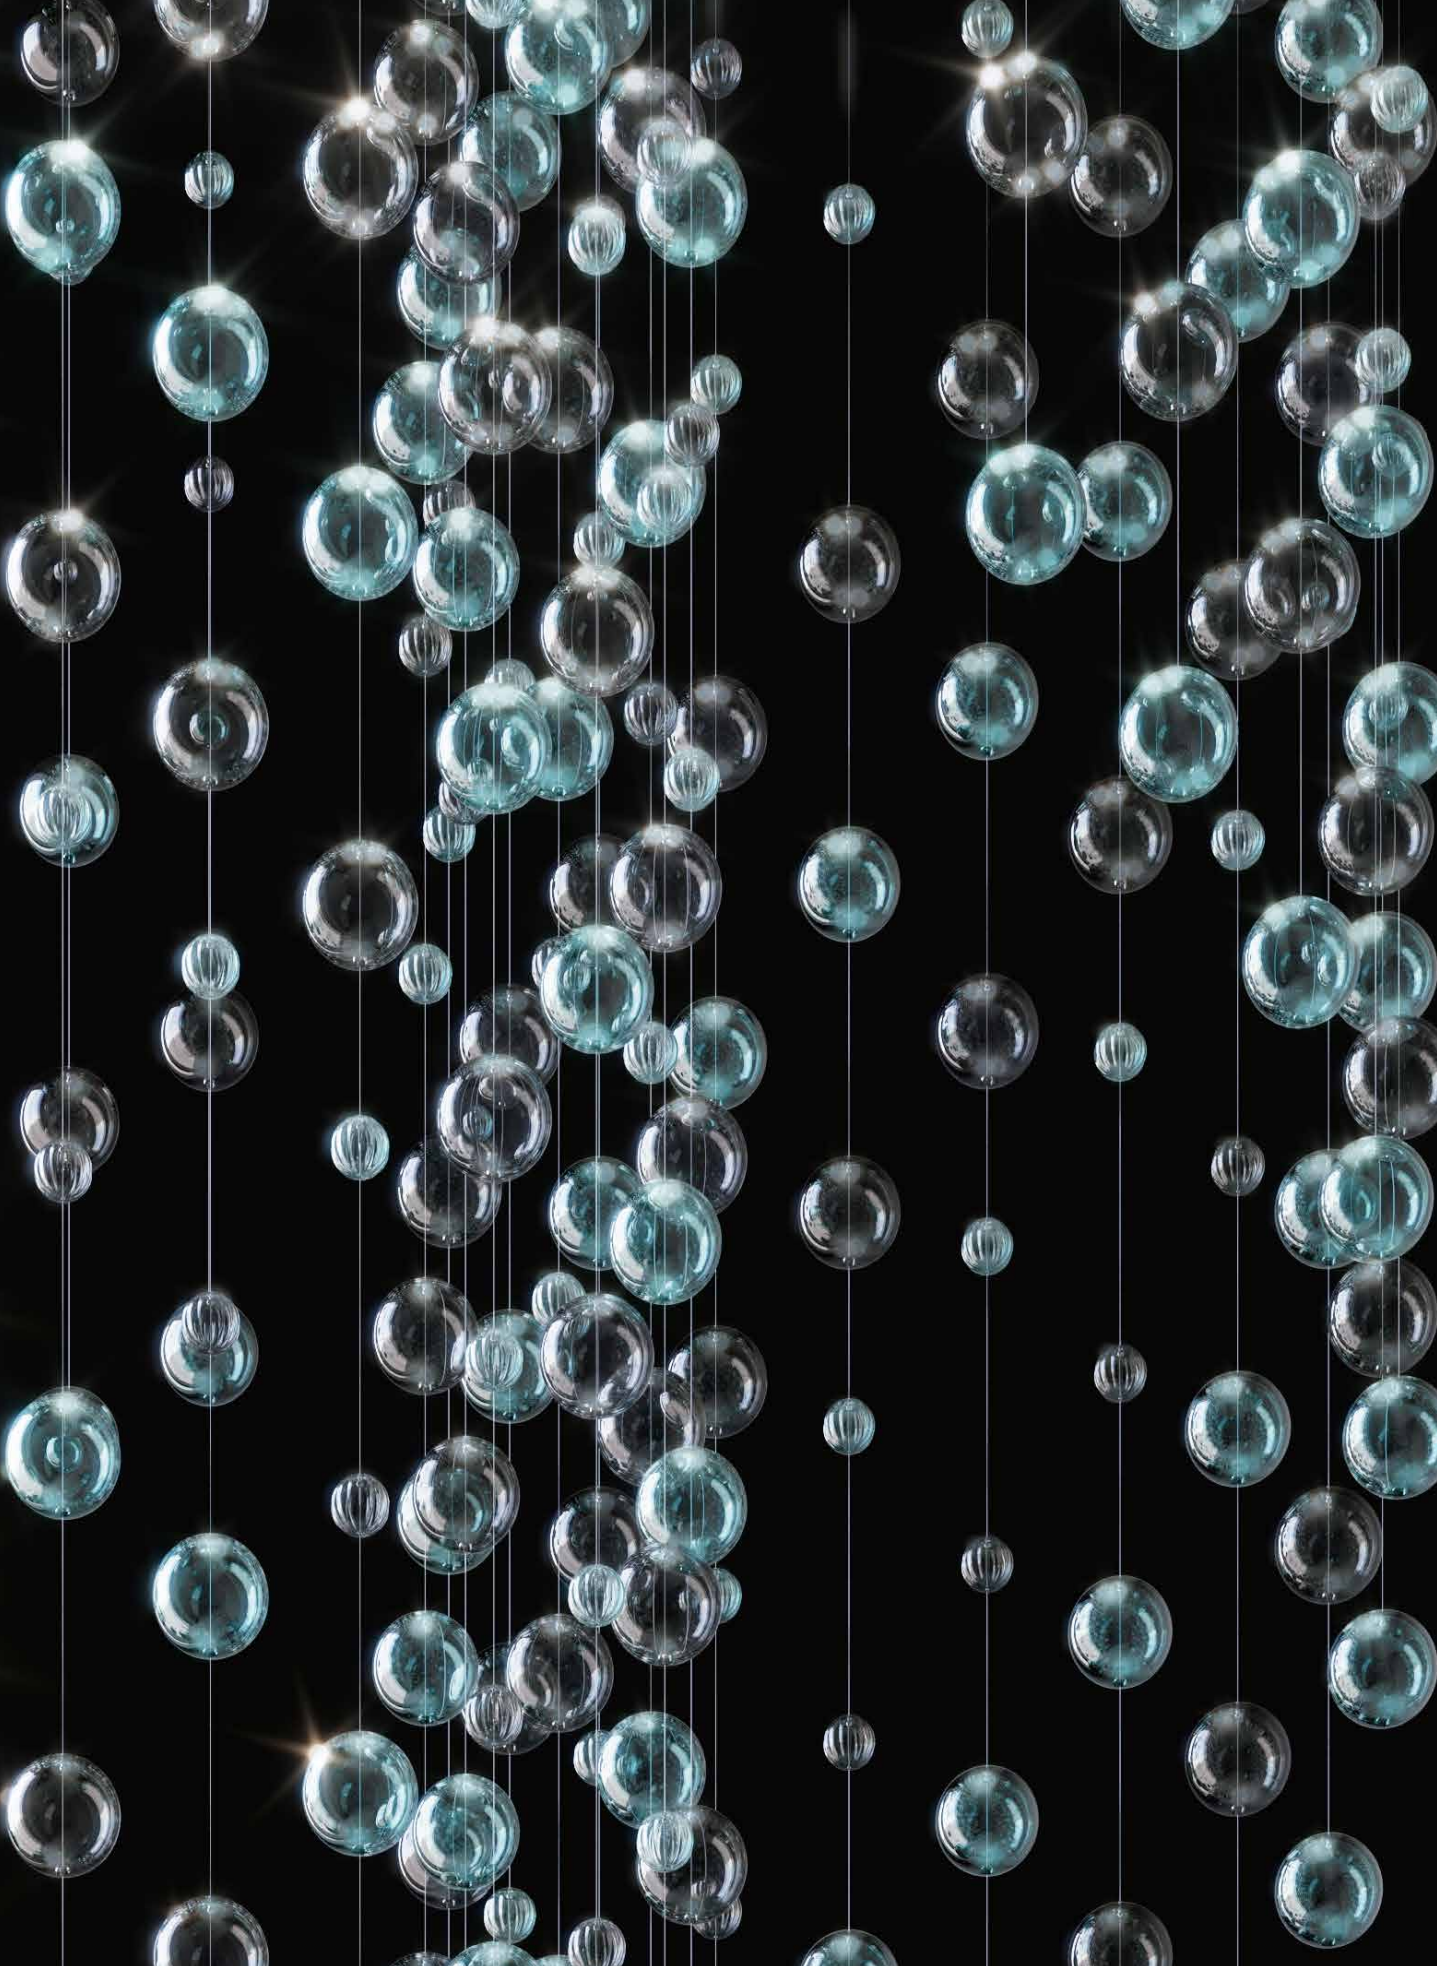

Antico simbolo di perfezione, rievocano i corpi celesti.
Come pianeti, si connettono tra loro, in un gioco di legami invisibili
e di rapporti dimensionali. Lisce, acidate, rigate... quattro diverse
lavorazioni per quattro diversi effetti.

An ancient symbol of perfection, they evoke celestial bodies.
Like planets, they connect in a play of invisible bonds and
dimensional relationships. Smooth, frosted, or streaked... four
different finishes for four unique effects.

OPTICAL

Serafiche chimere dal corpo luminoso, si guardano. Custodi di gesti di arcaica memoria, si rivelano piano, come sogni a cavallo tra la notte e il giorno. Con indole sartoriale, il cristallo si veste di materici effetti o di affascinanti contrasti cromatici.

Seraphic chimeras with luminous bodies gaze at each other.
Guardians of gestures from archaic memory gradually reveal themselves, like dreams suspended between night and day. With a tailor-made spirit, the crystal is adorned with tactile effects or captivating chromatic contrasts.

SABER

Sfavillanti frange dal colletto cromato, sfilano vicine. Diffondono la luce in modo nuovo, brillando dalla testa alla punta. Due lavorazioni speciali: rigamenà e rigadin, anche in versione colorata. Anima in scaglie oro o argento per le aste lisce.

Dazzling fringes with a chromed collar, they glide closely together. They diffuse light in a new way, shining from top to tip. Two special finishes: rigamenà and rigadin, are also available in colored versions. The rods feature a smooth surface with a gold or silver flake core.

SPINN

Le “bamboline” sono un elemento spesso utilizzato nei lampadari della tradizione muranese. Disposte a spirale e illuminate dall’interno, formano un vortice luminoso che decora l’ambiente con disegni e ombre grazie alla tipica lavorazione del vetro detta “a balotòn”.

The “*bambolina*” is a figure often utilized in traditional Murano chandeliers. Grouped in a spiral and lit from within, these pieces form a luminous swirl that enhances the space with patterns and shadows, thanks to the typical “*balotòn*” workmanship.

SWING

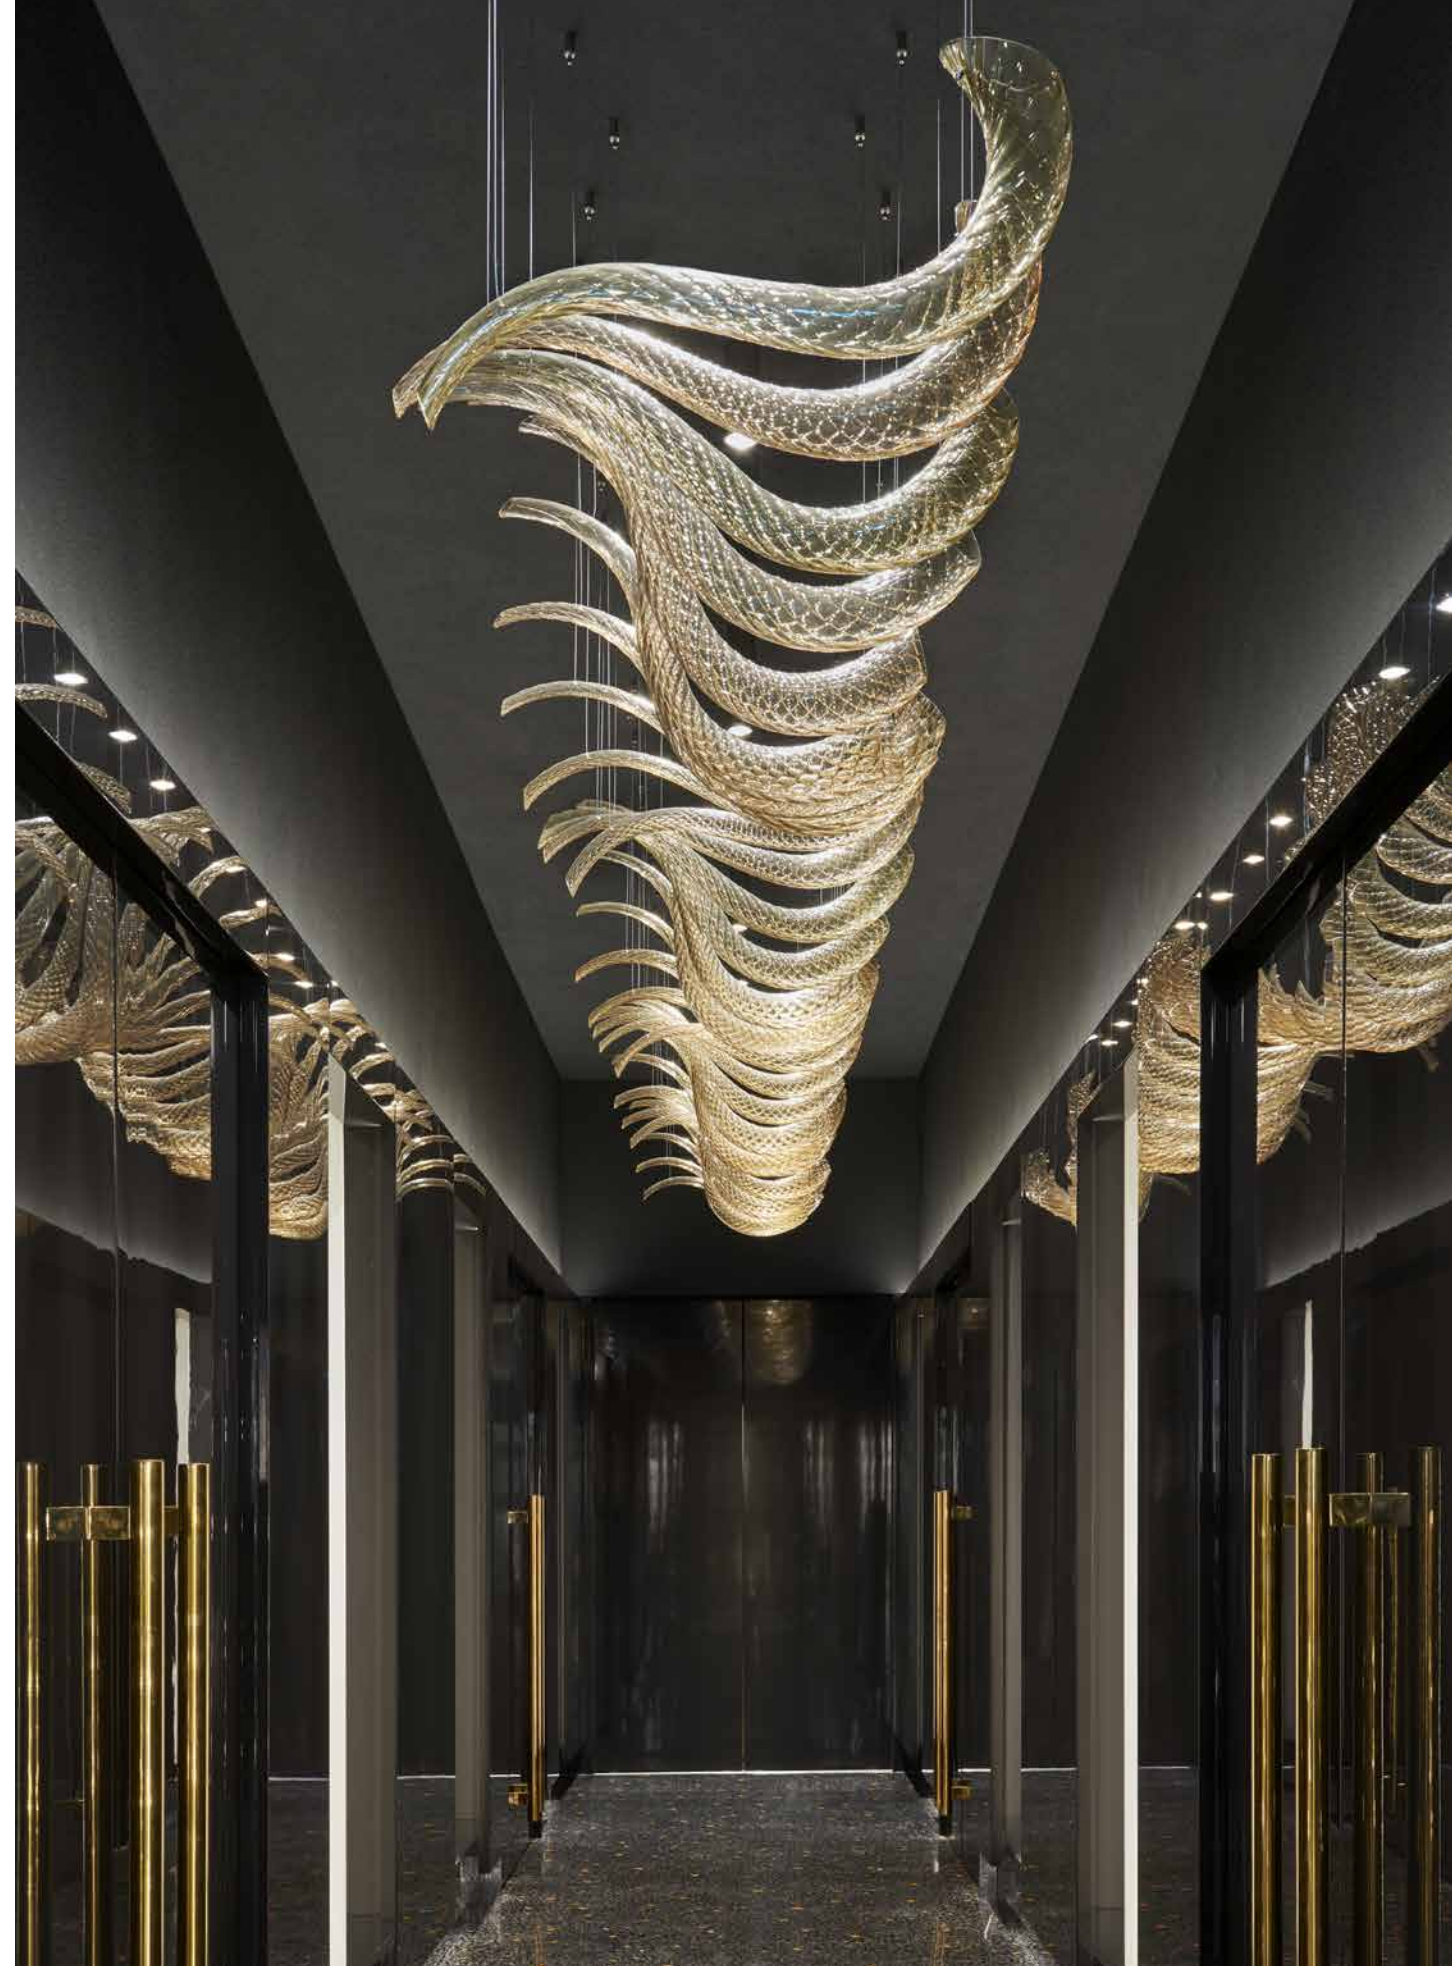

L'elemento base che compone Swing è un elegante vetro lavorato "a balotòn" che dona a questa collezione una meravigliosa dinamicità e una stupefacente presenza scenica. Sostenuti da fini cavi di acciaio fissati alla sottile struttura a soffitto, questi elementi compongono figure delicatamente sinuose e ondeggianti sia in forma circolare che in forma libera.

The basic feature of Swing is an elegant piece of crafted glass with the "a balotòn" technique, that gives the collection exceptional dynamism and a striking theatrical presence. Supported by slender steel cables attached to a thin structure on the ceiling, these parts form delicately sinuous and wavering figures, in circular or free-form configurations.
