VENEZIA 1295

Work Book

Enlightening Uniqueness

In sette secoli di storia abbiamo visto mode andare e venire. Alcune minimaliste, altre più barocche, ma tutte ugualmente prese ad inseguire il tempo che passa, nella disperata ricerca del “nuovo”.

A Venezia il tempo, invece, scorre lento. Non c'è fretta, solo tempo e spazio necessari per affinare un'arte.

Così, abbiamo deciso di prenderci il nostro tempo, per fare qualcosa di unico e originale. Qualcosa che possa durare per sempre. Qualcosa che vada oltre il fascino effimero di una stagione.

Ci vuole forza per plasmare il vetro dalla sabbia e dal fuoco. Ci vuole pazienza per arrivare alla forma perfetta senza compromessi e ci vuole cuore, tanto cuore, per portare una tradizione leggendaria di illuminazione di lusso fino ai giorni nostri, in un perfetto equilibrio tra passato, presente e futuro.

Ma ancora una volta possiamo permetterci il lusso del tempo. E forse, anche voi.

In seven centuries of history, we have seen fashions come and go. Some were minimal, others more baroque, but every one of them chased time in a desperate search for the “new.”

Time in Venice, instead, goes by slowly. There is no rush, no craze, just a great deal of space and time to develop your craft.

So we took our time and in that time we have learned that we would rather do something unique and enlightening that lasts forever instead of something new that only fascinates you for one season.

It takes strength to bring glass out from the fire and heat. It takes patience to strive for nothing less than the perfect shape. And it takes heart, a lot of it, to grow a legendary luxury lighting tradition into the new world, working with innovators and traditionalists alike.

But again, we can afford the luxury of time. And perhaps, so can you.

Cristallo Veneziano | *Venetian Crystal*

Le creazioni Barovier&Toso sono opere uniche, in Cristallo Veneziano soffiato a bocca e realizzate a mano da maestri vetrai di Murano, depositari di una tradizione secolare che solca la storia da generazioni.

È ad Angelo Barovier che si deve l'invenzione di una rivoluzionaria formula che permise di ottenere un materiale inedito, dalle straordinarie caratteristiche di estrema trasparenza e brillantezza. Fu con decreto della Repubblica di Venezia, intorno al 1455, che Angelo Barovier ottenne addirittura l'esclusiva nella produzione del "Cristallo Veneziano".

Ciò che ancora oggi rende unica quella ricetta materica, giunta fino a noi e ulteriormente perfezionata, è la totale assenza di piombo e arsenico. Questo distingue il nostro Cristallo Veneziano da qualunque altro cristallo in commercio e rende la tecnica del cristallo soffiato, come anche tutto il processo produttivo, eseguibile in totale sicurezza da parte dei maestri vetrai.

Il Cristallo Veneziano è un materiale unico, sostenibile e sicuro, capace di dar forma ad opere di grande valore artistico, le creazioni Barovier&Toso.

Barovier&Toso produce esclusivamente Cristallo Veneziano.

The creations of Barovier&Toso are one-of-a-kind works in Venetian mouth blown Crystal and hand crafted by master artisans in Murano, custodians of an age-old tradition passed down across the generations.

Angelo Barovier invented a revolutionary formula that made it possible to obtain an unprecedented material with extraordinary characteristics of extreme transparency and brightness. Thanks to a decree issued by the Republic of Venice in 1455, Angelo Barovier was granted the exclusive right to produce "Cristallo Veneziano" (Venetian Crystal).

The factor that makes this formula unique, still used today through progressive refinements, is the total absence of lead and arsenic. This is what makes our Venetian Crystal different from any other crystal on the market, enabling the master artisans to carry out the entire production process in complete safety, achieving exceptional results.

The Venetian Crystal is a unique, sustainable and safe material, ideal to give form to works of great artistic value: the creations of Barovier&Toso.

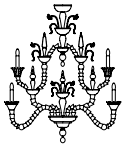

Barovier&Toso produces exclusively Venetian Crystal.

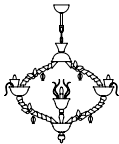

CHANDELIERS

Opere d'arte intessute di luce, portatrici indiscusse di eleganza e regalità. Dai lampadari più moderni a quelli di concezione barocca dove, in modo lineare o radiale, i bracci si moltiplicano a cascata, dando vita a spettacolari effetti luminosi.

Works of art woven by light, unrivalled vehicles of regal elegance. From the most modern chandeliers to those in Baroque style, the arms multiply in linear or radial arrangements, giving rise to spectacular luminous effects.

4604

Tra i lampadari veneziani, 4604 si distingue per la sua leggerezza decorativa. Le foglie, i pinnacoli e i fiori che lo adornano possono essere realizzati tono su tono o a contrasto; elementi caratterizzanti nelle tonalità del cristallo, dell'oro e del blu che fanno di questo modello un'icona d'arredo. La collezione comprende tre lampadari.

Among the Venetian chandeliers, 4604 stands out for its decorative lightness: leaves, pinnacles and the flowers that adorn it are crystal-coloured or gilded at the most, which makes them less present but still characteristic. The collection consists of three chandeliers.

ADONIS

Marcel Wanders

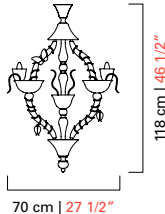

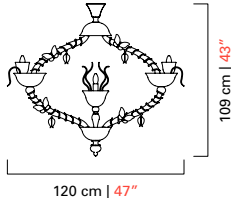

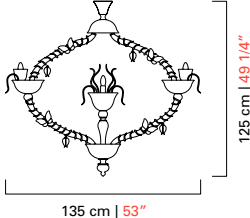

Adonis è una collezione creata da Marcel Wanders, ispirata alla tradizione floreale olandese e contaminata da quella vetraria muranese che, da sempre, usa i fiori come elemento distintivo. Leggiadre farfalle e boccioli di tulipano adornano i bracci di tutti i modelli, in un vortice di colori. Si compone di sei lampadari di due diverse fogge - una allungata e una più tradizionale - che possono essere combinati tra loro in un sistema modulare ad elevata personalizzazione.

BISSA BOBA

Angelo Barovier

Angelo Barovier, ispirandosi ad un lampadario veneziano degli archivi di Barovier&Toso, nel 1992 inventa un lampadario scomposto fatto di bracci che, come un serpente incantato, si ergono e si allontanano sinuosamente dal centro. Da qui il nome: “Bissa” è la parola che usano i veneziani per indicare un serpente.

Angelo Barovier, inspired by a Venetian chandelier from the Barovier&Toso archives, invented a decomposed chandelier made of arms which, like an enchanted snake, rise and sinuously move away from the center. Hence the name: “Bissa” is the word that Venetians use to indicate a snake.

DHAMAR

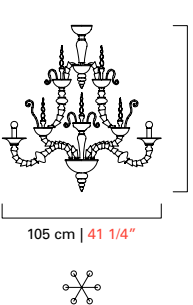

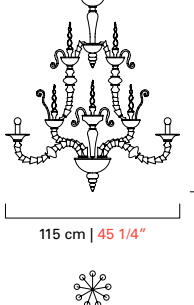

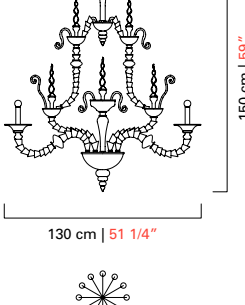

I pinnacoli in colore “affogato” nel cristallo slanciano questo lampadario dalla struttura allargata e, insieme ai particolari pendagli e alle sfere sfaccettate, ne fanno un elemento decorativo importante.

Their colour “sunk” into the crystal pinnacles confer a graceful, slender look to this family of high-profile chandeliers. Meanwhile, the very unusual shapes of the pendants, complemented by the multifaceted spheres, conjure a compelling decorative effect.

FLORIAN

I nostri archivi storici sono una miniera di ispirazioni: proprio da qui nasce Florian, un lampadario non circolare dalle linee retrò eppure così moderne, accentuate dai massicci paralumi in cristallo veneziano eseguiti con la tecnica del “rostrato”, invenzione di Ercole Barovier che moltiplica i bagliori di luce e rende il lampadario un’opera di maestria unica.

Our historic archives provide a wealth of inspiration, and it was through them that the Florian design, a non-circular chandelier, was conceived. The lines of Florian are so retro but at the same time so contemporary, accentuated by massive Venetian crystal lampshades created using the “rostrato” technique invented by Ercole Barovier, intensifying the sparkle of the lights and making this chandelier a unique piece of craftsmanship.

MAGRITTE

La collezione Magritte è frutto di un lavoro concettuale che indaga l'idea di lampadario fino a ripensarla e destrutturarla. Ispirata al linguaggio surrealista, si presenta con un impianto scenografico ed elegante, a più livelli, come vuole la tradizione, ma nella realtà rivela un nuovo ed avanguardistico design. Il classico nucleo centrale a bracci lascia spazio ad un sistema a satelliti modulari, concepito per essere esteso in modo concentrico, come una nuvola di luce e vetro soffiato.

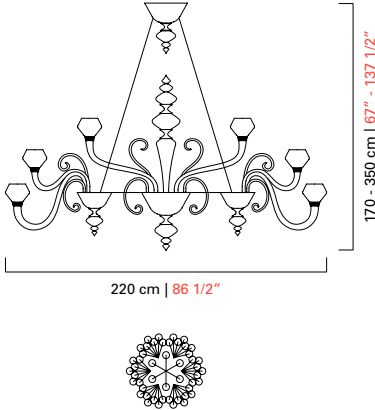

The Magritte collection is the result of a conceptual work that investigates the idea of a chandelier to the point of rethinking and deconstructing it. Inspired by the surrealist language, presents itself with a scenographic and elegant layout, on multiple levels, as tradition dictates, but in reality it reveals a new and avant-garde design. The classic central core with arms leaves room for a modular satellite system, conceived to be extended concentrically, like a cloud of light and blown glass.

PALLADIANO

Simmetria, ordine, perfezione ed eleganza sono le muse ispiratrici di questa collezione. Un omaggio alla razionalità e all'equilibrio delle opere del Palladio ed ai valori dell'architettura formale classica. Anche la scelta della palette cromatica con i suoi colori pieni, non trasparenti, è una celebrazione della matericità e del volume dell'oggetto che si trasforma quasi, esso stesso, in una piccola architettura.

Symmetry, order, perfection and elegance are the muses behind this collection. A tribute to the rationality and balance of the works of Palladio, and the values of formal classical architecture. The selection of colours, in full, non-transparent hues, is a celebration of the material and volume of the object, which is transformed almost into a small work of architecture.

PRÉSIDENT

Un lampadario a bracci iconico per antonomasia che mette in risalto la meticolosa eleganza della lavorazione artigianale. Prismi cesellati, pendenti scintillanti e coppette decorate lo rendono un elemento d'arredo davvero unico in cui il cristallo veneziano rivela il suo splendore scultoreo.

An iconic chandelier with arms par excellence that proudly displays its painstaking workmanship and elegance. Chiseled prisms, sparkling pendants and decorated cups make this a truly unique decor feature, in which Venetian crystal reveals its sculptural splendour.

RABAT

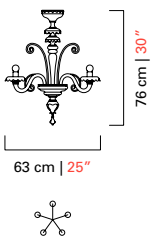

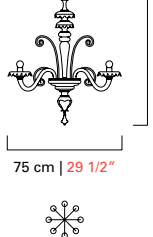

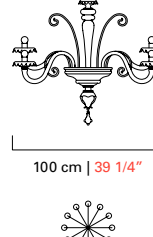

Una collezione classica, che utilizza molti degli stilemi della tradizione veneziana. In particolare, le “morise”, decorazioni ondulate eseguite applicando a caldo un cordoncino di vetro pizzicato con le “borselle” (pinze) da “pissegar” (pizzicare) che consentono di ottenere una superficie che sembra un merletto.

A classical collection that features many of the stylistic elements of the Venetian tradition. In particular the “morise”, wavy decorations executed by applying a hot crystal ribbon and then pinching it with the “borselle” (pincers) to “pissegar” (pinching) to obtain a texture that looks like a lace.

RAN ROUND

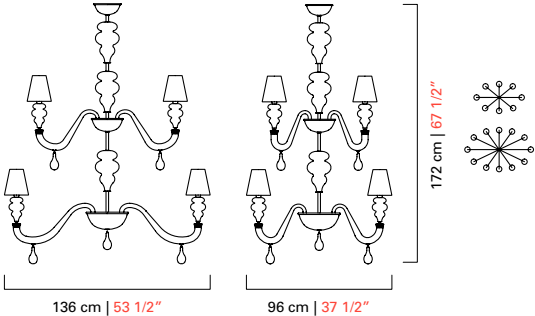

Trasparenza e leggerezza. Grazie ai bracci dalle ampie curvature, alle ogive soffiate in serie e ad i pendagli a goccia di grandi dimensioni i lampadari acquisiscono una straordinaria lievità e delicatezza. Questa è l'unica collezione che prevede anche versioni a pianta ellittica particolarmente adatte ad essere posizionate in corrispondenza di tavoli da pranzo rettangolari.

Transparency and lightness. Thanks to the wide curves of the arms, the mouth blown ogives aligned in series and the extra size drop-shaped pendants, the chandeliers appear extremely slight and delicate. This is the only collection that has elliptical versions that perfectly fit on top of rectangular dining tables.

ROSATI

Questa collezione nasce attingendo ai disegni del prezioso archivio storico di Barovier&Toso rielaborati e riproposti con un design più moderno. Linee sobrie ed eleganti, che vanno al di là delle mode. Ogni tazzina ospita al suo interno un "rostrato", piccolo gioiello di invenzione, che protegge alla vista la lampadina la cui luce si moltiplica all'infinito, passando attraverso le cuspidi che sono l'essenza stessa del rostrato.

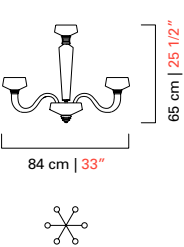

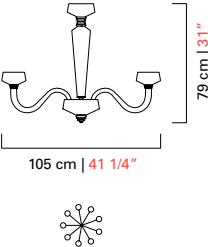

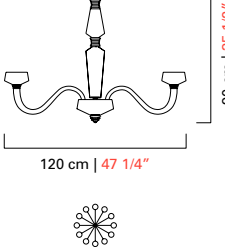

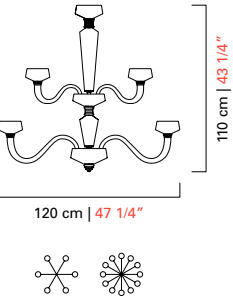

This collection takes its cue from drawings conserved in the precious historical archives of Barovier&Toso, reworked and reformulated with a more modern design. Simple, elegant lines that transcend fashion. Each candle cup holds a little stroke of genius: a "rostrato", a piece of glass with extruded pointed tips, which hides the lamps from view. Their light is refracted infinitely as it passes through the glass tips that are at the heart of the "rostrato" technique.

SAINT GERMAIN

Giorgia Brusemini

Una collezione che parte dal concetto di bidimensionalità allineando i bracci lungo lo stesso asse per dar vita ad oggetti di dimensioni contenute che non perdono tuttavia la poesia e l’incanto di un prodotto interamente realizzato a mano in cristallo veneziano. Elemento distintivo è la sfera realizzata con la tecnica dell’oro sommerso.

A collection that starts with the concept of two dimensions, extending its arms along the same axis to give rise to objects of compact size that do not, however, lose any of their poetry and enchantment. A product made entirely by hand in Venetian crystal, featuring a distinctive sphere made with the “oro sommerso” technique.

SAN GIORGIO

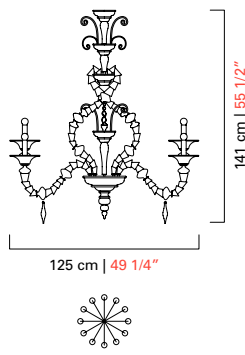

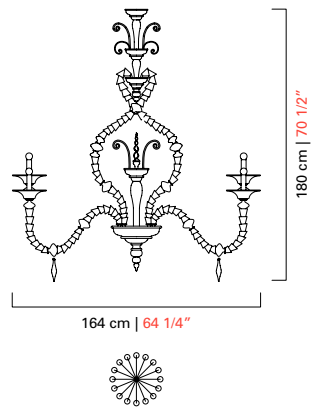

Lampadari ricchi di decorazioni molto particolari come i pendagli soffiati a forma di ampolla nella stessa colorazione dei bracci e le piramidi (punte attorcigliate). Caratteristica singolare è anche la struttura a gabbia ritorta che genera un insolito effetto di torsione enfatizzato anche dall’atipica interruzione del fusto centrale.

Chandeliers full of specific decorations such as the ampoule shaped pendants, mouth blown in the same colour of the arms, and the pyramids (curled points). The twisted main frame is a unique feature that creates an unusual torsion emphasized also by the atypical break in the central trunk.

TAIF

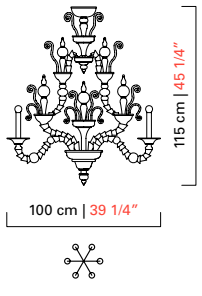

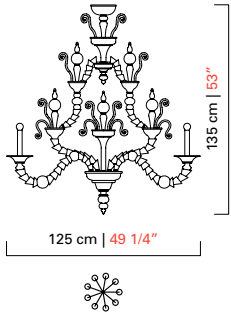

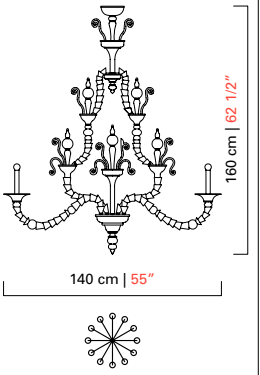

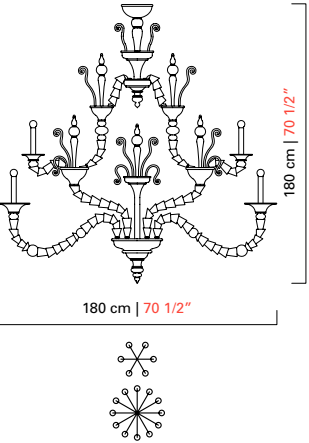

Un'icona, sintesi perfetta di esperienze e materiali diversi, che sbalordisce per la sua ineguagliabile armonia. Un lampadario di grande successo che nasce nel 1980 per illuminare la residenza del re saudita a Taif, città da cui prende il nome. Angelo Barovier ripensa l'immagine del lampadario della tradizione muranese, preservando il valore del cristallo veneziano e accogliendo nuovi linguaggi per approdare infine all'equilibrio compiuto del Classico.

An icon; the perfect synthesis of experience and selected materials wrought with stunning and unequalled harmony. Taif was created in 1980 for the home of the Saudi king in the eponymous city of Taif, whence comes the name. Angelo Barovier rethought the image of the traditional Murano chandelier, preserving the value of Venetian crystal while incorporating new languages. An amalgam, then, of tradition and creativity, of memory and innovation, from which blossoms the time-tested equilibrium of the classical.

TANGERI

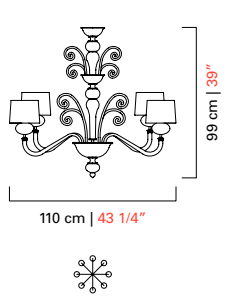

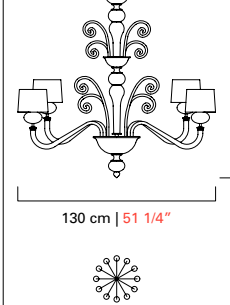

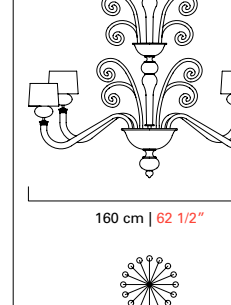

Sfere riccamente decorate e pastorali abilmente ritorti si alternano in questa collezione che attinge alla tradizione ma il cui disegno, alleggerito e semplificato, ben si adatta sia ad interni di gusto classico che contemporaneo. I paralumi con la finitura interna oro sono perfetti per donare un’atmosfera calda e ricercata.

TWINS

Come in un passato mai passato la materia vetro prende forma, e la luce si alterna alle ombre in un vigoroso abbraccio vorticante. Sulle orme dei successi del passato recente, un lampadario orizzontale dall’aspetto vigoroso ma raffinato. Il cristallo dei bracci, molto materico, è trasparente mentre le lampade sono racchiuse in tazzine di colore bianco opaco che diffonde e ammorbidisce la luce.

In a past that is ever present, the glass takes shape and light alternates with shadows to generate a vigorous, vertiginous embrace. On the heels of the successes of the recent past, an horizontal chandelier with a vigorous yet refined appearance. The arms’ crystal, which is very material, is transparent, while the light bulbs are enclosed in opaque white cups which diffuse and soften the light.

VENEZIA 1295

L'origine di tutto, il compendio di settecento anni di tradizioni tramandate di padre in figlio, oltre le mode e il tempo che scorre: una collezione di lampadari ricca di storia, di dettagli e di emozioni. È composta da quattro lampadari tutti caratterizzati da un elemento ricorrente: il "rostrato", un'invenzione del secolo scorso di Ercole Barovier che prende origine dalle tecniche di lavorazione artigianali dei suoi avi.

At the very heart of it all is the culmination of seven hundred years of tradition handed down from father to son through changing times and fashions: a collection of chandeliers rich in history, detail and emotion. It is comprised of four chandeliers all featuring a recurring motif: "rostrato," invented by Ercole Barovier almost a century ago developing techniques used by his ancestors.

VERMONT

Elemento caratterizzante di questa collezione sono le grandi sfere in cristallo veneziano soffiato. Si distribuiscono sia in verticale che in orizzontale come a formare un’eterea ma preziosa nuvola di vetro.

The large Venetian crystal spheres are the distinctive elements of this collection. With their horizontal and vertical distribution, they generate an ethereal but at the same time precious crystal cloud.

WINDSOR

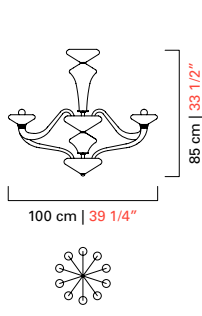

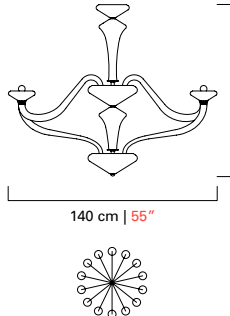

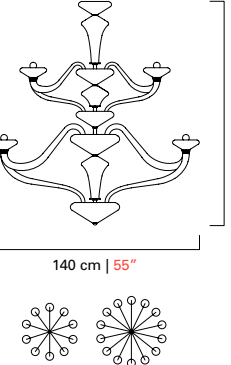

Bracci sinuosi ed eleganti, che si dipanano da un corpo centrale snello e slanciato in un gioco visivo di intrecci, e si allineano ingegnosamente su uno stesso piano, sono la peculiarità della collezione. Le tazzine portalampada sono sempre bianco opaco con una sfumatura nella stessa tonalità dei bracci.

Sinuuous, elegant arms which unfurl from a slender central body in a visual game of twists, and which are smartly aligned on a same plane: these are the distinctive features of the collection. The lamp-holder cups are always opaque white with a shade whose tonality is the same as the arms.

SUSPENSIONS

Una collezione ampiamente variegata e versatile, capace di rievocare altre epoche o di aggiungere un accento contemporaneo all'ambiente. Lavorazioni tradizionali sposano forme eclettiche, dando vita a creazioni che fluttuano sospese nell'aria.

A variegated and versatile collection capable of suggesting other eras, or of adding a contemporary accent to spaces. Traditional workmanship meets eclectic forms, in creations that seem to float in the air.

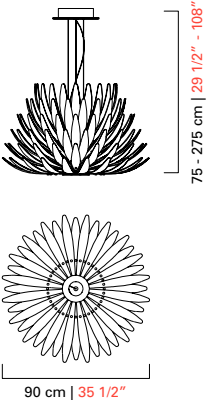

AGAVE

García Cumini

Agave è una collezione ispirata alla pianta omonima, simbolo di eleganza e resilienza, reinterpretata in cristallo veneziano dai designer García Cumini. La sua iconica foglia allungata richiama la tradizione vetraria di Barovier&Toso ed è arricchita dalla tecnica della rugiada, che ne esalta la brillantezza e la texture tridimensionale. Un innovativo effetto sfumato, ottenuto con graniglia di vetro colorato, valorizza ulteriormente il design. Questa lavorazione diffonde la luce in modo dinamico, evocando i raggi solari filtrati tra le foglie dell’agave.

Agave is a collection inspired by the plant of the same name, a symbol of elegance and resilience, reinterpreted in Venetian crystal by designers García Cumini. Its iconic elongated leaf recalls Barovier&Toso’s glassmaking tradition and is enriched by the dew technique, which enhances its brilliance and three-dimensional texture. An innovative shaded effect, obtained with coloured glass beads, further enhances the design. This workmanship diffuses light dynamically, evoking the sun’s rays filtered through the leaves of the agave.

ANGEL

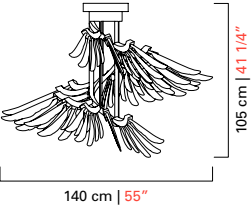

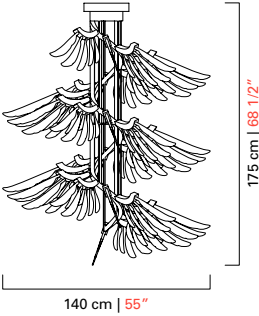

Al Design

Angel è una spirale di piume di cristallo, che si avvolge su sé stessa con dinamismo, e che fluttua nello spazio come un’ala vaporosa che si dispiega leggera. Ogni piuma è illuminata da led, così come l’attacco a soffitto.

Angel is a spiral of crystal plumage, which wraps around itself with dynamism and floats in space like a vaporous wing unfolding lightly. Each feather is lit by led, as well as the ceiling connection.

CAMPANULA

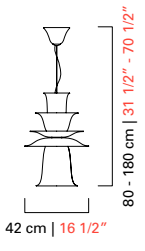

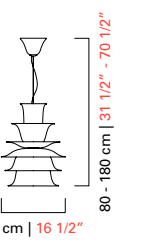

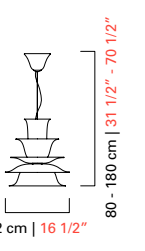

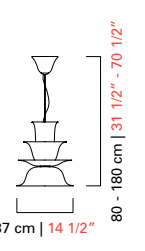

García Cumini

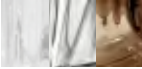

Una bellezza gentile, che trova origine ed eco nella natura, nella sua capacità di farsi multiplo, ogni volta in modo nuovo e spontaneo. La modularità di questa collezione coniuga la tradizione delle lavorazioni artigianali ad una modalità compositiva contemporanea e vivace. Equilibrate ed eleganti, le sospensioni protendono nello spazio, seguendo prevalentemente un asse verticale. Protagonista il cristallo veneziano, brillante e ipnotico, perfetto interprete di un archetipo floreale.

CLEPSYDRA

Simmetria e ordine danno vita a sospensioni molto ricche, dal magico fascino. Sono composizioni dense e brillanti, ottenute per moltiplicazione di un singolo elemento, che rivisita un design degli anni '60, presente nello storico archivio Barovier&Toso. Sinuosamente progettate per combaciare perfettamente, le clessidre sono realizzate con l'antica tecnica del Rigadin. Soffiando il cristallo all'interno di uno stampo chiamato "fracco," si ottengono sottili costolature lungo tutta la superficie dell'oggetto. Grazie a queste rigature, ogni sospensione accende una danza di riflessi luminosi.

Symmetry and order generate very elegant suspension lamps of magical charm. These are intense, bright compositions, obtained through multiplication of a single element, linking back to a design from the 1960s contained in the historical archives of Barovier&Toso. With sinuous forms for perfect matching, the hourglasses are made with the age-old Rigadin technique. The glass is blown inside a mould known as a "fracco," producing slender ribbing along the entire surface of the object. Thanks to these lines, every suspension lamp triggers a dance of luminous reflections.

Come sculture mobili queste sospensioni grazie alla cinetica dei bracci consentono di ottenere configurazioni sempre diverse. In antitesi alla staticità della sospensione tradizionale questi oggetti giocano con il delicato equilibrio tra pesi e dimensioni creando un effetto di estrema lievità e delicatezza. È proposto in nove modelli, ma le possibilità costruttive sono infinite.

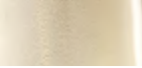

Like mobile sculptures, thanks to the kinetics of the arms these suspensions make it possible to create many different configurations. As opposed to the static character of traditional lamps, these objects play with a delicate balance of weights and proportions to generate an effect of extreme lightness and delicacy. It is available in nine models, but with infinite possible combinations.

Una collezione che celebra ed esalta uno degli elementi caratterizzanti dei lampadari della tradizione veneziana, il “pastorale”: un piccolo bastone dall’estremità ritorta a spirale caratterizzato dalla lavorazione “rigà menà”. Ingrandito a dismisura, appeso al contrario e replicato in serie diventa il protagonista di queste sospensioni dal disegno minimalista e moderno. Proposto in tre diverse configurazioni (a uno, due o tre livelli).

A collection that pays tribute to and enhances one of the characteristic features of the chandeliers of the Venetian tradition, the “pastorale”: a small rod terminating in a spiral, made with the “rigà menà” technique. Forcefully enlarged, suspended upside-down and replicated in a series, this piece becomes the protagonist of suspension lamps with a modern minimalist design. Available in three different configurations (one, two or three-tiers).

EMPIRE

Nuvole di tubi a sezione quadrata compongono sospensioni dai volumi piramidali, ispirandosi alle geometrie rigorose ed energiche tipiche dell'Art Déco. Gli elementi si sovrappongono, si affiancano, con lunghezze diverse e con una ritmata alternanza di colori, nelle versioni policrome. L'effetto luminoso d'insieme è soffuso, ma costellato da scintillii puntuali, frutto di particolari rifrazioni. A produrre questi giochi di luce sono le superfici leggermente ondulate dei tubi, ottenute per mezzo di una speciale lavorazione, detta a corteccia. Eseguita artigianalmente, si realizza con l'ausilio di uno stampo metallico, le cui irregolarità vengono trasferite sul vetro all'atto della soffiatura.

Clouds of tubes with a square cross-section form pyramid-shaped suspensions, inspired by the rigorous and energetic geometric stylings typical of Art Deco. The parts are overlaid and juxtaposed, with different lengths and a rhythmical alternation of colours in the polychrome versions. The luminous effect is soft but punctuated by sparkling highlights produced by particular refractions. The games of light are produced by the slightly undulated surfaces of the tubes, obtained by means of a special technique known as a corteccia. The lamps are made by hand with the aid of a metal mould, whose irregularities are transferred onto the glass during the blowing procedure.

GERMOGLI

Domina la scena un involuppo di canne luminose, avvolte da foglie rampicanti, interamente realizzate in cristallo veneziano. Risalgono agli anni '80 i disegni dello storico archivio Barovier&Toso ai quali la collezione di sospensioni si rifà. Doppia la fonte luminosa, interna ai singoli elementi e inserita nel piatto metallico superiore. Così progettata, la luce esalta il design del cristallo e delle composizioni, facendosi interprete di una ricercatezza che sa essere insieme leggerezza e opulenza. Sorprendenti ed eclettiche le composizioni: a pianta circolare oppure ovale, dalla forma concentrica o dalle geometrie più complesse, come la versione a spirale, perfetta per ambienti molto alti.

An enclosure of luminous reeds dominates the setting, wrapped by the leaves of climbing plants, entirely in Venetian Crystal. The drawings on which the collection of suspension lamps is based date back to the 1980s, stored in the historical archives of Barovier&Toso. The light source is double, inside single elements and inserted in the upper metal plate. The light brings out the refined design of the glass and its compositions, conveying a sense of elegance that is simultaneously lightness and opulence. The compositions are surprising and eclectic: circular or oval, with a concentric form or a more complex geometric arrangement, like the spiral version which is perfect for spaces with very high ceilings.

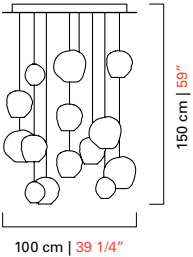

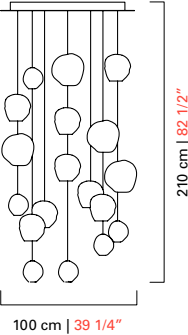

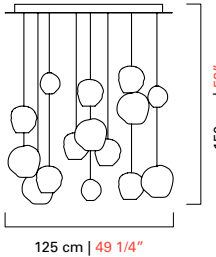

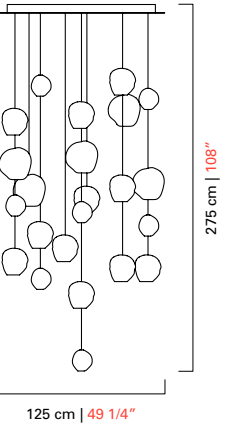

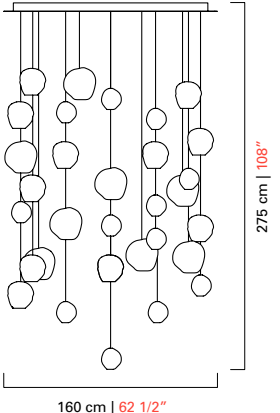

HANAMI

Come in un'opera d'arte moderna lo stesso elemento è ripetuto e moltiplicato quasi all'infinito. Una ripetizione seriale di una semplice forma modulare che genera un volume organico ed omogeneo. Ma in realtà ogni singola bolla non è mai perfettamente identica a sé stessa; la soffiatura e la lavorazione a mano rendono i multipli simili ma mai uguali rendendo unica ogni composizione.

As in a modern artwork, the same element is repeated and multiplied almost infinitely. The reiteration of a simple modular form generates an organic, homogenous volume. Actually, the individual bubbles are never quite the same; the glassblowing technique and handwork make the multiples similar but never equal, meaning that every composition is truly unique.

MARTA

Una lampada a sospensione caratterizzata da sfere in cristallo veneziano allineate lavorate con la tradizionale tecnica a “corteccia”. La massa vetrosa ancora calda viene fatta rotolare abilmente su di uno stampo piatto a lamelle e poi, successivamente, soffiata per ottenere una superficie irregolare e tridimensionale che ricorda quella della corteccia di un albero.

A suspension lamp featuring aligned spheres of Venetian crystal, crafted with the traditional “corteccia” technique. The hot glass is skilfully turned on a flat lamellar plate and then blown to obtain an irregular three-dimensional surface, resembling the bark of a tree.

MATRIOSKA

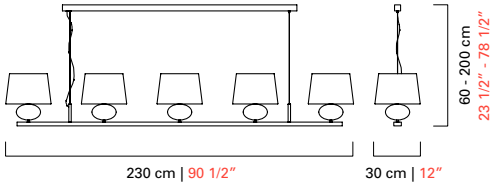

Una collezione caratterizzata da una distribuzione in pianta lineare. Disposti lungo una montatura rettilinea oppure quadrata, i preziosi elementi in cristallo veneziano, chiamati “cipolle” per la loro particolare forma e per la lavorazione a costolature, diventano protagonisti di un’inusuale interpretazione della lampada a sospensione con paralumi.

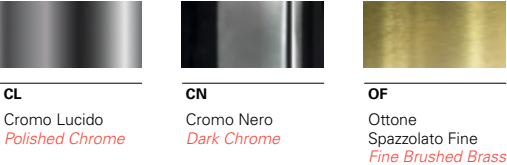

A collection characterized by linear arrangements. Placed along a straight or square fitting, the precious elements in Venetian crystal, known as “cipolle” due to their particular form and ribbed workmanship, become the protagonists of an unusual interpretation of the suspension lamp with shades.

OPÉRA

Philippe Nigro

Opéra è una collezione di lampade ispirata all'Opéra Garnier, in cui l'elemento principale è la lavorazione del rostrato. La forma cilindrica va ad enfatizzare il motivo ornamentale, moltiplicando gli angoli di incidenza dei raggi luminosi e creando un fitto involuppo di punte tridimensionali. Alle creazioni in Cristallo Veneziano sono abbinati elementi metallici dalla silhouette molto affine, che circondano e sostengono i corpi luminosi. Le sospensioni Opéra sono disponibili in diverse varianti dimensionali, per sposare progetti di interior design di natura e portata differente: dagli spazi domestici fino ai grandi ambienti di rappresentanza e contract, dove è possibile realizzare delle vere e proprie installazioni personalizzate, con composizioni asimmetriche e multiformi.

Opéra is a collection of lamps inspired by the Opéra Garnier, where the main feature is the rostrato. The cylindrical form underscores the ornamental motif, multiplying the angles of impact of beams of light and creating a dense wrapping of three-dimensional points. The creations in Venetian Crystal are joined by metal parts with a very similar silhouette, which surround and support the luminous volumes: completely different textures, sharing a specific inspiration in their shapes and substance. The Opéra suspension lamps are available in different sizes, ready to be utilized in interior design projects of different types and scales: from residential spaces to contract applications, where it is possible to organize true custom installations, with asymmetrical and multi-form compositions.

PADMA

Collezione disegnata per esprimere armonia, sintesi tra le parti, sinergia tra contrasti. A confrontarsi sono innovazione e tradizione, attraverso il rapporto tra design e tecniche di lavorazione, attinte allo storico patrimonio conoscitivo dell'azienda. Insolite commistioni generano un suggestivo dialogo tra elementi racchiusi l'uno nell'altro, diversi tra loro per forma, cromia, lavorazione, ma fortemente connessi dal design dell'oggetto.

This collection is designed to express harmony, a synthesis of parts, a synergy of contrasts. The balance of innovation and tradition, through the relationship between design and techniques of workmanship, drawing on the company's heritage of know-how. Unusual mixtures generate an evocative dialogue between parts nestled one inside the other, different in form, hue, workmanship, but forcefully connected by the design of the object.

PALMYRA

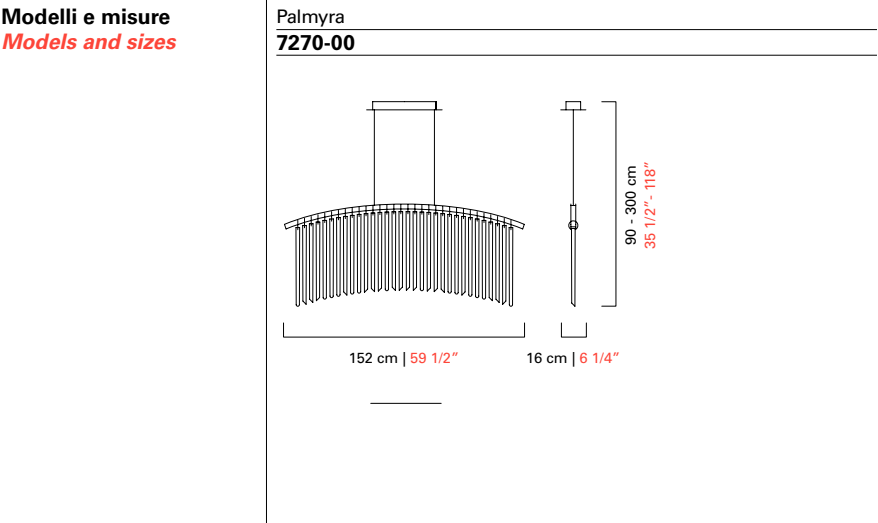

Fabio Calvi | Paolo Brambilla

Una sospensione molto leggera, caratterizzata da linee sinuose, in grado di impreziosire e di illuminare qualunque ambiente. È composta da bracci sovrapposti dal profilo curvilineo, dai quali pendono molteplici elementi di vetro ritorto realizzati con la stessa lavorazione dei “pastorali” dell’antica tradizione vetraria muranese.

Palmyra is a very light suspension, characterized by sinuous lines, able to embellish and illuminate any environment. It is composed by overlapped arms with curved profiles, from which hang twisted crystal elements, made following the “pastoral” processing of the ancient Murano glass tradition.

PANDORA

Regala leggerezza ed un aspetto fiabesco agli interni grazie ai bracci in cristallo veneziano che sembrano fluttuare nell’aria. Il suo aspetto simile a quello di una medusa crea divertenti giochi di luce che donano profondità agli ambienti, ed il suo paralume di dimensioni importanti genera un’illuminazione omogenea ed elegante.

Interiors take on a light, fairy-tale image thanks to arms of Venetian crystal that seem to float in the air. The resemblance to a jellyfish suggests playful games of light that add depth to spaces, while the large shade generates uniform, elegant light.

PERSEUS

Marcel Wanders

Una sospensione che si presenta come una strabiliante esplosione di cristallo veneziano, sapientemente equilibrata nei volumi, nell’alternarsi delle diverse cromie, nel gioco asimmetrico dei bracci. Perseus è composta da un gran numero di elementi in cristallo che rappresentano quasi un compendio delle tecniche vetrarie studiate e sviluppate da Barovier&Toso nel corso della sua lunga storia, qui reinterpretate, accostate e mescolate in modo sovversivo rispetto ai canoni della classicità.

This suspension looks like a dazzling explosion of Venetian crystal, carefully balanced in volume, in the alternation of different colours, in the asymmetrical game of the arms. Perseus is composed of a large number of crystal elements that represent a compendium of the glassmaking techniques studied and developed by Barovier&Toso in the course of its long history, here reinterpreted, paired, and mixed in a subversive way with respect to the canons of classicism.

PUNK

Roberto Lazzeroni

Poesia e leggerezza convivono in questa dirompente collezione, ispirata alle espressioni stilistiche a cavallo tra gli anni '50 e gli anni '60. Roberto Lazzeroni interpreta il dialogo tra tradizione e modernità e costruisce una sua lettura, poeticamente connessa a quell'immaginario familiare. Come schegge, le formelle in cristallo veneziano coniugano ironia e rigore. Ancorate manifestamente alla struttura ad anello, schermano la fonte luminosa e stabiliscono rapporti proporzionali di notevole impatto.

Poetry and lightness coexist in this bold, novel collection that takes its inspiration from the stylistic expressions of the 1950s and 1960s. Roberto Lazzeroni interprets the dialogue between tradition and modernity, building an interpretation poetically connected to this familiar imagery. Like splinters, the tiles in Venetian Crystal combine irony and rigor. Visibly anchored to the structural ring, they screen the light source and establish proportional relationships of remarkable impact.

REX

Un grande fiore che fluttua nell’aria. Petali preziosi ed elaborati che grazie all’utilizzo della tecnica della “rugiada” sembrano dei merletti fatti a mano. Sospensioni spesso scelte all’inizio del ‘900 per grandi progetti di navi da crociera e alberghi di lusso sono ancora oggi dei pezzi unici capaci di donare un tocco retrò anche a progetti più contemporanei.

A large flower that floats in the air. Precious and elaborated petals that thanks to the “rugiada” technique seem handmade laces. These suspensions lamps were very common at the beginning of the 20th century in big cruises and luxury hotels projects but nowadays they are still unique pieces capable to give a retrò touch also to more contemporary projects.

ROBIN

Interpretazione moderna dell’archetipo della lanterna. Il disegno è pulito, minimale e rigoroso ma anche immediato: dà vita ad una forma che univocamente ci rammenta la remota foggia e l’antica funzione dell’iconica lampada. Le ali metalliche formano una maglia strutturale che abbraccia il diffusore in vetro opalino che illuminato genera un effetto luminoso caldo e soffuso.

A modern interpretation of the lantern archetype. The design is clean, minimal and rigorous, but also immediate: it generates a form that instantly reminds us of the age-old shape and original function of the iconic lamp. The metal wings form a structure that embraces the diffuser in opaline glass, which spreads a warm, soft glow into the space.

SPADE

Collezione di sospensioni ispirata ai fiori e alla natura che si contraddistingue per il suo delicato design a forma di corolla, realizzata con la tecnica della “rugiada” che dona un raffinato effetto ricamato. Due o tre livelli di petali si sovrappongono come a formare dei fiori schiusi, sospesi nell’aria.

A collection of suspensions with an accent on flowers and nature, which stands out for its delicate design in the form of a corolla, made with the “rugiada” technique to create a refined embroidered look. SPINN

La “bambolina” è un elemento utilizzato nei lampadari della tradizione muranese. Nella collezione Spinn, tante bamboline disposte a spirale e illuminate dall'interno formano un vortice luminoso che decora l'ambiente con disegni e ombre, grazie alla tipica lavorazione del vetro detta “a balotòn”.

The “bambolina” is an element used in chandeliers of the Muranese tradition. Spirally arranged and internally lit form a bright swirl which adorns the setting with designs and shadows thanks to the typical glass working called “a balotòn” (giving a cross-relief effect on glass).

SWING

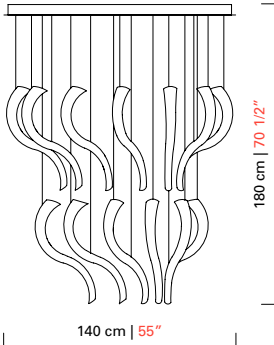

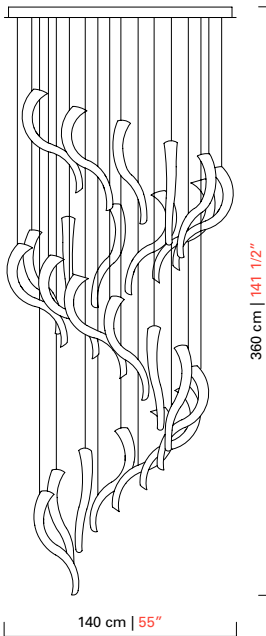

L'elemento base che compone Swing è un elegante cristallo veneziano lavorato "a balotòn" che dona a questa collezione una meravigliosa dinamicità e una stupefacente presenza scenica. Sostenuti da fini cavi di acciaio fissati alla sottile struttura a soffitto, questi elementi compongono figure delicatamente sinuose e ondeggianti sia in forma circolare che in forma libera.

The basic feature of Swing is an elegant piece of crafted Venetian crystal with the "a balotòn" technique, that gives the collection exceptional dynamism and a striking theatrical presence. Supported by slender steel cables attached to a thin structure on the ceiling, these parts form delicately sinuous and wavering figures, in circular or free-form configurations.

TRIM

Questa collezione attinge dall’archivio delle grandi installazioni realizzate da Barovier&Toso negli anni ‘60 e ‘70 attraverso la moltiplicazione e ripetizione di elementi modulari a canne o a poliedri, lisci o arricchiti dalle tradizionali lavorazioni muranesi. L’elemento esagonale realizzato con l’antica tecnica detta “ghiaccio” genera volumi sferici che perfettamente si integrano nell’architettura degli spazi diventandone quasi un’estensione. La posizione dei moduli può essere personalizzata al momento dell’installazione secondo il proprio estro: un ordine simmetrico e regolare oppure una forma disordinata.

The collection builds on the archive of large installations made by Barovier&Toso in the 1960s and 1970s, multiplying and repeating modular elements, simple or polyhedral, smooth or enhanced by traditional Murano workmanship. The hexagonal tube made with the age-old “ice” technique generates spherical volumes that fit perfectly into the architecture of spaces, almost becoming its extension. According to your own creativity, the position of the modules can be customized during installation into a symmetrical and conventional order or into a messy shape.

VALLONNÉ

Luca Nichetto

Vallonné è una collezione di lampade a sospensione in cristallo veneziano lavorato a mano e soffiato artigianalmente. Azione/reazione, espansione/contenimento: è in questo sistema di forze e di tensioni che nasce l'idea del progetto, dove la superficie dell'oggetto rivela una trama precisa di linee e di incisioni, facendo emergere una sequenza di rigonfiamenti dalle geometrie diverse. Nella collezione Vallonné, le lampade sono in cristallo trasparente e mostrano, all'interno, un'anima affusolata di vetro che nasconde la sorgente luminosa.

Vallonné is a collection of suspension lamps in Venetian Crystal, mouth blown and crafted by hand. Action/reaction, expansion/retraction: the idea of the design stems from this system of forces and tensions, where the surfaces of the object reveal a precise pattern of lines and incisions, bringing out a sequence of expansions through various geometric shapes. In the Vallonné collection, the lamps are in transparent crystal and contain a tapered core of glass that conceals the light source.

CEILING

Si integrano e si combinano con l'architettura degli ambienti creando un dialogo tra superfici e luci, tra spazio bidimensionale e tridimensionale. Puntuali, oppure modulari, realizzano atmosfere inebrianti e sofisticate.

AGAVE

García Cumini

Agave è una collezione ispirata alla pianta omonima, simbolo di eleganza e resilienza, reinterpretata in cristallo veneziano dai designer García Cumini. La sua iconica foglia allungata richiama la tradizione vetraria di Barovier&Toso ed è arricchita dalla tecnica della rugiada, che ne esalta la brillantezza e la texture tridimensionale. Un innovativo effetto sfumato, ottenuto con graniglia di vetro colorato, valorizza ulteriormente il design. Questa lavorazione diffonde la luce in modo dinamico, evocando i raggi solari filtrati tra le foglie dell’agave.

Agave is a collection inspired by the plant of the same name, a symbol of elegance and resilience, reinterpreted in Venetian crystal by designers García Cumini. Its iconic elongated leaf recalls Barovier&Toso’s glassmaking tradition and is enriched by the dew technique, which enhances its brilliance and three-dimensional texture. An innovative shaded effect, obtained with coloured glass beads, further enhances the design. This workmanship diffuses light dynamically, evoking the sun’s rays filtered through the leaves of the agave.

ALUMINA

Alessandro Piva

Con un lato di 85 centimetri, è una plafoniera davvero importante, ma comunque leggera nell’aspetto. È composta da cinque elementi quadrangolari decorati a bolle sommerse e realizzati completamente a mano. A completare la composizione, ai cinque elementi in cristallo veneziano si aggiungono quattro griglie decorative in metallo a trama diversa. Grazie alla sua geometria, Alumina può essere utilizzata in molteplici unità affiancate, a formare una parete luminosa.

With a side measuring 33 ½,” it is a really considerable ceiling lamp, but still giving an appearance of lightness. It is made up by five quadrangular elements decorated with submerged bubbles all completely handcrafted. To complete the composition, four decorative and differently finished metal grilles are added to the five Venetian crystal elements. Thanks to its geometry, Alumina can be used in multiple modules side by side, to create a luminous wall.

CLEPSYDRA

Vortici di clessidre muovono lo spazio con la luce, presenza danzante che attraversa ogni elemento in cristallo veneziano, rigato con l'antica tecnica del Rigadin. Sinuosamente definite, le clessidre si ripetono e si sovrappongono, creando lampade ricche e dense, ispirate ai disegni degli anni '60 recuperati dallo storico archivio Barovier&Toso.

Whirls of hourglasses move in space with light, a dancing presence that crosses each part in Venetian Crystal, lined with the age-old Rigadin technique. Sinuously shaped, the hourglasses repeat and overlap, creating dense, elegant lamps based on drawings from the 1960s contained in the historical archives of Barovier&Toso.

EMPIRE

Fortemente tridimensionali, collaborano con l’architettura degli ambienti a definirne volumi e confini. La struttura delle lampade è completamente celata e dal soffitto piovono nuvole di tubi a sezione quadrata. Le composizioni disegnano piramidi asimmetriche rovesciate, ispirandosi alle geometrie rigorose ed energiche tipiche dell’Art Déco. Gli elementi si sovrappongono, si affiancano, con lunghezze diverse e con una ritmata alternanza di colori, nelle versioni policrome. La lavorazione a corteccia del cristallo veneziano crea delle deformazioni irregolari sulla superficie e particolari rifrazioni della luce, per un effetto d’insieme soffuso, costellato da scintillii puntuali.

Forcefully three-dimensional, these pieces interact with the architecture of spaces, defining volumes and boundaries. The structure of the lamps is completely concealed, while tubes with a square cross-section descend from the ceiling. The compositions form asymmetrical overturned pyramids, based on the rigorous and energetic geometric shapes of Art Deco. The parts are overlaid and juxtaposed, with different lengths and a rhythmical alternation of colours in the polychrome versions. The a corteccia workmanship of the Venetian Crystal creates irregular variations on the surface and particular refractions of the light, for an overall effect of soft brightness punctuated by sparkling highlights.

REX

Un grande fiore che fluttua nell'aria. Petali preziosi ed elaborati che grazie all'utilizzo della tecnica della "rugiada" sembrano dei merletti fatti a mano. Plafoniere spesso scelte all'inizio del '900 per grandi progetti di navi da crociera e alberghi di lusso sono ancora oggi dei pezzi unici capaci di donare un tocco retrò anche a progetti più contemporanei.

A large flower that floats in the air. Precious and elaborated petals that thanks to the "rugiada" technique seem handmade laces. These ceiling lamps were very common at the beginning of the 20th century in big cruises and luxury hotels projects but nowadays they are still unique pieces capable to give a retrò touch also to more contemporary projects.

TOPKAPI

Daniela Puppa

Topkapi è una famiglia di lampade a soffitto che si caratterizzano per il contrasto tra il grande diffusore dalle linee moderne in vetro bianco sabbiato - che diffonde una luce morbida e soffusa - e i classici finalini in cristallo trasparente o dai colori vivaci, che brillano per effetto dell’irradiazione diretta.

Topkapi is a family of ceiling lamps characterized by the contrast between the modern lines of the diffuser in white sanded glass which sends out a soft, suffused light, and the classic end-elements in transparent or vividly coloured crystal that shine with the brightness of direct lighting.

TRIM

Questa collezione attinge dall'archivio delle grandi installazioni realizzate da Barovier&Toso negli anni '60 e '70 attraverso la moltiplicazione e ripetizione di elementi modulari a canne o a poliedri, lisci o arricchiti dalle tradizionali lavorazioni muranesi. L'elemento esagonale realizzato con l'antica tecnica detta "ghiaccio" genera volumi sferici, per riflessione sul plafone specchiato, che perfettamente si integrano nell'architettura degli spazi diventandone quasi un'estensione. La posizione dei moduli può essere personalizzata al momento dell'installazione secondo il proprio estro: un ordine simmetrico e regolare oppure una forma disordinata.

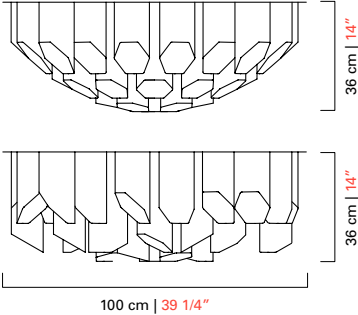

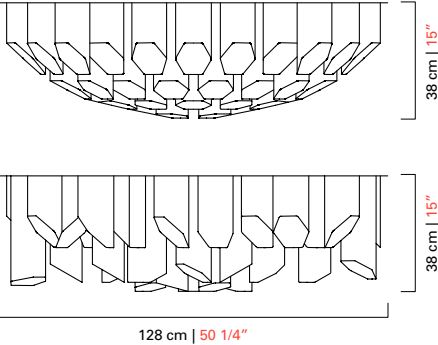

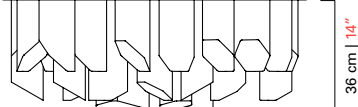

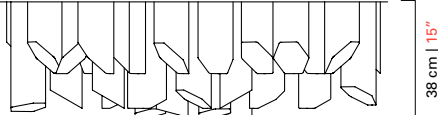

The collection builds on the archive of large installations made by Barovier&Toso in the 1960s and 1970s, multiplying and repeating modular parts, simple or polyhedral, smooth or enhanced by traditional Murano workmanship. The hexagonal tube made with the age-old "ice" technique generates spherical volumes, thanks to the reflection on the mirrored metal structure, that fit perfectly into the architecture of spaces, almost becoming its extension. According to your own creativity, the position of the modules can be customized during installation into a symmetrical and conventional order or into a messy shape.

AGAVE

García Cumini

Agave è una collezione ispirata alla pianta omonima, simbolo di eleganza e resilienza, reinterpretata in cristallo veneziano dai designer García Cumini. La sua iconica foglia allungata richiama la tradizione vetraria di Barovier&Toso ed è arricchita dalla tecnica della rugiada, che ne esalta la brillantezza e la texture tridimensionale. Un innovativo effetto sfumato, ottenuto con graniglia di vetro colorato, valorizza ulteriormente il design. Questa lavorazione diffonde la luce in modo dinamico, evocando i raggi solari filtrati tra le foglie dell’agave.

Agave is a collection inspired by the plant of the same name, a symbol of elegance and resilience, reinterpreted in Venetian crystal by designers García Cumini. Its iconic elongated leaf recalls Barovier&Toso’s glassmaking tradition and is enriched by the dew technique, which enhances its brilliance and three-dimensional texture. An innovative shaded effect, obtained with coloured glass beads, further enhances the design. This workmanship diffuses light dynamically, evoking the sun’s rays filtered through the leaves of the agave.

ALUMINA

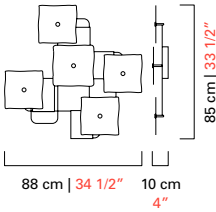

Alessandro Piva

Quando si parla di lampade da parete, si pensa sempre a elementi di dimensioni contenute, ma non è decisamente il caso di Alumina: con un lato di 85 centimetri, è una lampada davvero importante, ma comunque leggera nell’aspetto. È composta da cinque elementi quadrangolari decorati a bolle sommerse e realizzati completamente a mano. A completare la composizione, ai cinque elementi in cristallo veneziano si aggiungono quattro griglie decorative in metallo a trama diversa. Grazie alla sua geometria, Alumina può essere utilizzata in molteplici unità affiancate, a formare una parete luminosa.

When one speaks of a wall light, we always think of something reasonable small, but this is definitively not the case with Alumina: with a side measuring 33 1/2,” it is a really considerable lamp, but still giving an appearance of lightness. It is made up by five quadrangular elements decorated with submerged bubbles all completely handcrafted. To complete the composition, four decorative and differently finished metal grilles are added to the five Venetian crystal elements. Thanks to its geometry, Alumina can be used in multiple modules side by side, to create a luminous wall.

CLEPSYDRA

Realizzate con l’antica tecnica del Rigadin, le clessidre sono rigate da sottili costolature, che vivacizzano la rifrazione della luce. Rivisitano un design degli anni ‘60, dallo storico archivio Barovier&Toso, e ne ripropongono la sinuosità e il concetto di simmetria. Dal loro incontro nascono lampade uniche, per eleganza e fascino.

Made with the traditional Rigadin technique, the hourglasses are lined with slender ribbing, enlivening the refraction of the light. They are based on a design from the 1960s contained in the historical archives of Barovier&Toso, reinterpreting its sinuous lines and its concept of symmetry. These factors are combined to create lamps that are unique for their elegance and charm.

EMPIRE

La valenza tridimensionale della lampada e il suo rigore geometrico connotano la parete con grande carattere. Gli elementi tubolari, a sezione quadrata, presentano una superficie ondulata e irregolare, ottenuta con la lavorazione a corteccia del cristallo veneziano. La luce che attraversa queste peculiari deformazioni produce un effetto luminoso soffuso e costellato da scintillii puntuali.

The three-dimensional presence of the lamp with its geometric rigour add expressive character to any wall. The tubular parts, with a square cross-section, have an undulated, irregular surface obtained with the a corteccia technique in Venetian Crystal. The light that crosses these irregular details produces a soft effect, punctuated by sparkling highlights.

FLORIAN

I nostri archivi storici sono una miniera di ispirazioni: proprio da qui nasce Florian, una collezione di lampade a muro dalle linee retrò eppure così moderne, accentuate dai massicci paralumi in cristallo veneziano eseguiti con la tecnica del “rostrato”, invenzione di Ercole Barovier che moltiplica i bagliori di luce e rende il lampadario un’opera di maestria unica.

Our historic archives provide a wealth of inspiration, and it was through them that the Florian design, collection of wall lamps, was conceived. The lines of Florian are so retro but at the same time so contemporary, accentuated by massive Venetian crystal lampshades created using the “rostrato” technique invented by Ercole Barovier, intensifying the sparkle of the lights and making this chandelier a unique piece of craftsmanship.

MAGRITTE

La collezione Magritte è frutto di un lavoro concettuale che indaga l'idea di lampadario fino a ripensarla e destrutturarla. Ispirata al linguaggio surrealista, si presenta con un impianto scenografico ed elegante, a più livelli, come vuole la tradizione, ma nella realtà rivela un nuovo ed avanguardistico design. La collezione include anche una versione applique, a due luci, discreta e raffinata, ideale per punteggiare le pareti di uno spazio pubblico o privato.

The Magritte collection is the result of a conceptual work that investigates the idea of a chandelier to the point of rethinking and deconstructing it. Inspired by the surrealist language, presents itself with a scenographic and elegant layout, on multiple levels, as tradition dictates, but in reality it reveals a new and avant-garde design. The collection also includes a wall sconce version with two lights; this model is discreet and refined, ideal to punctuate the walls of both public and private spaces.

OPÉRA

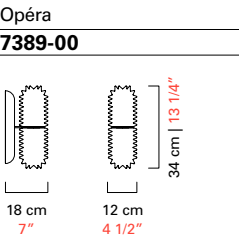

Philippe Nigro

Opéra è una collezione di lampade ispirata all’Opéra Garnier, in cui l’elemento principale è la lavorazione del rostrato. La forma cilindrica va ad enfatizzare il motivo ornamentale, moltiplicando gli angoli di incidenza dei raggi luminosi e creando un fitto involuppo di punte tridimensionali. Alle creazioni in Cristallo Veneziano sono abbinati elementi metallici dalla silhouette molto affine, che circondano e sostengono i corpi luminosi. La versione applique si sviluppa in senso verticale ed è perfetta per valorizzare una parete e punteggiarla di accenti luminosi.

Opéra is a collection of lamps inspired by the Opéra Garnier, where the main feature is the rostrato. The cylindrical form underscores the ornamental motif, multiplying the angles of impact of beams of light and creating a dense wrapping of three-dimensional points. The creations in Venetian Crystal are joined by metal parts with a very similar silhouette, which surround and support the luminous volumes: completely different textures, sharing a specific inspiration in their shapes and substance. The wall sconce version develops vertically and is perfect to enhance walls, punctuating them with luminous accents.

PALLADIANO

Simmetria, ordine, perfezione ed eleganza sono le muse ispiratrici di questa collezione. Un omaggio alla razionalità e all’equilibrio delle opere del Palladio ed ai valori dell’architettura formale classica. Anche la scelta della palette cromatica con i suoi colori pieni, non trasparenti, è una celebrazione della matericità e del volume dell’oggetto che si trasforma quasi, esso stesso, in una piccola architettura.

Symmetry, order, perfection and elegance are the muses behind this collection. A tribute to the rationality and balance of the works of Palladio, and the values of formal classical architecture. The selection of colours, in full, non-transparent hues, is a celebration of the material and volume of the object, which is transformed almost into a small work of architecture.

Regala leggerezza ed un aspetto fiabesco agli interni grazie ai bracci in cristallo veneziano che sembrano fluttuare nell'aria. Il suo aspetto simile a quello di una medusa crea divertenti giochi di luce che donano profondità agli ambienti, ed il suo paralume di dimensioni importanti genera un'illuminazione omogenea ed elegante.

Interiors take on a light, fairy-tale image thanks to arms of Venetian crystal that seem to float in the air. The resemblance to a jellyfish suggests playful games of light that add depth to spaces, while the large shade generates uniform, elegant light.

An illuminated sculpture, a lighting emotion, a world away from the classic style. It is composed of a number of Venetian crystal elements that represent a mix of the glassmaking techniques reinterpreted, paired, and mixed in a subversive way with respect to the canons of classicism.

RABAT

Una applique classica, che utilizza molti degli stilemi della tradizione veneziana. In particolare, le “morise”, decorazioni ondulate eseguite applicando a caldo un cordoncino di vetro pizzicato con le “borselle” (pinze) da “pissegar” (pizzicare) che consentono di ottenere una superficie che sembra un merletto.

A classical wall lamp that features many of the stylistic elements of the Venetian tradition. In particular the “morise”, wavy decorations executed by applying a hot crystal ribbon and then pinching it with the “borselle” (pincers) to “pissegar” (pinching) to obtain a texture that looks like a lace.

ROSATI

Questa applique nasce attingendo ai disegni del prezioso archivio storico di Barovier&Toso rielaborati e riproposti con un design più moderno. Linee sobrie ed eleganti, che vanno al di là delle mode. Ogni tazzina ospita al suo interno un “rostrato”, piccolo gioiello di invenzione, che protegge alla vista la lampadina la cui luce si moltiplica all’infinito, passando attraverso le cuspidi che sono l’essenza stessa del rostrato.

This wall sconce takes its cue from drawings conserved in the precious historical archives of Barovier&Toso, reworked and reformulated with a more modern design. Simple, elegant lines that transcend fashion. Each candle cup holds a little stroke of genius: a “rostrato,” a piece of glass with extruded pointed tips, which hides the lamps from view. Their light is refracted infinitely as it passes through the glass tips that are at the heart of the “rostrato” technique.

TAIF

Sintesi perfetta di esperienze e materiali diversi, che sbalordisce per la sua ineguagliabile armonia. Una collezione di lampade da muro di grande successo, usate per arredi prestigiosi, che nasce nel 1980 per illuminare la residenza del re saudita a Taif, città da cui prende il nome. Angelo Barovier, che studia il progetto, ripensa l'immagine della tradizione muranese, preservando il valore del cristallo veneziano e accogliendo nuovi linguaggi per approdare infine all'equilibrio compiuto del Classico.

The perfect synthesis of experience and selected materials wrought with stunning and unequalled harmony. Taif was created in 1980 for the home of the Saudi king in the eponymous city of Taif, whence comes the name. Angelo Barovier, who conceived the design, rethought the image of the traditional Murano wall sconces, preserving the value of Venetian crystal while incorporating new languages. An amalgam, then, of tradition and creativity, of memory and innovation, from which blossoms the time-tested equilibrium of the classical.

VENEZIA 1295

L'origine di tutto, il compendio di settecento anni di tradizioni tramandate di padre in figlio, oltre le mode e il tempo che scorre: una applique ricca di storia, di dettagli e di emozioni. Caratterizzata da un elemento ricorrente, il "rostrato", un'invenzione del secolo scorso di Ercole Barovier che prende origine dalle tecniche di lavorazione artigianali dei suoi avi.

At the very heart of it all is the culmination of seven hundred years of tradition handed down from father to son through changing times and fashions: a wall sconce rich in history, detail and emotion. Featuring a recurring motif, the "rostrato," invented by Ercole Barovier almost a century ago developing techniques used by his ancestors.

CAMPARINO

Camparino è una lampada da tavolo wireless elegante e raffinata che racchiude passato e presente in un unico elemento di dimensioni ridotte: da un lato interpreta la tradizione muranese utilizzando la tecnica del “rostrato”, dall’altro sintetizza l’idea di modernità impiegando un sistema di alimentazione a batteria al litio ricaricabile, che la rende trasportabile ovunque, e una tecnologia che consente l’accensione, lo spegnimento e la regolazione dell’intensità luminosa con una manopola di controllo del dimmer in ottone spazzolato. Ha una base in marmo pregiato, in due varianti: Bianco Carrara e Nero Belgio.

Camparino is an elegant, sophisticated wireless table lamp that brings together past and present in a single, compact piece. On the one hand it reflects Murano glassmaking tradition, in that it uses the “rostrato” technique; on the other, it represents the ultimate in modernity: its rechargeable lithium battery allows it to be transported anywhere, while wireless technology means that it can be turned on or off and its brightness adjusted with just a movement of the brushed brass dimmer control knob. The base is in precious marble, in two options: White Carrara and Belgian Black.

GRACE

Philippe Nigro

Fiera ed elegante come una principessa dall’eterna bellezza, la collezione Grace è permeata da un gentile fascino classico. Eclettica la struttura, che mutua dal lampadario tradizionale muranese il sistema del diffusore: ecco che la coppetta cresce di scala e diventa un ampio calice, che accoglie ed esalta la preziosità dell’elemento luminoso al suo interno, realizzato in rostrato. Sopraffine anche le tecniche con le quali viene creato il tronco, percorso da suggestive bolle racchiuse tra due strati di vetro, cromaticamente distinti. L’effetto finale è lucente, ed è il risultato di una complessa sequenza di lavorazioni, dal ballotton sommerso fino alla specchiatura.

Proud and elegant as a princess of eternal beauty, the Grace collection is permeated by genteel classic charm. The structure is eclectic, borrowing the diffuser system from the traditional Murano chandelier: the cup grows in size and becomes a large goblet that contains and enhances the luminous element inside it, made with the rostrato technique. The methods utilized to create the trunk, crossed by evocative bubbles enclosed between two layers of glass, in separate colours, are equally sophisticated. The final effect is dazzling, the result of a complex sequence of workmanship, from dipped ballotton to mirror finishing.

MARTA

Una lampada da tavolo con un fusto molto esile ed una sfera in cristallo veneziano lavorata con la tradizionale tecnica a “corteccia”. La massa vetrosa ancora calda viene fatta rotolare abilmente su di uno stampo piatto a lamelle e poi, successivamente, soffiata per ottenere una superficie irregolare e tridimensionale che ricorda quella della corteccia di un albero.

A table lamp with a very slender stem bearing a Venetian crystal sphere worked with the traditional “corteccia” technique. The hot glass is skilfully turned on a flat lamellar plate and then blown to obtain an irregular three-dimensional surface, resembling the bark of a tree.

OPÉRA

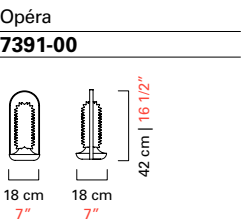

Philippe Nigro

Opéra è una collezione di lampade ispirata all’Opéra Garnier, in cui l’elemento principale è la lavorazione del rostrato. La forma cilindrica va ad enfatizzare il motivo ornamentale, moltiplicando gli angoli di incidenza dei raggi luminosi e creando un fitto involuppo di punte tridimensionali. Alle creazioni in Cristallo Veneziano sono abbinati elementi metallici dalla silhouette molto affine, che circondano e sostengono i corpi luminosi. Il modello da tavolo presenta un’estetica ancora più avvolgente, capace di creare, anche da spenta, un’atmosfera calda e preziosa.

Opéra is a collection of lamps inspired by the Opéra Garnier, where the main feature is the rostrato. The cylindrical form underscores the ornamental motif, multiplying the angles of impact of beams of light and creating a dense wrapping of three-dimensional points. The creations in Venetian Crystal are joined by metal parts with a very similar silhouette, which surround and support the luminous volumes: completely different textures, sharing a specific inspiration in their shapes and substance. The table model has an even more enveloping look, and is able to create a warm, precious atmosphere even when the lamp is off.

PADMA

Collezione disegnata per esprimere armonia, sintesi tra le parti, sinergia tra contrasti. L'ampolla esterna presenta un design molto pulito, ottenuto con un'unica soffiata e una graduale sfumatura di colore, risultato di un sapiente gesto artigianale. Gli altri elementi, invece, finemente lavorati con la tipica tecnica muranese delle costolature, hanno delle forme complesse e sofisticate.

This collection is designed to express harmony, a synthesis of parts, a synergy of contrasts. The external ampoule has a very clean design, made in a single blowing, and a gradually shaded colour, produced by the skillful gesture of the artisan. The other parts, finely crafted with the typical Murano ribbing technique, have complex, sophisticated forms.

SIDERIS

Toccare il cielo con un dito: Galileo Galilei secoli fa ha osato puntare il cannocchiale verso l'alto per misurare l'immensità del cielo, facendo scoperte rivoluzionarie. La lampada da lettura Sideris è un omaggio al coraggio di Galileo. La base in porcellana, disponibile in oro o platino, sostiene una sfera di cristallo veneziano soffiato a bocca preziosamente realizzato con un doppio strato di foglia oro o di foglia argento. Dall'incontro di questi elementi unici nasce una rivoluzione luminosa, un oggetto funzionale e decorativo che trasforma un gesto senza tempo in una lampada da tavolo.

Touch the sky with a finger: Galileo Galilei centuries ago dared to point the telescope upwards to measure the immensity of the sky, making revolutionary discoveries. The Sideris reading lamp is a tribute to Galileo's courage. The porcelain base, available in gold or platinum, supports a hand-blown Venetian crystal sphere preciously made with a double layer of gold or silver leaf. From the meeting of these unique elements a luminous revolution is born, a functional and decorative object that transforms a timeless gesture into a table lamp.

La lampada Trinitas è portatile, ricaricabile e si adatta con semplicità ed eleganza a qualsiasi ambiente, risultando ideale anche per completare una mise en place. Tre elementi di cristallo veneziano soffiati a bocca si uniscono su un vassoio di porcellana sostenuto da un arco di metallo semi-opaco placcato oro. Le lavorazioni ballotòn, rigadin e rigamenà presenti sui cristalli omaggiano la tradizione muranese. Disponibile in tre colorazioni con intensità di luce regolabile, Trinitas è interamente lavorata a mano, rendendo ogni pezzo unico e irripetibile.

The Trinitas lamp is portable, rechargeable and adapts with simplicity and elegance to any environment, also making it ideal for completing a mise en place. Three mouth-blown Venetian crystal elements come together on a porcelain tray supported by a gold-plated semi-opaque metal arch. CONTERIE

La lampada da terra Conterie trae ispirazione dai gioielli in porcellana dell'archivio storico della Manifattura Ginori 1735. La sua struttura è composta da perle preziose di porcellana lavorata a mano e cristallo veneziano soffiato a bocca con differenti le texture, frutto di tre diverse lavorazioni artigianali, ballotòn, rigadin e rigamenà. La luce si diffonde dolcemente dal cono di vetro di Murano, che riprende la forma simmetrica della base in porcellana. Come una collana che illumina il viso di chi la indossa, Conterie è in grado di illuminare la casa con la sua luce delicata.

The Conterie floor lamp draws inspiration from the porcelain jewels of the Ginori 1735 Manifattura historical archive. Its structure is composed of precious hand-crafted porcelain beads and mouth-blown Venetian crystal with different textures, the result of three different craftsmanship, ballotòn, rigadin and rigamenà. The light diffuses softly from the Murano glass cone, which takes up the symmetrical shape of the porcelain base. Like a necklace that illuminates the wearer's face, Conterie is able to illuminate the home with its delicate light.

MARTA

Una lampada da terra con un fusto molto esile dove sono allineate sfere in cristallo veneziano lavorate con la tradizionale tecnica a “corteccia”. La massa vetrosa ancora calda viene fatta rotolare abilmente su di uno stampo piatto a lamelle e poi, successivamente, soffiata per ottenere una superficie irregolare e tridimensionale che ricorda quella della corteccia di un albero.

A floor lamp with a very slender stem bearing aligned Venetian crystal spheres worked with the traditional “corteccia” technique. The hot glass is skilfully turned on a flat lamellar plate and then blown to obtain an irregular three-dimensional surface, resembling the bark of a tree.

OPÉRA

Philippe Nigro

Opéra è una collezione di lampade ispirata all’Opéra Garnier, in cui l’elemento principale è la lavorazione del rostrato. La forma cilindrica va ad enfatizzare il motivo ornamentale, moltiplicando gli angoli di incidenza dei raggi luminosi e creando un fitto involuppo di punte tridimensionali. Alle creazioni in Cristallo Veneziano sono abbinati elementi metallici dalla silhouette molto affine, che circondano e sostengono i corpi luminosi. Il modello da tavolo presenta un’estetica ancora più avvolgente, capace di creare, anche da spenta, un’atmosfera calda e preziosa.

Opéra is a collection of lamps inspired by the Opéra Garnier, where the main feature is the rostrato. The cylindrical form underscores the ornamental motif, multiplying the angles of impact of beams of light and creating a dense wrapping of three-dimensional points. The creations in Venetian Crystal are joined by metal parts with a very similar silhouette, which surround and support the luminous volumes: completely different textures, sharing a specific inspiration in their shapes and substance. The table model has an even more enveloping look, and is able to create a warm, precious atmosphere even when the lamp is off.

Certificazioni

Il marchio IMQ è utilizzato per apparecchi elettrici e componenti. Attesta la conformità dei prodotti elettrici ai requisiti delle norme CEI ed EN.

Il certificato cinese obbligatorio, comunemente noto come marchio CCC (China Compulsory Certification), è un marchio di sicurezza elettrica obbligatorio per molti prodotti venduti sul mercato cinese.

I marchi UL e cULus indicano che UL ha testato dei campioni rappresentativi di un prodotto, valutandoli idonei agli standard applicabili o ad altri requisiti, in relazione ai loro potenziali rischi di incendio, shock elettrico e pericoli meccanici. I marchi UL e cULus su un prodotto testimoniano la costante conformità del produttore alle norme di sicurezza applicabili.

Il certificato di conformità EAC è il marchio di sicurezza dell’Unione Economica Euroasiatica: Federazione Russa, Armenia, Bielorussia, Kazakistan and Kirghizistan. I certificati e le dichiarazioni EAC confermano che il prodotto dell’azienda in oggetto soddisfa i requisiti dei regolamenti tecnici della EAEU ed è sicuro da usare.

Certification Marks

IMQ mark is used for electrical appliances and components. The IMQ mark certifies that electrical products comply with the requirements of CEI and EN standards.

CCC is short for China Compulsory Certification scheme which requires manufacturers to obtain electrical approval for their products before they can be legally marketed in China.

In addition to a typical safety certification, UL also certifies certain products for functional safety. Based on a product’s application and usage, the functional safety assessment is performed in accordance with the requirements of a published and relevant functional safety standard. Functional safety is the part of overall safety that depends on the correct functioning of safety-related control systems and software.

EAC certificate of conformity is the safety mark for the Eurasian Economic Union: Russian Federation, Armenia, Belarus, Kazakhstan and Kyrgyzstan. EAC Certificates and Declarations confirm that their subject product meets the requirements of Technical Regulations of the EAEU and is safe to use.
